The Secret History of the CIA, Afghanistan and Bin Laden

Columbia University Press

As made abundantly clear in the classified documents recently made public by WikiLeaks, Pakistan is the keystone in the international fight against terrorism today. After the US-led coalition targeted terrorist groups operating in Afghanistan, these groups, including al Qaeda and the Taliban, relocated to the Federally Administered Tribal Area of Pakistan. From its base in this remote, inhospitable region of Pakistan, al Qaeda and its associated cells have planned, prepared, and executed numerous terrorist attacks around the world, in addition to supporting and waging insurgencies in Iraq, Afghanistan, Yemen, Somalia, and elsewhere. This book is the first detailed analysis of the myriad insurgent groups working in Pakistan. Written by well-known expert on global terrorism Rohan Gunaratna and Khuram Iqbal, a leading scholar in Pakistan, the book examines and reviews the nature, structure, and agendas of the groups, their links to activists in other countries, such as India and Iran, and the difficulties of defeating terrorism in this part of the world. Drawing on extensive field research and interviews with government officials and former terrorists, the authors argue that Pakistan faces grave and continuing pressures from within, and that without steadfast international goodwill and support, the threats of extremism, terrorism, and insurgency will continue to grow. This timely and necessary book argues that if the international community is to win the battle against ideological extremism and operational terrorism around the world, then Pakistan should be in the vanguard of the fight.

This book studies the veneration practices and rituals of the Muslim saints. It outlines principal trends of the main Sufi orders in India, the profiles and teachings of the famous and less known saints, and the development of pilgrimage to their tombs in India, Pakistan and Bangladesh. A detailed discussion of the interaction of the Hindu mystic tradition and Sufism shows the polarity between the rigidity of the orthodox and the flexibility of the popular Islam in South Asia.

Iran has one of the world's highest rates of drug addiction: estimated to be between 2 and 7 percent of the entire population. This makes the questions that this book asks all the more salient: what is the place of illegal substances in the politics of modern Iran? How have drugs affected the formation of the Iranian state and its power dynamics? And how have governmental attempts at controlling and regulating illicit drugs affected drug consumption and addiction? By answering these questions, Maziyar Ghiabi suggests that the Islamic Republic of Iran's image as an inherently conservative state is not only misplaced and inaccurate, but in part a myth. In order to dispel this myth, he skilfully combines ethnographic narratives from drug users, vivid field observations from 'under the bridge', with archival material from the pre- and post-revolutionary era, statistics on drug arrests and interviews with public officials. This title is also available as Open Access on Cambridge Core.

"In 2012, the year 1433 of the Muslim calendar, the Islamic population throughout the world was estimated at approximately a billion and a half, representing about one-fifth of humanity. In geographical terms, Islam occupies the center of the world, stretching like a big belt across the globe from east to west."--P. vii.

An Imaginary Racism Rowman & Littlefield

"This book provides the first ever overview of the history and development of Islam in Afghanistan. It covers every era from the conversion of Afghanistan through the medieval and early modern periods to the present day. Based on primary sources in Arabic, Persian, Pashto, Urdu and Uzbek, its depth and scope of coverage is unrivalled by any existing publication on Afghanistan. As well as state-sponsored religion, the chapters cover such issues as the rise of Sufism, Sharia, women's religiosity, transnational Islamism and the Taliban. Islam has been one of the most influential social and political forces in Afghan history. Providing idioms and organizations for both anti-state and anti-foreign mobilization, Islam has proven to be a vital socio-political resource in modern Afghanistan. Even as it has been deployed as the national cement of a multi-ethnic 'Emirate' and then 'Islamic Republic,' Islam has been no less a destabilizing force in dividing Afghan society. Yet despite the universal scholarly recognition of the centrality of Islam to Afghan history, its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements. To help develop a more comprehensive, comparative and developmental picture of Afghanistan's Islam from the eighth century to the present, this edited volume brings together specialists on different periods, regions and languages. Each chapter forms a case study 'snapshot' of the Islamic beliefs, practices, institutions and authorities of a particular time and place in Afghanistan"--Provided by publisher

The news-breaking book that has sent shockwaves through the White House, *Ghost Wars* is the most accurate and revealing account yet of the CIA's secret involvement in al-Qaeda's evolution. Prize-winning journalist Steve Coll has spent years reporting from the Middle East, accessed previously classified government files and interviewed senior US officials and foreign spymasters. Here he gives the full inside story of the CIA's covert funding of an Islamic jihad against Soviet forces in Afghanistan, explores how this sowed the seeds of bin Laden's rise, traces how he built his global network and brings to life the dramatic battles within the US government over national security. Above all, he lays bare American intelligence's continual failure to grasp the rising threat of terrorism in the years leading to 9/11 - and its devastating consequences.
