Now in its Ninth Edition, this comprehensive all-in-one textbook covers the basic LPN/LVN curriculum and all content areas of the NCLEX-PN®. Coverage includes anatomy and physiology, nursing process, growth and development, nursing skills, and pharmacology, as well as medical-surgical, maternal-neonatal, pediatric, and psychiatric-mental health nursing. The book is written in a student-friendly style and has an attractive full-color design, with numerous illustrations, tables, and boxes. Bound-in multimedia CD-ROMs include audio pronunciations, clinical simulations, videos, animations, and a simulated NCLEX-PN® exam. This edition's comprehensive ancillary package includes curriculum materials, PowerPoint slides, lesson plans, and a test generator of NCLEX-PN®-style questions.

[Ebersole and Hess' Gerontological Nursing and Healthy Aging](#) Springer Publishing Company

The bestselling LPN/LVN geriatric nursing textbook, Basic Geriatric Nursing, 5th Edition covers age-appropriate nursing interventions in a variety of health care settings. It includes the theories and concepts of aging, covers expected physiologic and psychosocial changes, and highlights delegation, coordinated care, end-of-life care, patient teaching, quality of life, safety, and home care. This edition is updated with the latest issues and trends in geriatric nursing, including changes to the health care system and demographics. Part of the popular LPN Threads series, Gloria Hoffman Wold's text provides a clear and compassionate introduction to geriatric care. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic communication, cultural considerations, spiritual influences, evidence-based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. UNIQUE! Delegation, leadership, and management content is integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with scenario-based clinical activities and practice questions. UNIQUE! Nursing interventions are numbered and grouped according to health care setting (e.g., acute care, extended care, home care), in a patient-centered approach emphasizing the unique needs of the older adult. UNIQUE! Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. UNIQUE! Critical Thinking boxes help you to assimilate and synthesize information. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Cultural Considerations boxes encourage culturally sensitive care of older adults. UNIQUE! Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. UNIQUE! LPN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Fourth Edition Springer Publishing Company

Essentials of Gerontological Nursing presents the best practices needed to care for older adults. Its brief, yet comprehensive, grasp of issues in elder care is a refreshing addition to the current literature, which is more commonly focused on theory than on clinical practice. Designed primarily for students in gerontological nursing courses in BSN and graduate programs, the book provides: Essential clinical information and "best practices" needed to care for older adults Current research and new patient approaches in gerontological nursing Overviews of rarely discussed issues, such as elder abuse, cultural considerations, and restraint alternatives Clinical specifications and practical applications Content designed to fit into a one-semester course Essentials of Gerontological Nursing is everything the nursing student needs to know when caring for older adults.

Ulrich & Canale's Nursing Care Planning Guides, 8th Edition Revised Reprint with 2021-2023 NANDA-I® Updates - E-Book

Gerontological Nursing Elsevier Health Sciences

Named a 2013 Doody's Core Title! "The evidence-based protocols are designed as a primary

reference and are useful, substantive, and timely...The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice."--The Gerontologist "Now more than ever, nurses are called upon to lead efforts to embed evidence-based practice in daily operations. As the IOM report states, 'nurses have key roles to play as team members and leaders for a reformed and better-integrated, patient-centered health care system.' The process of implementing sweeping change in health care will likely take years; however, nurses must start pragmatically and focus on these critically important protocols that have demonstrated improved outcomes for older adults. Simply stated, 'Pick this book up and use it.'" From the Foreword, Susan L. Carlson, MSN, APRN, ACNS-BC, GNP-BC, FNGNA President, National Gerontological Nursing Association "As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice." Score: 97, 5 Stars. --Doody's One of the premier reference books for geriatric nurses in hospital, long-term, and community settings, this 4th edition has been thoroughly updated to provide the most current, evidence-based protocols for care of common clinical conditions and issues in elderly patients. Designed to improve the quality, outcomes, and cost-effectiveness of health care, these guidelines are the result of collaboration between leading practitioners and educators in geriatric nursing and New York University College of Nursing. Protocols for each clinical condition have been developed by experts in that particular area, and most have been systematically tested by over 300 participating hospitals in "Nurses Improving Care for Health System Elders" (NICHE). Evidence is derived from all levels of care, including community, primary, and long-term care. A systematic method in compliance with the AGREE appraisal process was used to rate the levels of evidence for each protocol. Protocols are organized in a consistent format for ease of use, and each includes an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, each protocol is embedded within chapter text, which provides the context and detailed evidence for the protocol. Each chapter contains resources for further study. Key Features: Updated to provide a wide range of evidence-based geriatric protocols for best practices Contains new chapters on function-focused care, catheter-associated urinary tract infections, mistreatment detection, acute care models, and transitional care Illustrates application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known leaders in geriatric nursing education and practice, who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Encompasses the contributions of 58 leading practitioners of geriatric care Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

