The violent little loli, the beautiful twin sisters, and the sexy female teachers all enjoyed endless blessings ...

The Primary Manual Prentice Hall

In this book some 25 scholars focus on the relationship between religion, children's literature and modernity in Western Europe since the Enlightenment (c. 1750). They examine various aspects of the phenomenon of children's literature, such as types of texts, age of readers, position of authors, design and illustration. The role of religion in giving meaning both in a substantive sense as well as through the institutionalised churches is studied from an interdenominational point of view (Judaism, Roman Catholicism, Protestantism and Anglicanism). Finally, the contribution of pedagogy and child psychology in the interaction between modernity, religion and children's literature is also discussed. Various articles give a broad overview of the tensions between aesthetics and ethics and the demand for cultural autonomy in the development of children's literature. Children's bibles and missionary stories played an important part in the growing diversification of children's literature, as did the publication of illustrated reviews for children. Remarkable differences are highlighted in the involvement of religious societies and institutions, episcopally approved publishing houses and supervisory bodies in the publication, distribution and supervision of children's literature. This volume adopts a comparative approach in exploring the underlying religious, ideological and cultural dimensions of children's literature in modern society.)

Israeli Writers Consider the "outsider" Fairleigh Dickinson Univ Press

What we expect, all too often, is exactly what we get. Nowhere is this more true than in education, where teachers' expectations of students are crucial. The self-fulfilling prophecy should be of great interest to teachers, both those in training and those in service. Whether or not a teacher is aware of it, the self-fulfilling prophecy is at work, impacting students either to their benefit or their detriment. It follows that teachers should be made aware of the SFP and how it can be used effectively in education. Using the new on-line research facilities, Dr. Tauber has compiled over 700 doctoral dissertations and countless journal articles on stereotyping, perception of social differences, race,

gender, ethnicity, body features, age, socioeconomic levels, special needs, and other personal and situational factors. The last part of the book presents a collection of testimonials written from the viewpoint of practitioners.

Young Children Leuven University Press

This comprehensive research-based book is a next-generation study of intimate relationships that explores implications for health and well-being across cultures, genders, and traditional as well as non-traditional relationships. • Explores intimate relationships across ages, cultures, traditional and non-traditional relationships • Details the effects of intimate relationships on health, well-being, and quality of life • Describes research tools and methods for assessing relationships • Explains intervention strategies for relationship problems

International encyclopedia of adolescence Civitas Books

During his ten-year period of systematic work in psychology, Lev Semenovich Vygotsky launched a series of investigations in developmental psychology, education, and psychopathology, many of which were interrupted by his untimely death. The Essential Vygotsky is a selection of the writings of Vygotsky (1896-1934), taken from the six volumes of Collected Works that have appeared both in Russian and in English translation. The editors have endeavored to choose the most important and most interesting contributions from all types of Vygotsky's writings, and thus from all six volumes, so as to reflect the overall purpose of the program that Vygotsky was developing at the time of his early death. The introductory essays for each section explore various aspects of Vygotsky's biography, in order to more clearly explain certain parts of his work and his writing. Vygotsky's work has been influential not only among developmental psychologists, but has become increasingly important to other disciplines, such as anthropology and sociology, and in the application of psychology in such areas as education, human-computer interface design, and the organization of work.

A Practical Guide to Early Childhood Curriculum The Social History of the American FamilyAn Encyclopedia

A society can be judged by its attitude to those who are outside or disadvantaged by reason of class, sex, race, language, background, disability, and so on. This volume seeks to address the models of otherness that exist in Israeli literature.

Teaching Oregon's Children Springer Science & Business Media

When movies replaced theater in the early twentieth century, live drama was wide open to reform. A rebellion against commercialism, called the Little Theatre movement, promoted the notion that

theatre is a valuable form of self-expression. *Composing Ourselves* argues that the movement was a national phenomenon that resulted in lasting ideas for serious theatre that are now ordinary parts of the American cultural landscape.

Children and Books SAGE Publications

An exhaustive socio-cultural survey of young people around the world. The focus is cultural and historical, and the work offers a rarely found worldwide perspective.

