## TATE AUGUSTUS

*Writing the Classroom* Beacon Press (MA)

#1 New York Times bestseller "Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history."—Bill Gates "Monumental... an authoritative and disturbing morality tale."—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, "The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart." At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.

*Cracking the AP English Language & Composition Exam* Algonquin Books

In twenty short books, Penguin brings you the classics of the

environmental movement. With honesty, passion and heart, Terry Tempest Williams's essays explore the impact of nuclear testing, the vital importance of environmental legislation, and the guiding spirit of conservation. Over the past 75 years, a new canon has emerged. As life on Earth has become irrevocably altered by humans, visionary thinkers around the world have raised their voices to defend the planet, and affirm our place at the heart of its restoration. Their words have endured through the decades, becoming the classics of a movement. Together, these books show the richness of environmental thought, and point the way to a fairer, saner, greener world.

*Mother* Yale University Press

In "Letter from Birmingham Jail," Martin Luther King Jr. explains why blacks can no longer be victims of inequality.

*Contemporary Rhetorical Criticism* Laurel Leaf

From bestselling author Michael Shermer, an investigation of the evolution of morality that is "a paragon of popularized science and philosophy" *The Sun* (Baltimore) A century and a half after Darwin first proposed an "evolutionary ethics," science has begun to tackle the roots of morality. Just as evolutionary biologists study why we are hungry (to motivate us to eat) or why sex is enjoyable (to motivate us to procreate), they are now searching for the very nature of humanity. In *The Science of Good and Evil*, science historian Michael Shermer explores how humans evolved from social primates to moral primates; how and why morality motivates the human animal; and how the foundation of moral principles can be built upon empirical evidence. Along the way he explains the implications of scientific findings for fate and free will, the existence of pure good and pure evil, and the development of early moral sentiments among the first humans.

As he closes the divide between science and morality, Shermer draws on stories from the Yanamamö, infamously known as the "fierce people" of the tropical rain forest, to the Stanford studies on jailers' behavior in prisons. *The Science of Good and Evil* is ultimately a profound look at the moral animal, belief, and the scientific pursuit of truth.

**Body Ritual Among the Nacirema** Simon and Schuster

"If you've got nothing to hide," many people say, "you shouldn't worry about government surveillance." Others argue that we must sacrifice privacy for security. But as Daniel J. Solove argues in this important book, these arguments and many others are flawed. They are based on mistaken views about what it means to protect privacy and the costs and benefits of doing so. The debate between privacy and security has been framed incorrectly as a zero-sum game in which we are forced to choose between one value and the other. Why can't we have both? In this concise and accessible book, Solove exposes the fallacies of many pro-security arguments that have skewed law and policy to favor security at the expense of privacy. Protecting privacy isn't fatal to security measures; it merely involves adequate oversight and regulation. Solove traces the history of the privacy-security debate from the Revolution to the present day. He explains how the law protects privacy and examines concerns with new technologies. He then points out the failings of our current system and offers specific remedies. *Nothing to Hide* makes a powerful and compelling case for reaching a better balance between privacy and security and reveals why doing so is essential to protect our freedom and democracy"--Jacket.

**Discovering Wes Moore** Open Road Media

*Rhetorical Analysis: A Brief Guide for Writers*, walk students

through the process for doing different kinds of analyses -- argument analysis, structure analysis, style analysis, and more. Shows how to analyze a range of texts, print, visual, and multimedia. Includes authors' own analyses as models for students, as well as 4 complete student model papers. Introduces students to rhetorical concepts (both classical and modern) that are relevant to rhetorical analysis.

Letter from the Birmingham Jail U of Minnesota Press

A military paratrooper and White House fellow contrasts events from his life with those of a fatherless friend to explore the issues that separate the outcomes of success and failure.

Rhetorical Devices Grove/Atlantic, Inc.

