BRIANA GWENDOLYN

Clinicopathologic Foundations of Medicine

Lippincott Williams & Wilkins

This volume represents 1000 five-part multiple-choice questions, with full descriptive answers, to correspond with Davidson's Principles and Practice of Medicine. It covers all body systems, and the answers give clear explanations, so that wrong answers can be explained.

Pathology Harcourt Health Sciences

This book contains 300 multiple choice questions (MCQs), in the format of a single best answer (SBA) from four options, for undergraduate medical students preparing for the Duke Elder prize exam run by the Royal College of Ophthalmologists (RCOphth) annually. The content is organised in line with topics drawn from the candidate information pack provided by the RCOphth. Each question is supplemented with a detailed explanation of the right answer as well as explanations for the alternative answers, elucidating common mistakes made by students. These explanations are supplemented with schematic diagrams which greatly aid understanding. There are 8 chapters focusing on topics outlined in the Duke Elder exam, each containing a set of 25 questions and answers. This allows us to cover the most commonly seen topics appearing in the exam. The book will also provide a full mock assessment which will offer a unique opportunity for candidates to apply their knowledge in an exam context. The exam format is such that candidates must complete 90 MCQs in the space of 2 hours. Our mock will provide candidates with a 100 MCQ mock to be completed in the space of 2 hours 15 minutes.

MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.

Textbook of Pathology Lippincott Williams & Wilkins

Thousands of international medical graduates come to the United States to start their career as physicians. Many of

them, however, are not aware of the challenges and problems that they may encounter along the way. These difficulties can range from the language and cultural barriers to a lack of confidence and self-esteem. Many students are also unaware of the other career options besides getting into a clinical residency program. As a result of these issues, a great number of foreign medical students remain unmatched into the National Resident Matching Program. Not matching can be devastating for these graduates, both financially and medically. Students often suffer from psychological effects like major depression and generalized anxiety disorder. This book outlines the potential problems faced by these graduates and their possible solutions. Each chapter collects research evidence, interviews and surveys to gather information to work on each possible problem one by one and describes a solution in great detail. Comprised of thirty chapters, each chapter is broken down into smaller sub-sections to investigate the main theme in depth. Issues addressed include the different types of international medical graduates and their lives in the United States, differences in the education system and healthcare system, the triangle of residency, language and cultural barriers, lack of professional contacts, confidence, self-image and self-esteem issues, and restriction to specific fields and career paths. Written by experts in the field, *International Medical Graduates in the United States* is a first of its kind text that addresses the biggest issues faced by

foreign medical graduates in today's world.
