Press "A true masterpiece." —Glennon Doyle, author of *Untamed*
An extraordinary story set in the first century about a woman who finds her voice and her destiny, from the celebrated number one New York Times bestselling author of *The Secret Life of Bees* and *The Invention of Wings* In her mesmerizing fourth work of fiction, Sue Monk Kidd takes an audacious approach to history and brings her acclaimed narrative gifts to imagine the story of a young woman named Ana. Raised in a wealthy family with ties to the ruler of Galilee, she is rebellious and ambitious, with a brilliant mind and a daring spirit. She engages in furtive scholarly pursuits and writes narratives about neglected and silenced women. Ana is expected to marry an older widower, a prospect that horrifies her. An encounter with eighteen-year-old Jesus changes everything. Their marriage evolves with love and conflict, humor and pathos in Nazareth, where Ana makes a home with Jesus, his brothers, and their mother, Mary. Ana's pent-up longings intensify amid the turbulent resistance to

Rome's occupation of Israel, partially led by her brother, Judas. She is sustained by her fearless aunt Yaltha, who harbors a compelling secret. When Ana commits a brazen act that puts her in peril, she flees to Alexandria, where startling revelations and greater dangers unfold, and she finds refuge in unexpected surroundings. Ana determines her fate during a stunning convergence of events considered among the most impactful in human history. Grounded in meticulous research and written with a reverential approach to Jesus's life that focuses on his humanity, *The Book of Longings* is an inspiring, unforgettable account of one woman's bold struggle to realize the passion and potential inside her, while living in a time, place and culture devised to silence her. It is a triumph of storytelling both timely and timeless, from a masterful writer at the height of her powers.

Sing at First Sight,

Level 1 Poppy

Designed for the complete undergraduate course sequence in aural skills, Progressive Sight Singing, Second Edition, introduces students to the underlying grammar and syntax of musical structure and prepares them to perceive that structure with both the ear and the eye. Working from the premise that students learn musical skills in much the same order as they do language skills, this book trains the ear first---through hearing and imitating patterns---teaching students to hear and perform before they read and write. Part I presents rhythmic exercises only, and Part II presents melodic exercises; the two sections are designed to be used concurrently at an adaptable pace. The popular in-text CD from the first edition has been expanded into an in-text DVD that includes more of the rhythm and tonal patterns introduced in the book, as well as over 100 graphs depicting the vocal pitch exercises. For the Second Edition, Part II

(Melodic Reading) has been expanded and rebalanced to reinforce more advanced concepts, making this text ideal for the entire four-semester course sequence in aural skills. This edition integrates a rich variety of well-paced, graduated exercises, including new exercises for C clefs, secondary triads, improvisation, and duets, and has been thoroughly redesigned for improved readability. A new Companion Website at www.oup.com/us/krueger expands on the pedagogy underlying the book, offers solutions to the exercises, and provides additional exercises and teaching tips.

Music for Sight Singing is structured around organized melodies drawn from the literature of composed music and a wide range of the world's folk music. Real music exercises allow readers to practice sight singing and develop their "mind's ear" -- the ability to imagine how music sounds without first playing it on an instrument. The ninth edition continues to introduce a host of important musical considerations beyond pitch and rhythm--including dynamics, accents, articulations, slurs, repeat signs, and tempo markings. The book's arrangement of simple to complex exercises lays the foundations for success. Learning Goals Upon completing this book, readers will be able to: Fluently read rhythms in simple and compound meters, including those in relatively unusual,

irregular, or changing meter signatures. Sight sing melodies in any major or minor key, and in any diatonic mode. Effortlessly read all four common clefs. Understand common musical symbols and terms. Recognize and sing important harmonic features such as dominant seventh and Neapolitan chords. Improvise effectively from a variety

of background structures such as a harmonic progression or an underlying contrapuntal framework. Negotiate chromatic passages from simple embellishing tones and tonicizations to modulations to post-tonal music. NOTE: MySearchLab does not come automatically packaged with this text.
