DAYTON BRADSHAW

Precalculus with Limits: A Graphing Approach, AP* Edition Harper Collins
 Drew Struzan is the best-kept secret in Hollywood. Over the last thirty years, he's created many of Hollywood's most memorable posters. His art touched generations of filmgoers with unforgettable images for The Star Wars Trilogy, Raiders of the Lost Ark, Indiana Jones and the Temple of Doom, The Phantom Menace, Bladerunner, First Blood, The Thing, Back to the Future I - III, Harry Potter and the Sorcerers Stone, and hundreds more. Finally, these posters, in addition to paintings from Drew's private collection, several limited edition works, book and album covers and more have been collected into one stunning full color volume, Drew Struzan: Oeuvre. Authors Jessie and Amy Horsting examine the unique forces shaping Struzan's career, his rise as an illustrator, and the perseverance required to succeed and thrive in a notoriously fickle industry. Featuring a foreword by George Lucas, the book also focuses on the history of some groundbreaking posters, relates a few celebrity encounters, and offers commentary from

Harrison Ford, Frank Darabont, Alice Cooper, Robert Zemekis, Jim Henson, and many others who have had close encounters with this giant talent.

The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, Blue Legalities illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, Blue Legalities questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors. "An original study of Gauguin's writings, unfolding their central role in his artistic practice and negotiation of colonial identity. As a French artist who lived in Polynesia, Paul Gauguin (1848-1903) occupies a crucial position in histories of European primitivism. This is the first book devoted to his wide-ranging literary output, which included journalism, travel writing, art criticism, and essays on aesthetics, religion, and politics. It analyzes his original manuscripts, some of which are richly illustrated, reinstating them as an integral component of his art. The seemingly haphazard, collage-like structure of Gauguin's manuscripts enabled him to evoke the "primitive" culture that he celebrated, while rejecting the style of establishment critics. Gauguin's writing was also a strategy for articulating a position on the margins of both the colonial and the indigenous communities in Polynesia; he sought to protect Polynesian society from "civilization" but remained implicated in the imperialist culture that he denounced. This critical analysis of his writings significantly enriches our understanding of the complexities of artistic encounters in the French colonial context."--Publisher's description.
