The Chronicles of Vladimir Tod: Twelfth Grade Kills Psychology Press

This book is the first to offer an overview of the increasingly studied field of face perception. Experimental and pathological dissociation methods are used to understand both the precise cognitive mechanisms and the cerebral functions involved in face perception. Three main areas of investigation are discussed: face processing after brain damage; lateral differences for face processing in normals; neuropsychological studies on facial expressions.

FLOUR POWER When Hollywood invades Savannah's historic district to film a Revolutionary War movie, magical baker Katie Lightfoot, and her witches' coven, the Spellbook Club, take a break from casting spells for casting calls. One of the witches snags a part as an extra, while Katie's firefighter boyfriend, Declan, acts as on-set security. Katie and her aunt Lucy decide to stay out of the action, but after the movie's "fixer" fires the caterer, the Honeybee Bakery comes to the rescue, working their magic to keep the hungry crew happy. But when someone fixes the fixer—permanently—and a spooky psychic predicts Katie will find the killer, the charming baker and her fellow conjurers step in to sift through the suspects...before someone else winds up on the cutting room floor....

Vlad's running out of time. The Elysian Council has given him weeks to live, and that's if the Slayer Society doesn't kill him first. Then there's the issue of Vlad's

father, who may or may not still be alive after all these years, and oh yeah, that tiny little detail in the Pravus prophecy about Vlad enslaving Vampirekind and the human race. So much for college applications . . . Dark secrets will be revealed, old friends will become enemies, and warm blood will run cold in this thrilling final instalment in the tales of Vladimir Tod.

A suspenseful sci-fi escapade plucks two children out of the ocean for a thrilling adventure. Thirteen-year-old Aluna has lived her entire life under the ocean with the Coral Kampii in the City of Shifting Tides. But after centuries spent hidden from the Above World, her colony's survival is at risk. The Kampii's breathing necklaces are failing, but the elders are unwilling to venture above water to seek answers. Only headstrong Aluna and her friend Hoku are stubborn and bold enough to face the terrors of land to search for way to save their people. But can Aluna's fierce determination and fighting skills and Hoku's tech-savvy keep them safe? Set in a world where overcrowding has led humans to adapt - growing tails to live under the ocean or wings to live on mountains - here is a ride through a future where greed and cruelty have gone unchecked, but the loyalty of friends remains true.

What does it take to build an iPhone app with stunning 3D graphics? This book will show you how to apply OpenGL graphics programming techniques to any device running the iPhone OS -- including the iPad and iPod Touch -- with no iPhone development or 3D graphics experience required. iPhone 3D Programming provides clear step-by-step instructions, as well as lots of practical advice, for using the iPhone SDK and OpenGL. You'll build several graphics programs -- progressing from simple to more complex examples -- that focus on lighting, textures, blending, augmented reality, optimization for performance and speed, and much more. All you need to get started is a solid understanding of C++ and a great idea for an app. Learn fundamental graphics concepts, including transformation matrices, quaternions, and more Get set up for iPhone development with the Xcode environment Become familiar with versions 1.1 and 2.0 of the OpenGL ES API, and learn to use vertex buffer objects, lighting, texturing, and shaders Use the iPhone's touch screen, compass, and accelerometer to build interactivity into graphics applications Build iPhone graphics applications such as a 3D wireframe viewer, a simple augmented reality application, a spring system simulation, and more
