### **Teaching Reading in the Content Areas** ASCD

"In curious classrooms, student-driven inquiry deeply engages kids in curriculum by connecting it to explorations of their amazing

questions. Smokey Daniels supports this kind of well-planned and organized teaching nationwide, and he gets these two questions most often: Where do I find the time? What are some simple steps I can try with my kids? The Curious Classroom answers these questions. Its ladder of 10 inquiry structures gradually leads from briefly modeling your own curiosity to a unit

driven by kids' questions." -- Back cover.

How can I: steer my students toward deeper comprehension? get kids interested in each others' ideas? make sure kids choose just-right books? help students schedule their reading and meeting time? deal with kids who don't do the reading? get kids to pay more attention to literary style and structure? help special education and ELL students to participate actively in book clubs? get kids to expand their repertoire of reading strategies? make sure groups are on-task when I'm not looking over their shoulder? introduce writing tools (including role sheets) that support student discussion? help shy or dominating members get the right amount of "airtime?" give grades for book clubs without ruining the fun? use scientific research to justify the classroom time I spend on literature circles? Each mini-lesson spells out everything from the time and materials needed to word-by-word instructions for students. The authors even warn
