*Maternity Nursing - E-Book* W B Saunders Company  
Covering evidence-based pediatric nursing care from infancy through adolescence, *Pediatric Nursing: An Introductory Text*, 11th Edition provides a clear, easy-to-read guide to pediatric nursing for LPN/LVN students. Content in this edition is reorganized for a "best of both worlds" approach to pediatric nursing, with early chapters devoted to normal growth and development by age group followed by chapters covering the most common childhood disorders grouped by body system. Updated coverage reflects the latest issues in pediatric nursing care, including childhood obesity and teenage pregnancy. Clinical Snapshots and Nursing Care Plans with critical thinking questions

show how to apply the nursing process in real patient care scenarios. Written by noted pediatric nursing educators Debra L. Price and Julie F. Gwin, this market-leading textbook provides the essential knowledge you need to succeed in LPN/LVN practice. Reading Level: 9.6 Nursing Care Plans with critical thinking questions reinforce problem-solving skills as the nursing process is applied to pediatric nursing, with NEW critical thinking answer guidelines provided on the companion Evolve website Evolve to help you understand how a care plan is developed and how to evaluate care of a patient. UNIQUE! Free, built-in Study Guide includes scenario-based clinical activities and practice questions for each chapter. Complete, concise coverage of evidence-based pediatric nursing care includes cultural and spiritual influences, complementary and alternative therapies for pain management, and pediatric psychophysiologic responses to bioterrorism and threats of bioterrorism. UNIQUE! Clinical Snapshots describe

patient scenarios and include photographs of pediatric assessment and specific disorders, helping you apply critical thinking skills to clinical situations. Did You Know boxes list assessment data to help you recognize possible pediatric disorders. Nursing Brief boxes stress key points and help in prioritizing information. Communication boxes offer tips and techniques for successful nurse-patient-family communication. Health Promotion boxes and content highlight family-centered care, wellness, and illness prevention. Home Care Considerations boxes address home care issues for children with chronic illnesses and congenital disorders as well as community-based care issues including immunization, nutrition, and overall health promotion. UNIQUE! LPN Threads make learning easier, featuring an student-friendly reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

**Saunders Comprehensive Review for the NCLEX-RN® Examination - E-Book** Elsevier Health Sciences

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes

the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions.

Introduction to Maternity & Pediatric Nursing - E-Book W B Saunders Company

Completely updated for easier use and more control, VCE Pacific View is a groundbreaking workbook/CD-ROM package that brings learning to life in a "virtual" hospital setting. This guided learning experience features textbook reading assignments that correspond with the CD-ROM and workbook activities. The workbook acts as a map, guiding students through the CD-ROM as they care for patients in the virtual hospital to help students make connections between what they experience through the CD-ROM and what they've learned in their textbook. Each virtual hospital visit allows the student to access realistic information resources essential to patient care resulting in a true-to-life, hands-on learning experience. Users will also discover that this edition of VCE is easier to use with the inclusion of flash-based technology and the elimination of previously needed third-party plug-ins. Meaningful, real-world problems place users in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. The highly-engaging format encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. Lessons in the workbook complement the content in the textbook and guide the student through the virtual hospital. Includes NCLEX examination-style questions that offer built-in testing of clinical knowledge. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care,

including: charts, medical administration records, electronic patient records, video clips of nurse-client interactions, and other related materials. A clock icon appears under each lesson, estimating how much time it will take to complete. A linkage icon alerts the user whenever they are about to begin an exercise that connects with previous lessons. The elimination of third-party plug-ins facilitates fast and easy software installation. Flash-based technology allows for more ease of use and seamless navigation. Greater faculty support with the addition of the FAC PAC, a new instructors' website, and a radically expanded testing component. A medication administration feature enables users to select, prepare, and administer medications. Over 50 common medication errors imbedded within the software to boost clinical realism and prepare students for current practice. A Medication Room that contains a wide variety of drug storage areas, such as a Unit Dosage Cabinet, Automated Dispensing System, IV Storage, and a Refrigerator. 6 unique patients/cases, each with complex medical-surgical conditions for students to care for and monitor within the virtual hospital.

#### **Relationship-Based Care** Saunders

Fully updated and now in full-color throughout, Maternal-Neonatal Facts Made Incredibly Quick! Second Edition is the perfect point-of-care reference for nurses working with pregnant patients in any clinical setting. This pocket-sized book provides instant access to information nurses need quickly every day on all aspects of prenatal, intrapartum, postpartum, and neonatal care. The book includes a section on ECG interpretation, the most up-to-date ACLS guidelines, a glossary of common terms, conversion charts, and over 125 quick-reference charts and illustrations.

