This book offers a comprehensive introduction by three of the leading experts in the field, collecting fundamental results and open problems in a single volume. Since Leavitt path algebras were first defined in 2005, interest in these algebras has grown substantially, with ring theorists as well as researchers working in graph C^* -algebras, group theory and symbolic dynamics attracted to the topic. Providing a historical perspective on the subject, the authors review existing arguments, establish new results, and outline the major themes and ring-theoretic concepts, such as the ideal structure, Z -grading and the close link between Leavitt path algebras and graph C^* -algebras. The book also presents key lines of current research, including the Algebraic Kirchberg Phillips Question, various additional classification questions, and connections to noncommutative algebraic geometry. *Leavitt Path Algebras* will appeal to graduate students and researchers working in the field and related areas, such as C^* -algebras and symbolic dynamics. With its descriptive writing style, this book is highly accessible.

This Handbook contains a unique collection of chapters written by the world's leading researchers in the dynamic field of consumer psychology. Although these researchers are housed in different academic departments (ie. marketing, psychology, advertising, communications) all have the common goal of attaining a better scientific understanding of cognitive, affective, and behavioral responses to products and services, the marketing of these products and services, and societal and ethical concerns associated with marketing processes. Consumer psychology is a discipline at the interface of marketing, advertising and psychology. The research in this area focuses on fundamental psychological processes as well as on issues associated with the use of theoretical principles in applied contexts. The Handbook presents state-of-the-art research as well as providing a place for authors to put forward suggestions for future research and practice. The Handbook is most appropriate for graduate level courses in marketing, psychology, communications, consumer behavior and advertising.

Finding Allies, Building Alliances Harvard Business Press

"Very funny and unexpected, a material response to our times, plush as velvet." -Rachel Cusk "A wickedly funny and emotionally expansive novel about all the bewildering ways we seek solace from the people and things that surround us." - Jenny Offill David Leavitt returns with his signature "coolly elegant prose" (O, The Oprah Magazine) to deliver a comedy of manners for the Trump era. It is the Saturday after the 2016 presidential election, and in a plush weekend house in Connecticut, an intimate group of friends, New Yorkers all, has gathered to recover from what they consider the greatest political catastrophe of their lives. They have just sat down to tea when their hostess, Eva Lindquist, proposes a dare. Who among them would be willing to ask Siri how to assassinate Donald Trump? Liberal and like-minded editors, writers, a decorator, a theater producer, and one financial guy, Eva's husband, Bruce-the friends have come to the countryside in the hope of restoring the bubble in which they have grown used to living. Yet with the exception of one brash and obnoxious book editor, none is willing to accept Eva's challenge. *Shelter in Place* is a novel about house and home, furniture and rooms, safety and freedom and the invidious ways in which political upheaval can undermine even the most seemingly impregnable foundations. Eva is the novel's polestar, a woman who moves through her days accompanied by a roving, carefully curated salon. She's a generous hostess and more than a bit of a control freak, whose obsession with decorating allows Leavitt to treat us to a slyly comic look at the habitués and fetishes of the so-called shelter industry. Yet when, in her avidity to secure shelter for herself, she persuades Bruce to buy a grand if dilapidated apartment in Venice, she unwittingly sets off the chain of events that will propel him, for the first time, to venture outside the bubble and embark on a wholly unexpected love affair. A comic portrait of the months immediately following the 2016 election, *Shelter in Place* is also a meditation on the unreliable appetites-for love, for power, for freedom-by which both our public and private lives are shaped.

What business is your company really in? That's a question all executives should all ask before demand for their firm's products or services dwindles. In *Marketing Myopia*, Theodore Levitt offers examples of companies that became obsolete because they misunderstood what business they were in and thus what their customers wanted. He identifies the four widespread myths that put companies at risk of obsolescence and explains how business leaders can shift their attention to customers' real needs instead.

Steven Levitt and Stephen Dubner single-handedly showed the world that applying counter-intuitive approaches to everyday problems can bear surprising results. *Think Like a Freak* will take readers further inside this special thought process, revealing a new way of approaching the decisions we make, the plans we create and the morals we choose. It answers the question on the lips of everyone who's read the previous books: How can I apply these ideas to my life? How do I make smarter, harder and better decisions? How can I truly think like a freak? With short, highly entertaining insights running the gamut from "The Upside of Quitting" to "How to Succeed with No Talent," *Think Like a Freak* is poised to radically alter the way we think about all aspects of life on this planet.
