Virginia Woolf's groundbreaking novel, in a lushly illustrated hardcover edition with illuminating commentary from a brilliant young Oxford scholar and critic. "Mrs. Dalloway said she would buy the flowers herself." So begins Virginia Woolf's much-loved fourth novel. First published in 1925, Mrs. Dalloway has long been viewed not only as Woolf's masterpiece, but as a pivotal work of literary modernism and one of the most significant and influential novels of the twentieth century. In this visually powerful annotated edition, acclaimed Oxford don and literary critic Merve Emre gives us an authoritative version of this landmark novel, supporting it with generous commentary that reveals Woolf's aesthetic and political ambitions—in Mrs. Dalloway and beyond—as never before. Mrs. Dalloway famously takes place over the course of a single day in late June, its plot centering on the upper-class Londoner Clarissa Dalloway, who is preparing to throw a party that evening for the nation's elite. But the novel is complicated by Woolf's satire of the English social system, and by her groundbreaking representation of consciousness. The events of the novel flow through the minds and thoughts of Clarissa and her former lover Peter Walsh and others in their circle, but also through shopkeepers and servants, among others. Together Woolf's characters—each a jumble of memories and perceptions—create a broad portrait of a city and society transformed by the Great War in ways subtle but profound ways. No figure has been more directly shaped by the conflict than the disturbed veteran Septimus Smith, who is plagued by hallucinations of a friend who died in battle, and who becomes the unexpected second hinge of the novel, alongside Clarissa, even though—in one of Woolf's many radical decisions—the two never meet. Emre's extensive introduction and annotations follow the evolution of Clarissa Dalloway—based on an apparently conventional but actually quite complex acquaintance of Woolf's—and Septimus Smith from earlier short stories and drafts of Mrs. Dalloway to their emergence into the distinctive forms devoted readers of the novel know so well. For Clarissa, Septimus, and her other creations, Woolf relied on the skill of "character reading," her technique for bridging the gap between life and fiction, reality and representation. As Emre writes, Woolf's "approach to representing character involved burrowing deep into the processes of consciousness, and, so submerged, illuminating the infinite variety of sensation and perception concealed therein. From these depths, she extracted an unlimited capacity for life." It is in Woolf's characters, fundamentally unknowable but fundamentally alive, that the enduring achievement of her art is most apparent. For decades, Woolf's rapturous style and vision of individual consciousness have challenged and inspired readers, novelists, and scholars alike. The Annotated Mrs. Dalloway, featuring 150 illustrations, draws on decades of Woolf scholarship as well as countless primary sources, including Woolf's private diaries and notes on writing. The result is not only a transporting edition of Mrs. Dalloway, but an essential volume for Woolf devotees and an incomparable gift to all lovers of literature.

The famous island of Philae, on Egypt's southern frontier, can be considered the last major temple site where Ancient Egyptian religion was practiced. According to the Byzantine historian Procopius, in 535-537 CE the Emperor Justinian ordered one of his generals to end this situation by destroying the island's temples. This account has usually been accepted as a sufficient explanation for the end of the Ancient Egyptian cults at Philae. Yet it is by no means unproblematic. This book shows that the event of 535-537 has to be seen in a larger context of religious transformation at Philae, which was more complex and gradual than Procopius describes it. Not only are the various Late Antique sources from and on Philae taken into account, for the first time the religious developments at Philae are also placed in a regional context by analyzing the sources from the other major towns in the region, Syene (Aswan) and Elephantine. "[T]he author situates his material into its wider historical context, and does this so effectively that what begins as a very specific study of a local problem expands to consider the transitions from paganism to Christianity in Egypt as a whole, and stands as one of the most important studies of this topic to date. This well written and deeply learned book is a tour de force of regional religious history that will also be essential reading for anyone interested in indigenous religion and early Christianity in this time of transition." -- Terry Wilfong, in *Bulletin of the American Society of Papyrologists*

This book is not just for reading. Design Thinking is something you need to actually do. Reading about design thinking will increase your knowledge, but by doing it, you will learn what design thinking can mean for you, in your studies and your work. In this book we encourage you to take action: design thinking by doing. Since the end of the last millennium, design thinking has received an increasing amount of attention from the business community, social organizations, universities and colleges. Organizations are confronted with complex problems and issues that are no longer self-contained, clear or easy to define. The creative solution strategy offered by design thinking appears to be increasingly needed to adequately respond to the questions, wishes and needs of customers and society as a whole. This book unravels the thinking and working process of design thinking and offers practical tools for getting started. The author approaches design thinking in four chapters, from different perspectives: as a way of thinking, a way of working, a project approach and a tool box. Design thinking is a way of thinking answers the questions: How do design thinkers approach problems and challenges? Which six fundamental attitudes do they use and what do you need to know in order to use them? Design thinking is a way of working answers questions such as: What phases and milestones does the design process distinguish? What is the difference between the more structured design process and the 'messy' cycle of design thinking? Because you learn design thinking by doing, you will practice this in Design thinking is a project approach. Finally, in the last chapter Design thinking is a tool box, the methods and tools that you use in a design project will be discussed. This international edition of Design Thinking is written for students and workers who want to apply design thinking to tackle challenges, problems or complex (social) issues in a different, practical way within their own professional practice.