Colored tabs help nurses find information quickly. The wipeable page surface allows nurses to write notes and remove them easily.

*Maternal Child Nursing - Text and Virtual Clinical Excursions 3. 0 Package* W B Saunders Company

From prenatal through postpartum care, Gloria Leifer's Maternity Nursing: An Introductory Text provides an essential foundation for promoting the health and wellness of mothers and newborns. This edition includes the latest advances and practice standards in maternity nursing care, highlighting Healthy People 2020 and the 2011 Joint Commission National Patient Safety Goals. Part of the popular LPN Threads series, this text addresses the knowledge, skills, and scope of practice appropriate for LPN/LVN and LPN/LVN-to-ADN ladder programs. Chronological organization of content follows a sequence from family issues, fetal development, pregnancy, labor, birth, and care of the newborn, to postpartum issues with special social, familial, and cultural considerations. Organization of concepts in each chapter by simple to complex and from health to illness makes it easier to locate and understand the material. Complete, concise coverage includes a table of physiologic and psychosocial changes throughout the pregnancy, unique content on CPR for the pregnant patient and infectious diseases acquired during pregnancy, a pictorial story of a vaginal birth, cultural considerations of pregnancy and maternal care, and nursing responses to loss, death, and grief. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with multiple-choice, fill-in-the-blank, scenario-based clinical situation questions, and online activities. Nursing Care Plans with critical

thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. Health Promotion boxes and content focus on family-centered care, health promotion, illness prevention, and women's health issues. Clinical Pathways use an interdisciplinary, collaborative-care approach in tracking interventions along a timeline from assessment to discharge and follow up. Online resources for further research and study are included at the end of each chapter. UNIQUE! LPN Threads make learning easier, featuring a 10th-grade reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Study Guide for Foundations of Maternal-Newborn and Women's Health Nursing Saunders

Part of the popular LPN Threads series, the new edition of this market-leading textbook presents a clear, well-organized exploration of pediatric nursing for LPN/LVN students. It integrates cutting edge information with updated content, offering useful learning tools to reinforce fundamental concepts. Organized according to developmental stages, the book covers pediatric nursing from infancy to adolescence, with a separate chapter on end-of-life care for children and their families. With its easy-to-read, clear writing style, it provides exactly the right depth and breadth of content for LPN/LVNs. Organization by developmental stages. UNIQUE! Pediatric psychophysiologic responses to bioterrorism and threats of bioterrorism are found in Chapter 1. UNIQUE! Nursing Briefs stress important content-related points and help you prioritize information. Communication Alert boxes identify key tips, specific to establishing successful nurse-patient-family communication. UNIQUE! Community Cues address home care and community-based care issues and tie in nursing care with larger community-based problems, such as nutrition, immunization, and health promotion. UNIQUE! Data Cues list assessment data to help you recognize possible pediatric disorders. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process as applied to pediatric disorders. 13 Skills follow the nursing process and are clearly presented in an Action/Rationale format and teach basic procedures used by the LPN/LVN in pediatric nursing settings.

UNIQUE! Chapter 3 includes a section on NIC/NOC, classification systems used in many clinical and hospital settings. Online Resources appear at the end of each chapter and provide an opportunity for further study. Perforated Self-Assessment Workbook included at the back of the book features a variety of matching, multiple-choice, study questions, case studies with critical thinking questions, and Internet activities. UNIQUE! Critical Thinking Snapshots of selected clinical situations with brief scenarios are located after the Critical Thinking Questions at the end of selected Nursing Care Plans and provide visual examples of specific disorders to help you apply critical thinking skills to clinical situations. UNIQUE! January 2007 Recommended Childhood Immunization Schedule (Appendix A) for children, adolescents, and catch-up growth immunizations provide the most up-to-date information for nurses and families. UNIQUE! JCAHO's Lists of Dangerous Abbreviations, Acronyms, and Symbols provides guidelines for the prevention of medication administration error, especially serious in pediatric dosages. Health Promotion boxes highlight wellness and disease prevention in light of relevant Healthy People 2010 objectives. Content on evidence-based practice, increased cultural content added to Chapter 1: Child Health Evolution and new information on complementary and alternative therapies in Chapter 3: Care of the Hospitalized Child have been added. Home Care Tips related to specific disorders supplement the content on home care in Chapter 3.

*Foundations of Nursing - E-Book* Mosby Incorporated

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and

pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination.
