2008 based on the Alberta Building Code 2006 BARRIER-FREE DESIGN GUIDE

anyone who needs to make their house accessible to someone who uses a wheelchair or other mobility device, this fact sheet sheds light on the design and construction of ramps for the home. After reading this publication, you will understand how a ramp should be built, the materials that should be used and things to take into consideration before building a ramp for your home. Accessible Housing by Design — Ramps Alberta Access Design Standards.

Changes made to the Alberta barrier-free codes were fairly minimal but consist of changes to bathrooms, water closets, urinals, showers, and bathtubs. Grab bars seem to be a consistent change throughout this section.
