Tino Font, agente de la inteligencia cubana, vacaciona con su familia en Ronda, Andalucía. Tiene en su poder, gracias a su contacto dentro del gobierno norteamericano, una memoria USB con un video comprometedor del presidente de los Estados Unidos. Un intento de robo en su bungalow impide la filtración del material a la prensa internacional. Tino atrapa al asaltante y confirma que no se trata de un simple atraco sino de una operación bien organizada para sustraerle la memoria. No sabe cómo le han descubierto a pesar de haber mantenido en secreto la existencia de tal video. Necesita volver a Cuba para rastrear al traidor entre sus colegas, pero antes debe poner a su familia a salvo. Recurre a su mentor quien vive un retiro incógnito en Córdoba y se marcha a Cuba donde llegan también los servicios de inteligencia rusos y americanos para presionar al gobierno cubano y hacerse con el valioso objeto a cualquier precio.

This volume consists of a well-integrated collection of original research articles and theoretical/overview papers on second language (L2) input processing. The primary contributors are former students of Bill VanPatten from the past three decades, and the collection of articles is intended as a tribute to his career and contribution of bringing processing issues to the center stage of research in second language acquisition (SLA) and instructed SLA. The research and theorizing presented in this volume are the most recent in the field and represent innovations in approaches to L2 processing research, including the use of online methodologies (self-paced reading and eye tracking) in the experimental papers. In addition, the editors are recognized authors and researchers who have published on sentence processing, input processing, and processing instruction, and all three editors are either on editorial boards or are associate editors of major L2 journals.
