Grounded in the liturgical tradition and scholarship, the author explores what he calls the "new traditionalism" that notes the recent resurgence of interest in ancient forms of liturgy and spiritual practice. Everett communicates the seriousness with which he approaches his subject by offering a brief history of psalms and an exegesis of selected psalm texts. As a composer, he speaks clearly about the process of capturing the essence of each psalm in the brief, but beautiful antiphons that accompany them. The psalter itself consists of musically notated antiphon melodies with chord symbols followed by the printed psalm text which is read aloud... Many alternative and emerging church communities have begun exploring ancient music and liturgical traditions despite a lack of high-quality, published liturgical music, which does not require (or even desire) an organ and a four- part choir. The Emergent Psalter serves to provide that resource. Featuring music written for

two emerging communities (Transmission in New York and Church of the Apostles in Seattle), this book is an excellent resource for anyone producing alternative worship service or thinking of starting one.

Mysterion Seeking Understanding InterVarsity Press

This book offers hope to parishes searching for a way to make their liturgies more meaningful in the local context. Written by a priest and a musician who have worked together for many years in the Canterbury House ministry at the University of Michigan, Better Get It In Your Soul describes methods that demonstrate a respect for others' gifts and skills, discernment of spiritual needs, and welcoming the creative force of the Holy Spirit into the planning process. Though thoroughly based in the Book of Common Prayer liturgy, the experience and ideas presented here are described in ways that will be useful to all liturgical denominations. Congregants at these liturgies have commented: "I only know that I believe in God - I'm not sure of much else. But I can worship here." "[It] is a perfect combination of music of the people and the mystical sense of Christ."

For many years now, the church in North America has heard figure after figure concerning the steady flow of young people leaving the church. In the midst of these troubling figures, there remains a glimmer of hope for these youth as they transition into young adults. Ever Ancient, Ever New tells the story of a generation of younger Christians from different backgrounds and traditions who are finding a home and a deep connection in the church by embracing a liturgical expression of the faith. Author and teacher Winfield Bevins introduces you to a growing movement among younger Christians who are returning to historic, creedal, and liturgical reflections of Christianity. He unpacks why and how liturgy has beckoned them deeper into their experience of Jesus, and what types of churches and communities foster this "convergence" of old and new. Filled with stories illustrating the excitement and joy many young adults have found in these ancient expressions of Christianity, this book introduces you to practices and principles that may help the church as it seeks to engage our postmodern world.

Seinn Alleluia 2000 Hal Leonard Corporation

Revealing the fascinating body of hymnal work that flourished in Southern communities populated by the children of slaves between 1885 and 1925, this stirring collection of spiritual songs sheds light on a vanished era. While these hymns owe much to their rural Southern origin, they are distinct from traditional gospel, borrowing heavily from the oral storytelling tradition of the region and possessing a rousing, repetitive nature. Twenty-four hymns from this underappreciated era in African American music are included, along with an extensive analysis of each work, providing a rare look into a pivotal generation of church music.

The Abingdon Creative Preaching Annual 2014 Church Publishing, Inc.

In this book, Sister Kubicki uses Jacques Berthier's Taize music to explore the nature of liturgical music as ritual symbol. She carries out a hermeneutical analysis of Berthier's chants and examines biographical and historical data related to the creator's of Taize music and the founding of the Taize community. The author draws on five areas of study to interpret the Taize chants as ritual symbol - symbol theory, semiotics, theologies of symbol, ritual theory, and performative language theory. The final chapter explores potential ecclesial meanings which may be mediated in the Taize liturgy and the role of Berthier's chants in mediating that meaning. The study concludes that it is music's symbolic property that enables it to be both ministerial and integral to the liturgy. As symbolic activity, music-making evokes participation, negotiates relationships, and enables the assembly to orient themselves and to find their identity and place within their world. Furthermore, music-making provides the illocutionary force to "do something" in the act of singing. Thus it is that as part of a complexus of ritual symbols, music interacts with other symbols, in mediating the liturgy's meaning.

The Christian Life Hymnal Burgundy Hymns Ancient and Modern Ltd

This is the first book to focus exclusively on an examination of early 21st-century adult reading aloud. The dominant contemporary image of reading in much of the world is that of a silent, solitary activity. This book challenges this dominant discourse, acknowledging the diversity of reading practices that adults perform or experience in different communities, languages, contexts and phases of our lives, outlining potential educational implications and next steps for literacy teaching and research. By documenting and analysing the diversity of oral reading practices that adults take part in (on- and offline), this book explores contemporary reading aloud as hugely varied, often invisible and yet quietly ubiquitous. Duncan discusses questions such as: What, where, how and why do adults read aloud, or listen to others reading? How do couples, families and groups use oral reading as a way of being together? When and why do adults read aloud at work? And why do some people read aloud in languages they may not speak or understand? This book is key reading for advanced students, researchers and scholars of literacy practices and literacy education within education, applied linguistics and related areas.