Writing the Classroom explores how faculty compose and use pedagogical documents to establish classroom expectations and teaching practices, as well as to articulate the professional identities they perform both inside and outside the classroom. The contributors to this unique collection employ a wide range of methodological frameworks to demonstrate how pedagogical genres—even ones as seemingly straightforward as the class syllabus—have lives extending well beyond the classroom as they become part of how college teachers represent their own academic identities, advocate for pedagogical values, and negotiate the many external forces that influence the act of teaching. Writing the Classroom shines a light on genres that are often treated as two-dimensional, with purely functional purposes, arguing instead that genres like assignment prompts, course proposals, teaching statements, and policy documents play a fundamental role in constructing the classroom and the broader pedagogical enterprise within academia. Writing the Classroom calls on experienced teachers and faculty administrators to critically consider their own engagement with pedagogical genres and offers graduate students and newer faculty insight into the genres that they may only now be learning to inhabit as they seek to establish their personal teacherly identities. It showcases the rhetorical complexity of the genres written in the service of pedagogy not only for students but also for the many other audiences within academia that have a role in shaping the experience of teaching. Contributors: Michael Albright, Lora Arduser, Lesley Erin Bartlett, Logan Bearden, Lindsay Clark, Dana Comi, Zack K. De Piero, Matt Dowell, Amy Ferdinandt Stolley, Mark A. Hannah, Megan Knight, Laura R. Micciche, Cindy Mooty,

Dustin Morris, Kate Navickas, Kate Nesbit, Jim Nugent, Lori A. Ostergaard, Cynthia Pengilly, Jessica Rivera-Mueller, Christina Saily, Megan Schoen, Virginia Schwarz, Christopher Toth

**The Clan of One-Breasted Women** Penguin

"In the tradition of Wendell Berry, Sanders champions fidelity to place, informed by ecological awareness, arguing that intimacy with one's home region is the grounding for global knowledge.

"Reflective, rhapsodic, luminous essays. . . . A wise and beautifully written book."-Publishers Weekly, starred review

Last Child in the Woods ReadHowYouWant.com

NEW YORK TIMES BESTSELLER • The "compassionate" (People), "startling" (Baltimore Sun), "moving" (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. In development as a feature film executive produced by Stephen Curry, who selected the book as his "Underrated" Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn't shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating

dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

The Science of Good and Evil Hill and Wang

THIS TITLE HAS BEEN UPDATED TO REFLECT THE 2016 MLA UPDATE. The New York Times best-selling book on academic writing--in use at more than 1,500 schools.

Ain't I A Woman? Macmillan

"[A] stunning tale of academic fraud . . . shocking and compelling."-The Washington Post Dave Tomar wrote term papers for a living. Technically, the papers were "study guides," and the companies he wrote for--there are quite a few--are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar's career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. The Shadow Scholar is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering, Tomar explores not merely his own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

**American Literature and Rhetoric** Penguin

*Their Eyes Were Watching God* is a 1937 novel by African-American writer Zora Neale Hurston. It is considered a classic of the Harlem Renaissance of the 1920s, and it is likely Hurston's best known work.

The Shadow Scholar National Geographic Books

A New York Times Notable Book of the Year, winner of the Southern Book Critics Circle Award and the Lillian Smith Award. An American epic of science, politics, race, honor, high society, and the Mississippi River, *Rising Tide* tells the riveting and nearly forgotten story of the Great Mississippi Flood of 1927. The river inundated the homes of almost one million people, helped elect Huey Long governor and made Herbert Hoover president, drove hundreds of thousands of African Americans north, and transformed American society and politics forever. The flood brought with it a human storm: white and black collided, honor and money collided, regional and national powers collided. New

Orleans's elite used their power to divert the flood to those without political connections, power, or wealth, while causing Black sharecroppers to abandon their land to flee up north. The states were unprepared for this disaster and failed to support the Black community. The racial divides only widened when a white officer killed a Black man for refusing to return to work on levee repairs after a sleepless night of work. In the powerful prose of *Rising Tide*, John M. Barry removes any remaining veil that there had been equality in the South. This flood not only left millions of people ruined, but further emphasized the racial inequality that have continued even to this day.

*Rising Tide* W. W. Norton

"The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition In his landmark work *Last Child in the Woods*, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, *Last Child in the Woods*, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston Globe Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad

**Night** Macmillan Higher Education

'I am a woman's rights. I have plowed and reaped and husked and chopped and mowed, and can any man do more than that? I am as strong as any man that is now' A former slave and one of the most powerful orators of her time, Sojourner Truth fought for the equal rights of Black women throughout her life. This selection of her impassioned speeches is accompanied by the words of other inspiring African-American female campaigners from the nineteenth century. One of twenty new books in the bestselling Penguin Great Ideas series. This new selection showcases a diverse list of thinkers who have helped shape our world today, from anarchists to stoics, feminists to prophets, satirists to Zen Buddhists.

