“I’ve paged through stacks of books on the history of watches. . . . But I hadn’t come across a book that actually moved me until I picked up A Man and His Watch. The volume is filled with heartfelt stories.” —T: The New York Times Style Magazine "There are a bunch of beautifully illustrated watch books out there, but A Man & His Watch by Matt Hranek is more than that. It speaks to the nature of watches as deeply personal items." —Gear Patrol, Coffee Table Books Our Staff Can’t Live Without Paul Newman wore his Rolex Daytona every single day for 35 years until his death in 2008. The iconic timepiece, probably the single most sought-after watch in the world, is now in the possession of his daughter Clea, who wears it every day in his memory. Franklin Roosevelt wore an elegant gold Tiffany watch, gifted to him by a friend on his birthday, to the famous Yalta Conference where he shook the hands of Joseph Stalin and Winston Churchill. JFK’s Omega worn to his presidential inauguration, Ralph Lauren’s watch purchased from Andy Warhol’s personal collection, Sir Edmund Hillary’s Rolex worn during the first-ever summit of Mt. Everest . . . these and many more compose the stories of the world’s most coveted watches captured in A Man and His Watch. Matthew Hranek, a watch collector and NYC men’s style fixture, has traveled the world conducting firsthand interviews and diving into exclusive collections to gather the never-before-told stories of 76 watches, completed with stunning original photography of every single piece. Through these intimate accounts and Hranek’s storytelling, the watches become more than just timepieces and status symbols; they represent historical moments, pioneering achievements, heirlooms, family mementos, gifts of affection, and lifelong friendships.

The Apple Watch Series 5 combines all the features you could ever want from a wearable band. Every year, Apple has been adding necessary features to make the Apple watch better. The Series 2 came with the needed power for native apps. After that, Series 3 brought cellular connectivity and Series 4 had display pushed to full capacity. Series 5 allows for an always-on display. The watch is now a watch. If you own the Series 4, an always-on display may not be reason enough to upgrade. However, the Series 5 offers much more. Apple is not the first manufacturer to do this, but they might as well be the best. Monochrome veneer, secondary display layer—all these things are not there. You only get an existing watch face; always on. How does it work? With previous versions, the Apple Watch would go into sleep mode when you were not interacting with it. The same thing happens with the Apple Series 5.