Volume 9 A&C Black

Supporting Education: The Teaching Assistant's Handbook provides the essential information needed to complete the Certificate III in Education Support in the Community Services Training Package. This resource provides Teaching Assistants within overview of child development and how children learn, as well as an introduction to the key learning areas for primary school students. Links to a wide range of online resources and information are also included along with strategies for working with students and teachers.

The Pulpwood Queen's Tiara-Wearing, Book-Sharing Guide to Life Greenwood Publishing Group

"The representation of a child's consciousness in adult literary texts is an unusual creative challenge. Nonetheless, the exercise of imagination required to portray a child's inner life has figured prominently in twentieth-century Jewish fiction. In *Imagining the Child in Modern Jewish Fiction*, Naomi Sokoloff draws on contemporary narrative theory--especially the work of M. M. Bakhtin--to establish a critical framework for reading a range of Hebrew, Yiddish, and English texts that focus on young protagonists and the workings of a child's imagination." "The fictional texts Sokoloff considers are not accounts of purely private experience. According to the author, the young character serves as a vehicle for expressing religious, social, and political concerns. The novelty of outlook made possible through attempts to inhabit "the otherness of the child" also offers a powerful literary strategy for exploring Jewish self-conception. To illustrate this dynamic, Sokoloff concentrates on two clusters of thematic materials. First, she discusses works by Sholem Aleichem, H. N. Bialik, and Henry Roth that "revolve around a shift away from the Torah-centered world of tradition toward more secular, individualistic, and uncertain definitions of Jewishness." She then proceeds to look at works by Jerzy Kosinski, Ahron Appelfeld, and David Grossman that deal with the Holocaust and the "precarious reclamation of Jewish identity" that followed." "Far from being a marginal phenomenon concerned with a negligible "Other," Sokoloff writes, "the representation of the child's thought and inner life is integrally linked to some of the fundamental concerns of modern Jewish fiction: readjustments and reappraisals of faith, responses to catastrophe, and redefinitions of community."--BOOK JACKET. Children Who Communicate Before They Are Born Rutgers University Press

SCC library has 1949-cur.

Unificationism Taylor & Francis

Becoming a Christian does not guarantee someone a happy home. Christian homes are sometimes broken; the children sometimes become rebellious and cause great heartache.

Contesting Femininity in the World's Playground U of Nebraska Press

When licensed cosmetologist turned publisher's rep Kathy Patrick lost her job due to industry

cutbacks, she wasn't deterred. One year later, she opened *Beauty and the Book*, the world's only combination beauty salon/bookstore. Soon after, she founded *The Pulpwood Queens of East Texas* -- a reading group that dared to ask the question, "Does a book club have to be snobby to be serious?" The idea spread like wildfire. Now there are about 70 chapters nationwide. The overriding rule -- aside from wearing the club's official tiara, hot pink, and leopard print outfits -- is that the groups must have fun. The club's mission: To get America reading. *THE PULPWOOD QUEENS' TIARA-WEARING, BOOK-SHARING GUIDE TO LIFE* celebrates female friendship, sisterhood, and the transformative power of reading. It includes life principles and motivational anecdotes, hilarious and heart-warming stories of friendships among the Queens, and stories from Kathy about the books that have inspired her throughout her life, complete with personalized suggested book lists.

A.L.A. Catalog Cornell University Press

The American family has come a long way from the days of the idealized family portrayed in iconic television shows of the 1950s and 1960s. The four volumes of *The Social History of the American Family* explore the vital role of the family as the fundamental social unit across the span of American history. Experiences of family life shape so much of an individual's development and identity, yet the patterns of family structure, family life, and family transition vary across time, space, and socioeconomic contexts. Both the definition of who or what counts as family and representations of the "ideal" family have changed over time to reflect changing mores, changing living standards and lifestyles, and increased levels of social heterogeneity. Available in both digital and print formats, this carefully balanced academic work chronicles the social, cultural, economic, and political aspects of American families from the colonial period to the present. Key themes include families and culture (including mass media), families and religion, families and the economy, families and social issues, families and social stratification and conflict, family structures (including marriage and divorce, gender roles, parenting and children, and mixed and non-modal family forms), and family law and policy. Features: Approximately 600 articles, richly illustrated with historical photographs and color photos in the digital edition, provide historical context for students. A collection of primary source documents demonstrate themes across time. The signed articles, with cross references and Further Readings, are accompanied by a Reader's Guide, Chronology of American Families, Resource Guide, Glossary, and thorough index. *The Social History of the American Family* is an ideal reference for students and researchers who want to explore political and social debates about the importance of the family and its evolving constructions.

