Translation is everywhere, and matters to everybody. Translation doesn't only give us foreign news, dubbed films and instructions for using the microwave: without it, there would be no world religions, and our literatures, our cultures, and our languages would be unrecognisable. In this Very Short Introduction, Matthew Reynolds gives an authoritative and thought-provoking account of the field, from ancient Akkadian to World English, from St Jerome to Google Translate. He shows how translation determines meaning, how it matters in commerce, empire, conflict and resistance, and why it is fundamental to literature and the arts. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Nederlands voor anderstaligen Peter Lang

This book describes a process framework for business information management: the Business Information Services Library (BiSL®) - a public domain standard that is consistent with the IT Infrastructure Library (ITIL) and Application Services Library (ASL). BiSL establishes a bridge between IT and business processes, and between business information administrators and information managers. The BiSL process model provides an insight into all of the primary processes within their field of operations and into the relationship between the various processes. It offers a starting point for the improvement of these processes using best practices, amongst other things, and it provides uniform terminology. This book explains BiSL, a process framework for business information management, encompassing the best way to manage and execute business information management in day-to-day practice, and explains how the framework BiSL can help to improve business processes and the alignment of business and IT. Additional Training material is available for free for APMG accredited trainers. If you want to have this sent to you, please send an e-mail to: info@vanharen.net By this book is a separate file (free, via internet) available: • All images in the book, in Powerpoint format. Click on the button Training Material by the book on our website.

Despite the spread of multilingualism, the number of research studies in multilingual contexts is scarce. This book deals with this question by examining would-be teachers' language use and attitudes, as their influence on future generations can be enormous. The use of the same questionnaire and the same methodology allows the reader to compare the results obtained in different European bilingual contexts, where the presence of diverse foreign languages leads to a situation in which several languages are in contact.

Dit e-book is een ePub3-bestand, dus geschikt voor tablets en de meeste e-readers met een kleurenscherm (niet geschikt voor zwart-wit e-readers). Controleer of uw apparaat dit bestandsformaat kan weergeven. De Nederlandse Grammatica, helder uitgelegd voor Engelstaligen De Van Dale Grammatica's zijn door taaldocenten ontzettend goed ontvangen vanwege het glasheldere overzicht, de vernieuwende didactische indeling op ERK-niveau en de compleetheid. Deze Van Dale Dutch Grammar is volgens hetzelfde principe gemaakt, maar nu is als steuntaal Engels gebruikt. Daarmee wordt de Nederlandse grammatica nog toegankelijker. "De opbouw van jullie grammatica is echt heel helder en overzichtelijk. Een Engelse versie zal heel handig zijn!" - docente Nederlands voor expats Grip op grammatica - Presentatie in duidelijke tabellen - Indeling in niveaus op basis van het Europees Referentiekader (ERK) - Duidelijke opbouw van het basisniveau A1 tot niveau B2 - Elk niveau een eigen kleur voor optimale herkenning - Heldere voorbeeldzinnen die passen bij het ERK-niveau

The Grammar of the English Tense System forms the first volume of a four-volume set, The Grammar of the English Verb Phrase. The other volumes, to appear over the next few years, will deal with mood and modality, aspect and voice. The book aims to provide a grammar of tense which can be used both as an advanced reference grammar (for example by MA-level or postgraduate students of English or linguistics) and as a scientific study which can act as a basis for and stimulus to further research. It provides not only a wealth of data but also a unique framework for the study of the English tense system, which achieves great predictive and explanatory power on the basis of a limited number of relatively simple rules. The framework provided allows for an analysis of the semantics of individual tenses which reflects the role of tenses not only in locating situations in time relative to speech time but also in relating situations in time relative to one another to form temporally coherent discourse. Attention is paid to the relations between tenses. On the one hand, we can identify sets of tenses linked to particular temporal areas such as the past or the future. These sets of tenses provide for the expression of a system of temporal relations in a stretch of discourse in which all the situations are located within the same temporal area. On the other hand, there are many contexts in which speakers might in theory choose between two or more tenses to locate a situation (e.g., when we choose between the past tense and the present perfect to locate a situation before speech time), and the book examines the difference that a choice of one or the other tense may make within a discourse context. The book moves from a detailed exploration of the meaning and use of individual tenses to a thorough analysis of the way in which tenses can be seen to function together as sets, and finally to a detailed examination of tenses in, and tenses interacting with, temporal adverbials. Original data is used frequently throughout the book to illustrate the theory discussed.

Nederlands voor anderstaligen. 1 Multilingual Matters

A yellow balloon sails around the world.

The Big CI Book Sterling Publishing Company, Inc.

