The Left Hand of God Steam

Taking a populist approach to a serious subject, Myke Cole combines a novelist's flair for drama with an ancient historian's eye for detail to create a unique book that delves into one of the most popular areas of the Ancient World. From the time of Ancient Sumeria, the heavy infantry phalanx dominated the battlefield. Armed with spears or pikes, standing shoulder to shoulder with shields interlocking, the men of the phalanx presented an impenetrable wall of wood and metal to the enemy. Until, that is, the Roman legion emerged to challenge them as masters of infantry battle. Covering the period in which the legion and phalanx clashed (280-168 BC), Myke Cole delves into their tactics, arms and equipment, organization and deployment. Drawing on original primary sources to examine six battles in which the legion fought the phalanx--Heraclea (280 BC), Asculum (279 BC), Beneventum (275 BC), Cynoscephalae (197 BC), Magnesia (190 BC), and Pydna (168 BC)--he shows how and why the Roman legion, with its flexible organization, versatile tactics and iron discipline, came to eclipse the hitherto untouchable Hellenistic phalanx and dominate the ancient battlefield.

Heloise must face the tyrannical Order and win freedom for her people. "A heart-wrenching, blood-racing, all-around page-turner. The elite trainers at Body Management Corporation (BMC) have more than sculpting the perfect body on their minds. Working with hot rock stars and professional athletes, they spend as much time between the sheets as on the treadmill. Head trainer, Dean Stoddard, is known for his good looks and stunning bedroom endurance with his more than willing clients. Orlanda Kennedy, one of Dean's colleagues, is an exquisite goddess on a quest for success and wealth. Orlanda despises the shallowness of the fitness industry and the simple-minded men she works with. She uses her curves and intelligence to manipulate the men who lust after her, to maintain control of the situation – and the men. Dean can't deny his attraction to Orlanda but refuses to give her the satisfaction of turning him down, so he desires her in quiet from a distance – until he thinks she sends him a signal to approach for landing. Orlanda's plot for domination unfolds around BMC's owner, Zack Johnston, who is in a power struggle with his business partner, and in another kind of struggle with Leena Ryan, the mysterious woman who seduced him during a flight and hasn't let him rest since. She is about to push Zack into a whole new understanding of the word "action", causing him to question himself and everything around him. Luckily, Zack has Keith Langley, his right-hand man and head trainer, keeping him grounded and protecting the business. Keith is a natural leader who longs for love instead of one-night stands. Burned out rock stars, sex-driven sports stars, clients who tempt, and trainers who accept, round out the roster of characters in this page-turning, intriguing romp of a novel. You'll get to laugh at 'em, love 'em and want to join them!

Alexander waits in his yellow-gray house in a yellow wood for his namesake daughter, the one who "of all my children ... has

Alexandra left as soon as she turned eighteen, the only way she could keep from being swallowed up by her father, her only chance of having a life of her own. Because his voice came into her head, ordering her home. The longer Alexandra stays with her father in her childhood home, the stronger her suspicions that his control over her is more insidious than she knew. The Diamond Conspiracy Penguin

In a sweeping epic of dazzling magic, soaring suspense, and dark longing, three immortal souls are united by fate and a fearless ambition that will change the course of history—even as it destroys their own way of life. . . . On an upper floor of a plush, high-security building on Central Park West, an elegant man sits in the office of Dr. Anne Kramer, confessing to the heinous murder that has horrified the modern world. Randolph Sontime is renowned for his personal charm, and Dr. Kramer is fighting to keep from falling victim to it. For the first time in her life, she truly understands the meaning of the word "charisma." Not knowing that her own destiny is irrevocably tied to his, Anne Kramer listens to the story of Sontime's life. "It began with the magic, you see. And so, perforce, must I." As a boy named Han at the House of Ra, an isolated oasis in the Egyptian desert of a far ancient time, Sontime lived in privilege. There the chosen were trained in the science of alchemy—magic, philosophy, miracles. Only two other initiates were as skilled as he: Akan, quiet and studious, a boy whose thirst for knowledge was matched only by his hunger for truth; and Nefar, beautiful and brilliant, a girl as filled with wonder and unfathomable ambition as Han himself. Together they discovered that in union, theirs was a power unmatched in the physical world. But even in the House of Ra, there were boundaries to be observed, knowledge that only the masters understood and feared. As the threesome's thirst for answers—and for each other—deepened, they were tempted by the dark arts

that they had sworn to avoid. "Look at three magnificent youths who stand astride your world and scoff at the rules you must obey. . . . Look at us, and call us gods." Their power was palpable, their desire total—until the fateful moment when their alliance was forever damned, their gifts horribly corrupted. A seductive work that seethes with mystery and passion, *The Alchemist* hurtles readers back through time to an era when magic was sacred and the workings of the world lay in the hands of a few gifted, but tortured souls. In a stunning feat of unbridled imagination, Donna Boyd has created her most hypnotic novel to date.

Shadow Ops: Red Mercury Penguin

The Spartan hoplite enjoys unquestioned currency as history's greatest fighting man. The last stand at Thermopylae made the Spartans legends in their own time, famous for their ability to endure hardship, control their emotions, and to never surrender—even in the face of impossible odds, even when it meant certain

death. Was this reputation earned? Or was it simply the success of a propaganda machine that began turning at Thermopylae in 480 BC? Covering Sparta's full classical history from the polis' (city-state) foundation to its final subsumption by Rome in the first century BC, this book examines the myth of Spartan warrior supremacy, painting a very different picture of Spartan warfare – punctuated by frequent and heavy losses. We also discover a society dedicated to militarism not in service to Greek unity or to the Spartan state itself, but as a desperate measure intended to keep its massive population of helots (a near-slave underclass) in line. What successes there were, such as in the Peloponnesian Wars, gave Sparta only a brief period of hegemony over Greece. Today, there is no greater testament to this than the relative position of modern Sparta and its famous rival Athens. The Bronze Lie explores the Spartans' arms and armor, tactics and strategy, the personalities of commanders and the common soldiery alike. It looks at the major battles, with a special focus on previously under-publicized Spartan reverses that have been left largely unexamined. The result is a refreshingly honest and accurate account of Spartan warfare.
