Appendix Routledge

As a boy in a small town in South Central Java, Indonesia I like to watch Western cowboy movies usually in black and white ,looking at shiny American cars and reading about America and I hope some day I will see America myself. After I graduated in 1958 from the medical school University of Indonesia in Jakarta I married my long time sweetheart Laney Ouw and the same year I moved to Makassar to fulfill my obligation to the Government The Univ. of Hasannudin in Makassar send me to a graduate course in 1961 in Biochemistry at the University of Tennessee Memphis TN USA After living for one year in the USA my feeling to live in America is still my desire The murder of the six Army generals of the Indonesian Army on October 1 1965 cause a turmoil in the country and demonstrations and rioting and looting took place in several cities in Java and Sumatra makes me more aware that I need to live in the USA to be free of this turmoil. In August 1967 I left with my wife and 2 children Meike and Charles for Birmingham AL USA with a legal visa .And started my internship in Medicine and later my residency in Pathology at the University of Alabama in Birmingham In 1970 I accepted a position at the Dept of Pathology Indiana University in Indianapolis Indiana In 1973 I and my wife and Meike and Charles were sworn in as US Citizen and peace came over me .Now I know that me and my family have a country that is democratic and free. Two more children were born in Birmingham Grace and David both and the older children give us much joy and feeling of settled in America Climbing through the Ranks I became Professor and Senior Associate Chairman and Chief of Service Dept of Pathology under Dr Nordschow ,the Chairman who supported

me through all those years. In 1998 I retired fully and still live in Indianapolis Indiana .

The American Library Annual CABI

Nutrition in the Prevention and Treatment of Abdominal Obesity focuses on the important roles that exercise, dietary changes, and foods play in promoting as well as reducing visceral fat. Nutritionists, dieticians, and healthcare providers seeking to address the abdominal obesity epidemic will use this comprehensive resource as a tool in their long-term goal of preventing chronic diseases, especially heart, vascular, and diabetic diseases. Experts from a broad range of disciplines are involved in dealing with the consequences of excessive abdominal fat: cardiology, diabetes research, studies of lipids, endocrinology and metabolism, nutrition, obesity, and exercise physiology. They have contributed chapters that define a range of dietary approaches to reducing risk and associated chronic diseases. They begin by defining visceral obesity and its major outcomes; they also discuss the importance and the challenges of dietary approaches to reduce abdominal obesity, as compared to clinical approaches, with major costs and risks. Offers detailed, well-documented reviews outlining the various dietary approaches to visceral obesity with their benefits and failures Includes chapters on types of foods, exercise, and supplements in reducing obesity and its chronic clinical companions, especially diabetes and cardiovascular disease Helps nutritionists, dieticians, and healthcare providers approach patients in making decision about nutritional therapies and clinical treatments for abdominal obesity, from an evidence-based perspective

Distribution of Physicians in the U. S. Elsevier Health Sciences

Due to the urbanisation of American society and the economic problems that accompanied it; a series of conferences was held to explore the economics of human resources. Originally published in 1963, this study draws together papers from the first conference dealing mainly with the under-utilisation and misallocation of human resources, as well as wage rates, migration patterns and education in urban societies and the impact they have on the American labour force. This title will be of interest to students of Environmental Studies and Economics.