Dutch is spoken by 23 million people, mainly in the Netherlands and Belgium, and is an official EU language. For English speakers, written Dutch can be fairly straightforward to pick up, although the pronunciation can be more of a challenge. Ubiquity Press

Untangling the various approaches to language teaching and their history, Gerdi Quist maps recent thinking in language studies at university. Using an interdisciplinary theoretical framework, drawn from educational philosophy, cultural studies, intercultural studies and language pedagogy, the author discusses the many tensions and currents in contemporary language teaching. The author puts forward an alternative pedagogy, that of a cultuurtekstperspective, which engages learners at complex linguistic and cultural levels. In discussing the case study in which this approach is tested, the author develops her argument for embracing various critical perspectives through the personal engagement of students. From the start the author acknowledges her own engaged position as a language teacher in a liberal humanistic educational environment. She adopts a self-critical perspective through which her engagement with adverse student reaction leads to deepening insights both for the author and her students as part of the non-linear process of learning. 'This book should be obligatory reading for all new lecturers in foreign languages at university. It is extremely thought-provoking and will help them make sense of the world in which they find themselves.' Jane Fenoulhet (Professor in Dutch Studies and co-editor of *Mobility and Localisation in Language Learning*)

Reading with My Eyes Open Multilingual Matters

Highly focused preparation for the revised 2015 Cambridge English: First (FCE) course in 50-60 core hours. This Student's Book without answers provides B2-level students with thorough preparation and practice needed for exam success. Ten units cover all four exam papers in a step-by-step approach. 'Quick steps' and Writing, Speaking and Listening guides explain what to expect in the exam, and provide strategies on approaching each paper, model answers, useful expressions and further practice. The CD-ROM provides interactive grammar, vocabulary and writing practice. Two complete practice tests are available online for teachers to access. Recordings for the Listening exercises are found on the Class Audio CDs or in the Student's Book Pack, available separately.

Konfrontační popis kultivované výslovnosti nizozemštiny a češtiny z pohledu českého mluvčího Oxford University Press

This Grammar shows, step by step, how the language is constructed. It presents a lively and accessible description of the language using plenty of relevant examples. This is the ideal first grammar for the Dutch learner.

Translation: A Very Short Introduction Walter de Gruyter

"For decades, international researchers and educators have sought to understand how to address cultural and linguistic diversity in education. This book offers the keys to doing so: it brings together short biographies of 36 scholars, representing a wide range of universities and countries, to allow them to reflect on their own personal life paths, and how their individual life experiences have led to and informed their research. This approach highlights how theories and concepts have evolved in different contexts, while opening up pedagogical possibilities from diverse backgrounds and enriched by the life experiences of leading researchers in the field. Beyond these questions, the book also explores the dynamic relationships between languages, power and identities, as well as how these relationships raise broader societal issues that permeate both global and local language practices. It is essential reading for students, teacher educators, and researchers interested in the impact of multilingualism on education"--

A Communicative Russian Beginners Course for Adults and Teenagers Van Dale

Werkboek Nederlandse taal voor hogeropgeleide anderstaligen, niveau B1; met drie audio-cd's

Van Dale Dutch Grammar Cassell

For most language learners, mobility is now the starting-point rather than the end-point of language learning. Rather than learning a language in order to go abroad, learners are used to moving from country to country, from culture to culture. This volume of essays explores the different attitudes to language learning generated by globalisation and shows how the local still has an impact on the language-learning classroom. The contributors have collaborated through the Languages of the Wider World Centre of Excellence in Teaching and Learning based at University College London and the School of Oriental and African Studies. The essays in the book span both reflection on language learners' shifting identities and the pedagogies of a range of less widely taught languages in which the national language has acquired fresh emphasis in the context of globalisation. How might the tension between mobility and localisation best be exploited to the benefit of language learners?

Contrasting Experiences in the Netherlands and Belgium Oxford University Press

This fully updated edition offers over 120,000 words, phrases, and definitions. It covers all the words you need for everyday use, carefully selected from the evidence of the Oxford English Corpus, a databank of 21st century English, containing over 2 billion words. The Factfinder centre section gives quick-reference entries on topics including famous people, countries, and science. Includes 3 months' access to Oxford Dictionaries Pro at oxforddictionaries.com.

A Step-by-step Guide for World Language Teachers Boyds Mills Press

This book offers 150 12-lead ECGs and rhythm strips, each with a clinical case history and question. The full ECG is reproduced and a study of it with the case history should be enough to give an answer. On the back the case is examined, with a description of the main features of the ECG along with a clinical interpretation and a "what to do" section. The cases are graded in difficulty. The unique page size allows presentation of all 12-lead ECGs across a single page for clarity. Several of the cases incorporate chest X-rays and coronary angiograms illustrating the appearances that are associated with various cardiac conditions. All the cases are graded in difficulty and are cross-referenced to the new editions of ECG Made Easy and ECG in Practice for further information. For this Fourth Edition over 30 new ECGs have been included, mainly to provide clearer examples, though the book deliberately retains some technically poor records to maintain a 'real-world' perspective.

This second edition updates a course which has proven to be a perfect fit for classes the world over. Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 2 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in the units.

When he disappears on a cruise, a woman discovers her husband's secret life in this international-bestselling thriller from a sensational Dutch author. Frank and Helen's anniversary cruise is going perfectly, until the unthinkable happens and Frank disappears. Helen does everything she can to find her husband, but is ultimately forced to return home, alone and distraught. After spending the next few months searching, Helen hears from someone who has news of her husband. But not the news she hoped for: Helen learns that Frank was leading a double life. It becomes increasingly apparent that the man she married had a dark side Helen could never have imagined. Suzanne Vermeer, the bestselling mystery writer in the Netherlands, spins this story with unparalleled suspense.

[Art of Drawing the Human Body](#) John Wiley & Sons

Offers a detailed study of the anatomical structure of the human body, and provides tips on motion, proportion, and shading the figures.
