PHOENIX CAREY

Battle Drift Zondervan

Todd Strasser's acclaimed account of school violence that Kirkus Reviews calls "vivid, distressing, and all too real." For as long as they can remember, Brendan and Gary have been mercilessly teased and harassed by the jocks who rule Middletown High. But not anymore. Stealing a small arsenal of guns from a neighbor, they take their classmates hostage at a school dance. In the panic of this desperate situation, it soon becomes clear that only one thing matters to Bendan and Gary:

revenge.

From Goods to a Good Life Simon and Schuster

Eleven-year-old Jesse tries to find a way to free his new friend, a 7,000-pound killer whale named Willy, from a miserable existence as the star attraction at an amusement park.

Free Willy Vintage

In a gripping novel with a plot pulled from the headlines, Todd Strasser turns his attention to gang life in the inner-city projects. DeShawn is a teenager growing up in the projects. Most of his friends only see one choice: join up to a gang. DeShawn is smart enough to want to stay in school and make something more of himself, but when his family is starving

while his friends have fancy bling and new sneakers, DeShawn is forced to decide--is his integrity more important than feeding his family?

If I Grow Up Carolrhoda Lab ®

What if the bomb had actually been dropped? What if your family was the only one with a shelter? In the summer of 1962, the possibility of nuclear war is all anyone talks about. But Scott's dad is the only one in the neighborhood who actually prepares for the worst. As the neighbors scoff, he builds a bomb shelter to hold his family and stocks it with just enough supplies to keep the four of them alive for two critical weeks. In the middle of the night in late October, when the unthinkable happens, those same neighbors force their way into

the shelter before Scott's dad can shut the door. With not enough room, not enough food, and not enough air, life inside the shelter is filthy, physically draining, and emotionally fraught. But even worse is the question of what will — and won't — remain when the door is opened again. Internationally best-selling author Todd Strasser has written his most impressive and personal novel to date, ruthlessly yet sensitively exploring the terrifying what-ifs of one of the most explosive moments in human history.

Give a Boy a Gun Vintage

Jake Sherman's terrible first day at summer camp gets even worse when he discovers that he is doomed to live through it again and again, in a humorous fantasy tale by the author of *Help! I'm Trapped in an Alien's Body*. Original.

Nighttime Independently Published
 Seventy-nine Short Essays on Design brings together the best of designer Michael Bierut's critical writing—serious or humorous, flattering or biting, but always on the mark. Bierut is widely considered the finest observer on design writing today. Covering topics as diverse as Twyla Tharp and ITC Garamond, Bierut's

intelligent and accessible texts pull design culture into crisp focus. He touches on classics, like Massimo Vignelli and the cover of *The Catcher in the Rye*, as well as newcomers, like McSweeney's Quarterly Concern and color-coded terrorism alert levels. Along the way Nabakov's *Pale Fire*; Eero Saarinen; the paper clip; *Celebration, Florida*; the planet Saturn; the ClearRx pill bottle; and paper architecture all fall under his pen. His experience as a design practitioner informs his writing and gives it truth. In *Seventy-nine Short Essays on Design*, designers and nondesigners alike can share and revel in his insights.

Washington's Spies Puffin

NEW YORK TIMES BESTSELLER • Turn: Washington's *Spies*, now an original series on AMC Based on remarkable new research, acclaimed historian Alexander Rose brings to life the true story of the spy ring that helped America win the Revolutionary War. For the first time, Rose takes us beyond the battlefield and deep into the shadowy underworld of double agents and triple crosses, covert operations and code breaking, and unmasking the courageous, flawed men who inhabited this wilderness of

mirrors—including the spymaster at the heart of it all. In the summer of 1778, with the war poised to turn in his favor, General George Washington desperately needed to know where the British would strike next. To that end, he unleashed his secret weapon: an unlikely ring of spies in New York charged with discovering the enemy's battle plans and military strategy. Washington's small band included a young Quaker torn between political principle and family loyalty, a swashbuckling sailor addicted to the perils of espionage, a hard-drinking barkeep, a Yale-educated cavalryman and friend of the doomed Nathan Hale, and a peaceful, sickly farmer who begged Washington to let him retire but who always came through in the end. Personally guiding these imperfect everyday heroes was Washington himself. In an era when officers were gentlemen, and gentlemen didn't spy, he possessed an extraordinary talent for deception—and proved an adept spymaster. The men he mentored were dubbed the Culper Ring. The British secret service tried to hunt them down, but they escaped by the closest of shaves thanks to their ciphers, dead drops, and invisible ink. Rose's

thrilling narrative tells the unknown story of the Revolution—the murderous intelligence war, gunrunning and kidnapping, defectors and executioners—that has never appeared in the history books. But Washington's Spies is also a spirited, touching account of friendship and trust, fear and betrayal, amid the dark and silent world of the spy.

Is that a Sick Cat in Your Backpack?

Scholastic Inc.

When Brad asks someone else to the senior prom, Nicole resorts to a desperate measure—she decides to make her next-door neighbor over into a dream date.