*I Know I Shouldn't Generalize, But--* Princeton Review

Covering a broader range of rhetorical perspectives, "The Art of Rhetorical Criticism" presents a thorough, accessible introduction to rhetorical criticism. Throughout the text, sample essays written by experts in the field provide students with models for writing their own criticism. In addition to covering traditional modes of rhetorical criticism, "The Art of Rhetorical Criticism" presents less commonly-discussed rhetorical perspectives (for example, mythic criticism, framing analysis, and ideographical criticism), exposing students to a broad range of material. Features Each chapter and sample essay is written by a nationally-recognized scholar in that field, ensuring that students are offered the best and most current research for each perspective. Each author comments on his or her writing process to demonstrate the very personal nature of criticism. With this unique emphasis, students will begin to appreciate that writing criticism is an artistic process and not a simple formula. The "Potentials and Pitfalls" feature in each chapter highlights the strengths and weaknesses, pros and cons, of the rhetorical perspective being discussed. Each chapter includes a short, accessible sample essay, written specifically with the student audience in mind, offering students a model of rhetorical criticism for their own assignments.

*The Horizontal World* Vintage

Becoming rhetorical is a transformation that allows students to identify rhetorical problems and respond to them with arguments, no matter the course or context from which the problems emerge. In *BECOMING RHETORICAL*, author Jodie Nicotra takes students beyond the view of the rhetorical situation as being composed of communicator, audience, and message, encouraging them also to

consider important aspects such as exigence, purpose, and the means of communication. Students learn to analyze and compose in textual, visual, and multimodalities -- from evaluating an op-ed piece, to making a video of a consumer product, to creating an entire public awareness campaign -- thereby becoming confident critical thinkers in a 21st century multimedia world. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Eleanor Roosevelt's Book of Common Sense Etiquette**

Penguin UK

From the author of *The Sympathizer*, winner of the 2016 Pulitzer Prize for Fiction, *The Refugees* is the second piece of fiction from a powerful voice in American letters, praised as "beautiful and heartrending" (Joyce Carol Oates, *New Yorker*), "terrific" (Chicago Tribune), and "an important and incisive book" (Washington Post) Published in hardcover to astounding acclaim, *The Refugees* is the remarkable debut collection of short stories by Viet Thanh Nguyen, winner of the 2016 Pulitzer Prize for Fiction for his novel *The Sympathizer*. In these powerful stories, written over a period of twenty years and set in both Vietnam and America, Nguyen paints a vivid portrait of the experiences of people leading lives between two worlds, the adopted homeland and the country of birth. With the same incisiveness as in *The Sympathizer*, in *The Refugees* Viet Thanh Nguyen gives voice to the hopes and expectations of people making life-changing decisions to leave one country for another, and the rifts in identity, loyalties, romantic relationships, and family that accompany relocation. From a young Vietnamese refugee who suffers profound culture shock when he comes to live with two gay men in San Francisco, to a woman whose husband is suffering from dementia and starts to confuse her for a former lover, to a girl living in Ho Chi Minh City whose older half-sister comes back from America having seemingly accomplished everything she never will, the stories are a captivating testament to the dreams and hardships of migration. The second work of fiction by a major new voice in American letters, *The Refugees* is a beautifully written and sharply observed book about the aspirations of those who leave one country for another, and the relationships and desires for self-fulfillment that define our lives.

*The Great Influenza* Penguin UK

From "America's nerviest journalist" (*Newsweek*)--a breath-taking

epic, a magnificent adventure story, and an investigation into the true heroism and courage of the first Americans to conquer space. "Tom Wolfe at his very best" (The New York Times Book Review)

Millions of words have poured forth about man's trip to the moon, but until now few people have had a sense of the most engrossing side of the adventure; namely, what went on in the minds of the astronauts themselves - in space, on the moon, and even during

certain odysseys on earth. It is this, the inner life of the astronauts, that Tom Wolfe describes with his almost uncanny empathetic powers, that made *The Right Stuff* a classic.
