I am addicted to
positivity. I am addicted
to positivity. I am
addicted to positivity. I
care more about feeling
great than being great. I
am NOT THAT GREAT. The
self-help industry tells you
that if you're positive, if
you put your best foot
forward and if you just
believe in yourself that
you will find happiness.
Let's be real, you can read
all the inspirational quotes
you want. You can spend
your days giving yourself

affirmations in your heart-shaped mirror and trying to learn to love yourself. You can say your mantra over and over again while sitting cross-legged on a yoga mat in a Whole Foods parking lot. But the truth is, you're not a badass and you still don't have the life you want. That's where You're Not That Great (but neither is anyone else) comes in. This book teaches you how to harness all the negativity in the world and use it to improve your life, taking everyday feelings like self-loathing, regret and shame and making them work for you. Positive thinking is for assholes. Negative thinking is for winners.

This book is about wealth and how to create it. If you sincerely follow these simple principles, your life is about to change. You may have heard that before and been disappointed, because there are vast numbers of teachers and books on wealth creation making the same claims that exercise products do - that is, the results will be effortless, immediate, and you won't have to change or work or even think very much to get them. We all know that's nonsense,

playing on our hopes and fears, but it just seems so irresistible. So we try, but the books end up on the shelf and the magical exercise machine gathers dust in the garage, and all that changes is our courage, and our belief that we deserve more. So what makes this book any different? Three things. First of all, we knew that if it was just another dense mass of financial charts, investment projections, and other incomprehensible data, those who need it wouldn't read it, and those who knew it wouldn't need it. If it isn't clear, people won't do it, and neither would we. So we didn't write that book. Secondly, we appreciate that the single most important factor in any real and lasting transformation is... you. If you don't change, all the knowledge in the world won't change your life, so we address both; not only the practical steps that will increase your wealth no matter what level you're at now, but also principles and exercises that will have a profound effect on who you are and what you feel you deserve from the world - the doing and the being. This is not a book you read, but a book you live. Finally, this

knowledge does not come from us alone. It is the result of over 70 combined years of diligent research and personal experience, with the guidance of all the inspired masters of the past and present we have been privileged to learn from, meet, or work with. This wisdom has stood the test of time, has proven its value, and it is deeply satisfying to help others gain quickly what took us so long to learn. Albert Einstein said, "If I see far, it is because I stand upon the shoulders of giants," and so do we.

 ave you ever wished you could be someone or something else so you could get out of doing things you don't want to do? That's exactly what the boy in this story does. The boy thinks of all the things rhinos don't like, such as haircuts, eating dinner, and going to school. He also imagines that rhinos don't like their teachers and would rather go outside and play than sit in class. The boy starts pretending to be a rhino, which makes his mother upset. Eventually, he realizes that all the things he's trying to avoid aren't so bad—and that they may even be good for him. Every child will find it easy to relate to the boy and rhino in this story. Most of them have the same problems, but deep down inside, they know that even things they don't like are often worth doing.

In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It's a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like

Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. *Neither Wolf nor Dog* takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new introduction by the author. "This is a sobering, humbling, cleansing, loving book, one that every American should read." -- Yoga Journal

This work is an historical discussion and new translation of one of the key works of medicine of the English renaissance. The only two available translations are between one and three and a half centuries old. Because so many errors have crept into translations of Harvey's seminal work a new edition has been called for and a new translation as well. McMullen's work on this topic has been called "Groundbreaking and excellent" by the Journal of the Royal Society of Medicine. Discussion of Italian philosophical, ethical and medical objections to the circulation theory (Padua). Contents include a discussion of English translations, the Latin texts, the controversies, analysis of Harvey's research, a short biography of Harvey, the new translation, a critical Latin text based on the second edition(1643) in the format of the 1628 original, an appendix and critique of the Leake and Franklin translations, Endnotes for the English

translation, Bibliography, and indexes of the English translation and of the critical armature.

You're Not That Great

New World Library
A NEW YORK TIMES
NOTABLE BOOK OF THE
YEAR • NEW YORK TIMES
BEST SELLER • From one of our most iconic and influential writers, the award-winning author of The Year of Magical Thinking: a timeless collection of mostly early pieces that reveal what would become Joan Didion's subjects, including the press, politics, California robber barons, women, and her own self-doubt. With a forward by Hilton Als, these twelve pieces from 1968 to 2000, never before gathered together, offer an illuminating glimpse into the mind and process of a legendary figure. They showcase Joan Didion's incisive reporting, her empathetic gaze, and her role as "an articulate witness to the most stubborn and intractable truths of our time" (The New York Times Book Review). Here, Didion touches on topics ranging from newspapers ("the problem is not so much whether one trusts the news as to whether one finds it"), to the fantasy of San

Simeon, to not getting into Stanford. In "Why I Write," Didion ponders the act of writing: "I write entirely to find out what I'm thinking, what I'm looking at, what I see and what it means." From her admiration for Hemingway's sentences to her acknowledgment that Martha Stewart's story is one "that has historically encouraged women in this country, even as it has threatened men," these essays are acutely and brilliantly observed. Each piece is classic Didion: incisive, bemused, and stunningly prescient.

room for freedom. The Price of Silver is the second book in Josie Jaffrey's Solis Invicti paranormal romance series, set in a dystopian, post-apocalyptic London where a deadly infection threatens to wipe out humanity. The only people who can stem its advance are the Silver, a vampiric race who offer a simple exchange: protection in return for blood and subservience. Emmy is fenced in by the city, the walls marking the edge of safety closing in around her and sealing her in with one vampire who loves her and

another who wants her dead. As she struggles to keep herself and the people she cares about alive, her fellow humans chafe against their enforced submission, and it becomes clear that there are bigger schemes and greater deceptions in play than she had ever imagined. All the while, the monsters wait outside the barricades for their moment. Of one thing she is certain: without the help of the Silver, the humans won't be safe for long.

In relishing and taking full advantage of the room the biblical text leaves for the imagination, Trevor Dennis has produced a beautifully crafted collection of poetry and prose that releases the power of the gospel story afresh. Not only does he pay careful heed to the women of the Gospels, he also seeks to enter into the minds of those 'on the other side' in material written from the perspective of Pilate, 'the Jews' and someone who is fighting against the uncomfortable truths of Good Friday.
