For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care Child Health Nursing: Partnering with Children & Families promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery--such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Based on a philosophy of active learning, this innovative and refreshing study aid is designed to help students learn the fundamentals of maternal-child nursing through unfolding case studies. Nursing content is woven into vivid case vignettes that evolve over time, thus engaging students and helping them develop critical thinking and clinical decision-making skills. The text also serves as a comprehensive workbook for students preparing for the NCLEX-RN®. It is the only maternal-child nursing review text to integrate content with practice and professional responsibilities to foster an engrossing real-world learning experience. The case vignettes are based on actual cases and incorporate all core content topics (assessment, planning, intervention, and evaluation of patient care) for maternal-child nursing and NCLEX-RN® success. The book includes multiple choice, matching, true/false and calculation questions, each related to the unfolding clinical situation. Exercise answers with rationale appear at the end of each chapter. References at the end of the book facilitate self-remediation. Nurse-educators will also find this resource helpful for simulation experiences, classroom cases, group projects, and clinical conferences. Key Features: Reviews maternal-child nursing core content for course learning and test review prep, as well as for NCLEX-RN® success Uses unfolding, real-life case vignettes to integrate core content with practice and professional responsibilities Covers all types of NCLEX-style questions for greater test familiarity Incorporates online resources for use in clinical settings Develops critical thinking skills to help students "think like a nurse"
