The financial statements of banks differ very much from those of non-banks. The assets and liabilities are mostly financial based, and the equity ratio is far lower than the equity ratios of industrial companies. Banking supervision has a big influence on the financial statements too. Recent years have shown the risks which can evolve from banks, but normal instruments of financial statement analysis are not sufficient to analyse banks and locate these risks: different methods are needed. This book, by experienced bank analyst Thomas Padberg, provides analysts and investors with the tools to analyse bank financial statements, find problems in bank finances, and assess the risks of banks. Examples with real bank financial data are used to show readers the step-by-step methods to follow when looking at bank financial statements. The book covers: - The specific accounting rules that apply to banks - How to analyse bank segment reporting - The ratios to use when analysing bank financial statements - How to analyse bank profit and loss accounts - Equity analysis and stock analysis of banks This is an essential guide for all analysts and serious investors who need to analyse bank financial statements.

Management Policies for Commercial Banks Prentice Hall

Banking Sector plays an imperative role in economic development of a country. The banking system of India is featured by a large network of bank branches, serving many kinds of financial services of the people. In today's financial world, financial performance is a mundane among the perspective of various stakeholders, be it in the management, lenders, owners and investors' perspective. The knowledge of financial performance helps in predicting, comparing and evaluating the earning ability of the company. It also helps in economic and investment decisions. Any company provides financial information through financial statements and reports. A bank's financial performance can be assessed by analyzing the data provided in its quarterly and annual reports. The present study is conducted to compare the financial performance of Axis Bank and ICICI Bank on the basis of Net Profit and some ratios such as return on equity, capital adequacy, Total Income to Capital Employed and Total Debt to Owners Fund ratio etc. The period of study taken is from the year 2013-14 to 2017-18. The study found that ICICI Bank is performing well and financially sound in terms of Net profit than Axis Bank but in context of return on equity Axis Bank has better managing efficiency than ICICI Bank.