Children's Literature in the Elementary School Pearson Higher Education AU

When Porfirio Díaz extended his modernization initiative in Mexico to the administration of public welfare, the families and especially the children of the urban poor became a government concern. Reforming the poor through work and by bolstering Mexico's emerging middle class were central to the government's goals of order and progress. But Porfirian policies linking families and work often endangered the children they were supposed to protect, especially when state welfare institutions became involved in the shadowy traffic of child labor. The Mexican Revolution, which followed, generated an unprecedented surge of social reform that was focused on families and accelerated the integration of child protection into public policy, political discourse, and private life. In ways that transcended the abrupt discontinuities and conflicts of the era, Porfirian officials, revolutionary

leaders, and social reformers alike invoked idealized models of the Mexican family as the primary building block of society, making families, especially those of Mexico's working classes, the object of moralizing reform in the name of state construction and national progress. *Domestic Economies: Family, Work, and Welfare in Mexico City, 1884-1943* analyzes family practices and class formation in modern Mexico by examining the ways in which family-oriented public policies and institutions affected cross-class interactions as well as relations between parents and children.

Conversations with Unborn Souls Intellect Books

Deals with children's literature, its heritage, its philosophy, and its contribution to society.

Teaching in the Multi-cultural School ABC-CLIO

A highly successful guide to encourage classroom discussion for developing children's thinking, learning and literacy skills contains material on the latest trends in teaching thinking, including dialogic teaching, creativity and personalized learning. This sourcebook of ideas is essential reading for anyone seeking to develop children's minds, to build their self-esteem or to improve the quality of teaching and learning in schools.

Stories of Family by Contemporary Black Writers Temple Lodge Publishing

The many facets of black family life have not always been fully visible in American literature. Black families have often been portrayed as chaotic, fractured, and emotionally devastated, and historians and sociologists are just beginning to acknowledge the resilience and strength of African American families through centuries of hardship. In *Mending the World*, a host of beloved writers celebrate the richness of black family life, revealing how deep, complicated, and joyous modern kinship can be. From James McBride's tender recollection of the man who claimed eight stepchildren as his own to Toi Derricotte's moving portrait of a pregnant teenager who decides to keep her child; from Debra Dickerson's lament over the shooting that crippled her nephew to Charles Johnson's whimsical look

at a married couple's mid-life crisis; from Shay Youngblood's moving fictional evocation of a lost mother to poet Kendel Hippolyte's poignant telling of a father's unexpected legacy, this inspiring volume presents—through fiction, memoir, and poetry—a multi-layered and optimistic portrait of today's black America. *Mending the World* features fiction, personal memoir, and poetry by new writers (some publishing here for the first time) and established members of the canon.

Handbook for Elementary Teachers Grand Central Publishing

In *Canadian Carnival Freaks and the Extraordinary Body, 1900-1970s*, Nicholas offers a sophisticated analysis of the place of the freak show in twentieth-century culture.

BJU Press

The Miss America pageant has been held in Atlantic City for the past hundred years, helping to promote the city as a tourist destination. But just a few streets away, the city hosts a smaller event that, in its own way, is equally vital to the local community: the Miss'd America drag pageant. *Drag Queens and Beauty Queens* presents a vivid ethnography of the Miss'd America pageant and the gay neighborhood from which it emerged in the early 1990s as a moment of campy celebration in the midst of the AIDS crisis. It examines how the pageant strengthened community bonds and activism, as well as how it has changed now that RuPaul's Drag Race has brought many of its practices into the cultural mainstream. Comparing the Miss'd America pageant with its glitzy cisgender big sister, anthropologist Laurie Greene discovers how the two pageants have influenced each other in unexpected ways. *Drag Queens and Beauty Queens* deepens our understanding of how femininity is performed at pageants, exploring the various ways that both the Miss'd America and Miss America pageants have negotiated between embracing and critiquing traditional gender roles. Ultimately, it celebrates the rich tradition of drag performance and the community it engenders.