"I grew up in London with a Filipina woman called Juning, who had four children of her own living on a small island in the Philippines 7,000 miles away. Juning's husband left when their children were young, and all financial responsibility for the family fell to her. For several years Juning worked as a nanny in Manila, but in 1974, knowing that a local income could not stretch to cover her children's school fees, she decided to look for work abroad. Her youngest child was two years old when she left for Hong Kong. In 1976 my parents and brother, who was then a year old, moved from London to Hong Kong for my father's work with Barings Bank. My mother soon became pregnant with me, and in the spring of 1977 she advertised for a 'mother's help' at Waitrose in Hong Kong; Juning was one of four people who responded to the post. My mother tells me my brother hid each time someone arrived for the interview, until Juning came, when he headed straight for her lap. I'm grateful for my brother's discernment, and that in response it was Juning who my mother chose to employ, because though I have complicated feelings about growing up with someone else's mother and benefiting from her attention while her own children could not, Juning was certainly a very sound and loving person to entrust childcare to. Two or three years after Juning began working for my family in Hong Kong, we moved back to London, and Juning came with us. She continued to live with my family for twenty two years, until 1999. [...] Now, as an adult and a mother myself, the notion that Juning lived apart from her children for three decades is painful to imagine, and I can't shake off a feeling of strangeness that their lives and mine carried on in tandem for all those years, mine with their mother, theirs without. My parents chose to employ Juning, and her influence on my life has been so extensive, I can't say where it starts or ends. Juning chose to leave her children in order to financially support them, and the effect of this decision on her children's lives is also impossible to measure. We are all part of the same curious equation, we are all impacted, and after decades of living in tandem but remotely, I wanted to try to understand how."

Within the framework of the Forum A. & A Leysen, several experts from in and outside the Muslim

world contributed to this book. In *Islam and Europe: Crises Are Challenges* they discuss how dialogues between Islam and the West, with a focus on Europe, can be achieved. The various authors (legal scholars, political theorists, social scientists, and psychologists) explore in these collected essays such interrelated questions as: How much diversity is permissible within a liberal pluralistic democratic society? How strong are the implications of citizenship? What are equitable accommodations of contested practices? They argue for an adequate understanding of how Western Muslim communities in Europe experience their minority position and what needs to be done to improve their participation in European society. The second part of this Volume is a collection of papers written around the work of Abdullahi Ahmed An-Naim, who also makes his own contribution to the book. The Catholic University of Leuven awarded An-Naim an honorary doctorate in 2009 on the theme of multiculturalism, intercultural relations and diversity. An-Naim is recognized the world over as a leading expert in the area of religion and law, and as a human rights activist. *Islam and Europe: Crises Are Challenges* reinforces our sense that a better knowledge and awareness of the growing diversity of our society, and striving for harmonious relations between Islam and the West, are among the most important challenges of our time.

Based on the author's memories of a 'happy village with its own idiot and mosque' in Morocco, these surreal, interlinked stories depict a dreamlike world of spiritual and sexual awakening. The heady imagination of a young boy - peopled by veiled women, suggestive vegetables, malevolent djinns and dismembered war heroes - is set against his cosmopolitan adulthood in Amsterdam, where the prodigal son discovers he can never entirely leave his past behind him.

Dutch Poetry in Modern Times Peeters Publishers

From the hardships of a long and arduous war with Spain, the seventeenth-century Dutch seem to have drawn strength and expressed pride in their unique social and cultural heritage, especially in their art. Arthur K. Wheelock Jr., the Gallery's curator of northern Baroque painting, has carefully studied the Gallery's collection by masters of the Golden Age of Dutch art--notably Cuyp, De Hooch, Rembrandt, Ruisdael, and Vermeer. The twenty-three paintings by Rembrandt and his school are elucidated by an essay on the question of attribution, while an appendix of artists' signatures amplifies and supports the author's wide-ranging discussions of this remarkably cohesive collection.

La version arménienne ancienne des homélies sur les «Actes des Apôtres» de Jean Chrysostome.

Homélies I, II, VII, VIII Portobello Books

Drawing on and furthering the enterprise of Rembrandt scholars, who have been reinterpreting the artist and his work over the past 25 years, Alpers presents new considerations about Rembrandt's handling of paint, his theatrical approach to his models, his use of his studio as an environment under his control, and his relationship to those who bought his work. Her study is timely in light of recent research showing that well-known works attributed to Rembrandt are by followers instead. Alpers developed her text from a lecture series, and the prose gains readability by retaining some of the flavor of a talk. Still, this will find its audience chiefly among scholars and specialists in the field. Kathryn W. Finkelstein, M.
