Print Culture at the Crossroads Bedford/st Martins

Bible translators have focused their efforts on preparing a text that is clear, natural and accurate, with the expectation that audiences will understand the message if it is in their language. Field research among the Adiokrou of Côte d'Ivoire shows that audiences also need to have access to the contextual information the author expected his audience to bring to the text. When such information is provided, both understanding of and interest in the message increase dramatically. These findings support Relevance Theory's claim that meaning is inferred from the interaction of text and context. To the extent that the contextual knowledge evoked by the text for contemporary audiences differs from that evoked for the first audience, understanding is impaired. The Bible at Cultural Crossroads presents a model to assist translators in identifying contextual mismatches and applies it on the thematic level to mismatches between first-century Jewish and Adiokrou views of the unseen world, and on the passage level to contextual mismatches arising from four Gospel passages. In-text and out-of-text solutions for adjusting contextual mismatches are explored, with field research results showing the effectiveness of various solutions. Context is shown to be both a significant factor in communication and a dynamic one. Translations of the text alone are not sufficient for successful communication.

Examining interactions between native Americans and whites in eighteenth-century Pennsylvania, Jane Merritt traces the emergence of race as the defining difference between these neighbors on the frontier. Before 1755, Indian and white communities in Pennsylvania shared a certain amount of interdependence. They traded skills and resources and found a common enemy in the colonial authorities, including the powerful Six Nations, who attempted to control them and the land they inhabited. Using innovative research in German Moravian records, among other sources, Merritt explores the cultural practices, social needs, gender dynamics, economic exigencies, and political

forces that brought native Americans and Euramericans together in the first half of the eighteenth century. But as Merritt demonstrates, the tolerance and even cooperation that once marked relations between Indians and whites collapsed during the Seven Years' War. By the 1760s, as the white population increased, a stronger, nationalist identity emerged among both white and Indian populations, each calling for new territorial and political boundaries to separate their communities. Differences between Indians and whites--whether political, economic, social, religious, or ethnic--became increasingly characterized in racial terms, and the resulting animosity left an enduring legacy in Pennsylvania's colonial history.

A History of the World's Peoples Routledge

A unique volume, *Inventing Times Square* approaches the subject of twentieth-century American city culture through a multidimensional examination of one quintessential urban space: Times Square. Ranging in time from 1905, when the crossroad was given its present name, through to the current plans for redevelopment, the authors examine Times Square as economic hub, real estate bonanza, entertainment center, advertising medium, architectural experiment, and erotic netherworld. Though the volume centers on Times Square, the essays venture much further into urban history and American social history, revealing in the process how Times Square reflected—even epitomized—America as it became an urban consumer culture.

The hectic front of the Denver Museum of Nature & Science hides an unseen back of the museum that is also bustling. Less than 1 percent of the museum's collections are on display at any given time, and the Department of Anthropology alone cares for more than 50,000 objects from every corner of the globe not normally available to the public. This lavishly illustrated book presents and celebrates the Denver Museum of Nature & Science's exceptional anthropology collections for the first time. The book presents 123 full-color images to highlight the museum's cultural treasures. Selected for their individual beauty, historic value, and cultural meaning, these objects connect different places, times, and people. From the mammoth hunters of the Plains to the first American pioneer settlers to the flourishing Hispanic and Asian diasporas in downtown Denver, the Rocky Mountain region has been home to a breathtaking array of cultures. Many objects tell this story of the Rocky Mountains' fascinating and complex past, whereas others serve to bring enigmatic corners of the globe to modern-day Denver. *Crossroads of Culture* serves as a behind-the-scenes tour of the museum's anthropology collections. All the royalties from this publication will benefit the collections of the Denver Museum of Nature & Science's Department of Anthropology.

*Crossroads and Cultures, Vol. 2 + Student's Guide to History, 12th Ed.* Routledge

The devil is the most charismatic and important figure in the blues tradition. He's not just the music's namesake ("the devil's music"), but a shadowy presence who haunts an imagined Mississippi crossroads where, it is claimed, Delta bluesman Robert Johnson traded away his soul in exchange for extraordinary prowess on the guitar. Yet, as scholar and musician Adam Gussow argues, there is much more to the story of the devil and the blues than these clichéd understandings. In this groundbreaking study, Gussow takes the full measure of the devil's presence. Working from original transcriptions of more than 125 recordings released during the past ninety years, Gussow explores the varied uses to which black southern blues people have put this trouble-sowing, love-wrecking, but also empowering figure. The book culminates with a bold reinterpretation of Johnson's music and a provocative investigation of the way in which the citizens of Clarksdale, Mississippi, managed to rebrand a commercial hub as "the crossroads" in 1999, claiming Johnson and the devil as their own.

Historically, few topics have proven to be so controversial in international intellectual property as the protection of geographical indications (GIs). The adoption of TRIPS in 1994 did not resolve disagreements, and countries worldwide continue to quarrel today as to the nature, the scope, and the enforcement of GI protection nationally and internationally. Thus far, however, there is little literature addressing GI protection from the point of view of the Asia-Pacific region, even though countries in this region have actively discussed the topic and in several instances have promoted GIs as a mechanism to foster local development and safeguard local culture. This book, edited by renowned intellectual property scholars, fills the void in the current literature and offers a variety of contributions focusing on the framework and effects of GI protection in the Asia-Pacific region. The book is available as Open Access.

Western culture has a long and fraught history of cultural appropriation, a history that has particular resonance within performance practice. Patrice Pavis asks what is at stake politically and aesthetically when cultures meet at the crossroads of theatre.? A series of major recent productions are analysed, including Peter Brook's *Mahabharata*, Cixous/Mnouchkine's *Indiande*, and Barba's *Faust*. These focus discussions on translation, appropriation, adaptation, cultural misunderstanding, and theatrical exploration. Never losing sight of the theatrical experience, Pavis confronts problems of colonialism, anthropology, and ethnography. This signals a radical movement away from the director and the word, towards the complex relationship between performance, performer, and spectator. Despite the problematic politics of cultural exchange in the theatre, interculturalism is not a one-sided process. Using the metaphor of the hourglass to discuss the transfer between source

and target culture, Pavis asks what happens when the hourglass is turned upside down, when the 'foreign' culture speaks for itself.

**Crossroads of Cultures on the Santa Fe Trail** Macmillan

An insightful exploration and moving meditation on identity, art, and belonging from one of the most celebrated writers of the last decade. What happens when we begin to consider stories at the margins, when we grant them centrality? How does that complicate our certainties about who we are, as individuals, as nations, as human beings? Through the lens of visual art, literature, film, and the author's lived experience, *Out of the Sun* examines Black histories in art, offering new perspectives to challenge us. In this groundbreaking, reflective, and erudite book, two-time

Scotiabank Giller Prize winner and internationally bestselling author Esi Edugyan illuminates myriad varieties of Black experience in global culture and history. Edugyan combines storytelling with analyses of contemporary events and her own personal story in this dazzling first major work of non-fiction.
