Part of the Legend Classics seriesAs Gregor Samsa awoke one morning from uneasy dreams he found himself transformed in his bed into a gigantic insect.The Metamorphosis - the masterpiece of Franz Kafka - was first published in 1915 and is one of the seminal works of fiction of the twentieth century. The novel is cited as a key influence for many of today's leading authors; as Auden wrote: "Kafka is important to us because his predicament is the predicament of modern man".Traveling salesman, Gregor Samsa, wakes to find himself transformed into a large, monstrous insect-like creature. The cause of Gregor's transformation is never revealed, and as he attempts to adjust to his new condition he becomes a burden to his parents and sister, who are repelled by the horrible, verminous creature Gregor has become.A harrowing, yet strangely comic, meditation on human feelings of inadequacy, guilt, and isolation, The Metamorphosis has taken its place as one of the most widely read and influential works of twentieth-century fiction.The Legend Classics series:Around the World in Eighty DaysThe Adventures of Huckleberry FinnThe Importance of Being EarnestAlice's Adventures in WonderlandThe MetamorphosisThe Railway ChildrenThe Hound of the BaskervillesFrankensteinWuthering HeightsThree Men in a BoatThe Time MachineLittle WomenAnne of Green GablesThe Jungle BookThe Yellow Wallpaper and Other StoriesDraculaA Study in ScarletLeaves of GrassThe Secret GardenThe War of the WorldsA Christmas CarolStrange Case of Dr Jekyll and Mr HydeHeart of DarknessThe Scarlet LetterThis Side of ParadiseOliver TwistThe Picture of Dorian GrayTreasure IslandThe Turn of the ScrewThe Adventures of Tom SawyerEmmaThe TrialA Selection of Short Stories by Edgar Allan PoeGrimm Fairy Tales

Biological Macromolecules: Bioactivity and Biomedical Applications presents a comprehensive study of biomacromolecules and their potential use in various biomedical applications. Consisting of four sections, the book begins with an overview of the key sources, properties and functions of biomacromolecules, covering the foundational knowledge required for study on the topic. It then progresses to a discussion of the various bioactive components of biomacromolecules. Individual chapters explore a range of potential bioactivities, considering the use of biomacromolecules as nutraceuticals, antioxidants, antimicrobials, anticancer agents, and antidiabetics, among others. The third section of the book focuses on specific applications of biomacromolecules, ranging from drug delivery and wound management to tissue engineering and enzyme immobilization. This focus on the various practical uses of biological macromolecules provide an interdisciplinary assessment of their function in practice. The final section explores the key challenges and future perspectives on biological macromolecules in biomedicine. Covers a variety of different biomacromolecules, including carbohydrates, lipids, proteins, and nucleic acids in plants, fungi, animals, and microbiological resources Discusses a range of applicable areas where biomacromolecules play a significant role, such as drug delivery, wound management, and regenerative medicine Includes a detailed overview of biomacromolecule bioactivity and properties Features chapters on research challenges, evolving applications, and future perspectives

Life is produced by the interplay of water and biomolecules. This book deals with the physicochemical aspects of such life phenomena produced by water and biomolecules, and addresses topics including "Protein Dynamics and Functions", "Protein and DNA Folding", and "Protein Amyloidosis". All sections have been written by internationally recognized front-line researchers. The idea for this book was born at the 5th International Symposium "Water and Biomolecules", held in Nara city, Japan, in 2008.

The Navodaya Vidyalaya Samiti (NVS) is an autonomous Body under MHRD government of India. As per the policy of the Government, Jawahar Navodaya Vidyalaya is to be established in each district. There are over 630 Jawahar Navodaya Vidyalaya across the country and eight regional officers of JNV. This vast network required a high number of Teachers and Staff at administration level to ensure smooth functioning of these schools and centers. For this purpose Navodaya Vidyalaya Samiti (NVS) invites application every year for the recruitment of Trained Graduate Teacher (TGT), Post Graduate Teacher (PGT), etc. For getting a job of NVS TGT Biology candidates should have a Master's Degree in Biology from recognized university with minimum 50% marks. Teaching profession has always been a respectable job so grab this post and become a NVS PGT teacher.

101 Topic-wise Speed Tests for RRB NTPC Non Technical Exam with 14 Practice Sets (10 in book & 4 Online CBT) 2nd Edition The Princeton Review

Written by teachers and fully covering the 2002 A Level maths specifications for biology, this text is useful for both classroom work and homework exercises. Relevant for AS and A2 Levels of study and designed to be accessible and friendly in format, its aim is to provide clear and concise explanations of mathematical concepts and how these are then applied in biology. Worked examples are included throughout encouraging students to grasp the subject matter with ease. Examination style questions and answer sections provide an opportunity for continuous progression and to consolidate learning.

[McGraw-Hill's 10 ACT Practice Tests, Second Edition](#) Hodder Gibson

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
