Answers to Questions and Problems Study of Managerial Economics helps in enhancement of analytical skills, assists in rational configuration as well as solution of problems. While microeconomics is the study of decisions made regarding the allocation of resources and prices of goods and services, macroeconomics is the field of economics that studies the behavior of the economy as a whole (i.e. entire industries and economies). Managerial Economics - Fundamental and Advanced Concepts Managerial economics uses economic theory to solve business decision-making problems. Economic theory has been broadly divided into microeconomics and macroeconomics. Briefly, microeconomics deals with the theory of decision-making by individual consumers, resource owners and business firms in a free market economy. Business Decision-Making Problems (With Diagram) Economic theory and economic analysis are used to solve the problems of managerial economics. Economics basically comprises of two main divisions namely Micro economics and Macro economics. Microeconomics Macroeconomics Managerial economics