No Place Simon and Schuster

Kennin's gaining popularity with the gearheads, and the word on the street is all about his sweet driving skills. Kennin's ride may be amping, but his decisions may ultimately spell disaster.

Con-fidence Simon and Schuster

What is fascism? By focusing on the concrete: what the fascists did, rather than what they said, the esteemed historian Robert O. Paxton answers this question. From the first violent uniformed bands beating up “enemies of the state,” through Mussolini's rise to power, to

Germany's fascist radicalization in World War II, Paxton shows clearly why fascists came to power in some countries and not others, and explores whether fascism could exist outside the early-twentieth-century European setting in which it emerged. “A deeply intelligent and very readable book. . . . Historical analysis at its best.” —The Economist *The Anatomy of Fascism* will have a lasting impact on our understanding of modern European history, just as Paxton's classic *Vichy France* redefined our vision of World War II. Based on a lifetime of research, this compelling and important book transforms our knowledge of fascism—“the major political innovation of the twentieth century, and the source of much of its pain.”

Slide Or Die Laurel Leaf

When an unthinkable nuclear attack occurs in an alternate-reality 1962, Scott is forced into his father's bomb shelter with his family and neighbors, where they rapidly consume limited supplies and fear the worst about the fate of the world outside. By the best-selling author of *The Wave*.

Help! I'm Trapped in the First Day of

Summer Camp Paw Prints

Drift it. Sling it. Slide it. Shred it . . . Just don't get T-boned. Kennin is new to Sin City, running from a tragic past and anxious to start a life outside the gearhead crowd. But he can't resist the lure of all the hot, tricked-out cars in Las Vegas. When Kennin accidentally proves his drifting talent, he's pulled into a tuiso battle against the toughest drivers around. The street drifting competition is cutthroat, and Kennin's outsider status only makes it worse. With ugly rivalries and vicious sabotage all around him, Kennin's ride will be gut-wrenchingly dangerous . . . and totally amping.

Fallout Simon & Schuster Books for Young Readers

The largest part of the world's food comes from its soils, either directly from plants, or via animals fed on pastures and crops. Thus, it is necessary to maintain, and if possible, improve the quality—and hence good health—of soils, while enabling them to support the growing world population. *The Soil Underfoot: Infinite Possibilities for a Finite Resource* arms readers with historical wisdom from various populations around the globe, along with current ideas

and approaches for the wise management of soils. It covers the value of soils and their myriad uses viewed within human and societal contexts in the past, present, and supposed futures. In addition to addressing the technical means of maintaining soils, this book presents a culturally and geographically diverse collection of historical attitudes to soils, including philosophical and ethical frameworks, which have either sustained them or led to their degradation. Section I describes major challenges associated with climate change, feeding the increasing world population, chemical pollution and soil degradation, and technology. Section II discusses various ways in which soils are, or have been, valued—including in film and contemporary art as well as in religious and spiritual philosophies, such as Abrahamic religions, Maori traditions, and in Confucianism. Section III provides stories about soil in ancient and historic cultures including the Roman Empire, Greece, India, Japan, Korea, South America, New Zealand, the United States, and France. Section IV describes soil modification technologies, such as

polymer membrane barriers, and soil uses outside commercial agriculture including the importance of soils for recreation and sports grounds. The final section addresses future strategies for more effective sustainable use of soils, emphasizing the biological nature of soils and enhancing the use of "green water" retained from rainfall.

Help! I'm Trapped in a Movie Star's Body
Simon and Schuster

Lauren would love to be part of the popular crowd at school, and when an attractive new girl seems to befriend her and offers a chance at popularity, Lauren does not recognize how she is being manipulated.

Help! I'm Trapped in My Teacher's Body
Egmont USA

Her street name is Maybe She lives with a tribe of homeless teens -- runaways and throwaways, kids who have no place to go other than the cold city streets, and no family except for one another. Abused, abandoned, and forgotten, they struggle against the cold, hunger, and constant danger. With the frigid winds of January comes a new girl: Tears, a twelve-year-old whose mother doesn't believe her stepfather abuses her. As the other kids start to disappear -- victims of violence, addiction, and exposure -- Maybe tries to help Tears get off the streets...if it's not already too late. Todd Strasser, author of the powerful and disturbing *Give a Boy a Gun*, again focuses on an important social issue as he tells a thought-provoking, heart-wrenching story of young lives lost

to the streets, and of a society that has forgotten how to care.

The Anatomy of Fascism Simon and Schuster

Winner of the 1964 Pulitzer Prize in Nonfiction Anti-Intellectualism in American Life is a book which throws light on many features of the American character. Its

concern is not merely to portray the scorners of intellect in American life, but to say something about what the intellectual is, and can be, as a force in a democratic society. "As Mr. Hofstadter unfolds the fascinating story, it is no crude battle of eggheads and fatheads. It is a rich, complex, shifting picture of the life of the mind in a society dominated by the ideal

of practical success." —Robert Peel in the Christian Science Monitor

Fallout Scholastic Paperbacks
