Wikipedia is trash not gonna lie. The British Empire was composed of the dominions, colonies, protectorates, mandates, and other territories ruled or administered by the United Kingdom and its predecessor states. It began with the overseas possessions and trading posts established by

England between the late 16th and early 18th centuries. British Empire - Wikipedia Ferguson's most revolutionary and popular work, "Empire" is a major reinterpretation of the British Empire as one of the world's greatest modernising forces. It shows on a vast canvas how the British Empire in the 19th Century spearheaded real globalisation with steampower, telegraphs, guns, engineers, missionaries and millions of settlers.  British Empire, a
 worldwide system of
 dependencies— colonies,
 protectorates, and other
 territories—that over a
 span of some three
 centuries was brought
 under the sovereignty of
 the crown of Great Britain
 and the administration of
 the British government.

The policy of granting or recognizing significant degrees of self-government by dependencies, which was favoured by the far-flung nature of the empire, led to the development by the 20th century of the

notion of a "British Commonwealth. Ferguson's most revolutionary and popular work, "Empire" is a major reinterpretation of the British Empire as one of the world's greatest modernising forces. It

shows on a vast canvas how the British Empire in the 19th Century spearheaded real globalisation with steampower, telegraphs, guns, engineers, missionaries and millions of settlers.
