Organizational Behavior Wiley-Blackwell

This second edition of the best-selling textbook on Work Motivation in Organizational Behavior provides an update of the critical analysis of the scientific literature on this topic, and provides a highly integrated treatment of leading theories, including their historical roots and progression over the years. A heavy emphasis is placed on the notion that behavior in the workplace is determined by a mix of factors, many of which are not treated in texts on work motivation (such as frustration and violence, power, love, and sex). Examples from current and recent media events are numerous, and intended to illustrate concepts and issues related to work motivation, emotion, attitudes, and behavior.

Organizational Behavior [Essentials] 2e offers the same quality of contemporary knowledge, excellent readability, and classroom support that has made the hardback book by the same author team one of the best-selling OB books around the world - but in a smaller package. It applies four fundamental principles: linking theory with reality, organizational behavior for everyone, contemporary theory foundation, and active learning support. McShane and Von Glinow have sliced out the extended or

secondary topics so students can drill down to what is really essential. Although this book is less than two-thirds the length of their comprehensive hardback textbook, it doesn't skimp on classroom support. In this era of active learning, critical thinking, and outcomes-based teaching, these supplements are becoming more "essential" than ever.

This is the first book to examine the connections between diaspora - the movement, whether forced or voluntary, of a nation or group of people from one homeland to another - and its representations in visual culture. Two foundational articles by Stuart Hall and the painter R.B. Kitaj provide points of departure for an exploration of the meanings of diaspora for cultural identity and artistic practice. A distinguished group of contributors, who include Alan Sinfield, Irit Rogoff, and Eunice Lipton, address the rich complexity of diasporic cultures and art, but with a focus on the visual culture of the Jewish and African diasporas. Individual articles address the Jewish diaspora and visual culture from the 19th century to the present, and work by African American and Afro-Brazilian artists.