The Encyclopedia of Elder Care F.A. Davis

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

A Guide for the Helping Professions, Fifth Edition Mosby Incorporated

Prepare to succeed on the CPAN® and CAPA® exams with this authoritative guide from ASPAN! PeriAnesthesia Nursing Core Curriculum, 3rd Edition is a comprehensive reference that helps you care for patients before and after anesthesia in all types of settings. There's no other review like it. Coverage of the full scope of perianesthesia nursing makes it an ideal resource for both in-hospital and ambulatory care. And to keep you current, this edition also describes the newest advances in interventional radiology, robotics, and endoscopy procedures. Written by the American Society of PeriAnesthesia Nurses and edited by respected perianesthesia nurses Lois Schick and Pam Windle, this book will help you develop the skills and expertise you need to excel on your certification exam and in practice. Authoritative ASPAN authors cover the core content necessary to demonstrate competency as a perianesthesia nurse, including ASPAN's full scope of practice for the CPAN® and CAPA® certifications. Six sections cover required competencies in these key areas of perianesthesia nursing: professional issues, preoperative assessment, patient care across the life span, perianesthesia, body systems, and education and discharge. Easy-to-use outline format provides a quick review of the fundamentals and standards of practice for patient assessment and care. Objectives at the beginning of each chapter help you focus on and learn key content. Numerous boxes, tables, and illustrations highlight important information and make the book a valuable reference. Preoperative Assessment Competencies section addresses all aspects of the complete assessment of the patient and family, including areas such as transcultural nursing and alternative therapies as well as the mentally and physically challenged patient. Life Span Considerations section prepares you for the care of patients of all ages with chapters on pediatric, adolescent, adult, and geriatric patients. Useful appendixes cover the CPAN and CAPA certification programs and provide test-taking strategies, helping you to prepare for and pass your exam. A bibliography at the end of every chapter lists additional research resources. NEW content covers interventional radiology, robotics, endoscopy procedures, and the latest technology as it impacts perianesthesia nurses. NEW! Streamlined chapters provide a more concise book. UPDATED Professional Competencies section includes the latest safety, regulatory, and healthcare policies. UPDATED Education and Discharge Competencies section addresses the changes in ambulatory settings and patient discharges.

[Study Guide to Geriatric Psychiatry: A Companion to The American Psychiatric Publishing Textbook of Geriatric Psychiatry, Fourth Edition](#) Saunders

This exciting new text covers all of the essential content and skills required for basic Nurse Assisting courses in a unique and innovative style. All the information is divided neatly into columns, which prioritizes key concepts for readers in the main column so they can concentrate on the most important topics. Streamlined procedures are presented in a 2-column format with illustrations right next to the steps, and with over 1,000 photographs and drawings, students find this text visually stimulating. Students will also uncover all the tips and techniques, safety topics, and federal

guidelines they need to be able to work in any setting.

Hearings Wolters Kluwer Law & Business

Describes the theories and concept of aging along with information on the physiological and psychosocial changes and problems of the aging process, and covers the appropriate nursing interventions.

Strategies for the COTA Springer Publishing Company

With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help you understand these important considerations when caring for older adults. Healthy aging strategies maximize the healthiest behaviors of clients with dementia and their caregivers. Consistent chapter organization includes learning objectives, research, and study questions/activities to make information easy to find and use. Incorporates assessment guidelines throughout provide useful tools for practice. End-of-chapter activities and discussion questions help you expand your knowledge and understanding of the content. Resource lists provide you with additional means to explore ways to care for the older adult. Incorporates the core competencies identified by the AACN and the Hartford Foundation Institute for Geriatric Nursing. Healthy People 2010 boxes assist you in integrating knowledge about healthy aging considerations. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Expanded sexuality-related content includes older adults living with AIDS and STDs. Genetics section reflects the emergence of the role of genetics in gerontological assessment.

Gerontologic Nursing Lippincott Williams & Wilkins

Praise for the first edition: "This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics." Score: 90, 4 Stars —Doody's Medical Reviews "[This] is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice." —The Gerontologist "The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills." —Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing New York University College of Nursing Vivid case examples help guide nurses in developing appropriate interventions that include complementary and alternative health therapies and provide a basis for evaluating outcomes. Exercises interspersed throughout each case study include numerous open-ended and multiple-choice questions to facilitate learning and critical thinking. The text is unique in that some of the presented cases focus on psychosocial issues such as gambling addiction, hoarding behavior, emergency preparedness, and long-distance caregiving. Cases also depict geriatric clients who are living healthy, productive lives to counter myths and negative attitudes about older adults. Scenarios demonstrating ethical dilemmas prepare students to appropriately respond to "gray area" situations. The text is geared for AACN and NLN accreditation and is organized according to the needs of actual clinical settings. With cases that take place in the home and community or within primary, acute, and long-term care facilities, this book will be useful for courses specific to gerontology nursing or across any nursing curriculum. New to the Second Edition: A completely new section of Aging Issues Affecting the Family New cases addressing health care disparities, aging in place, and prevention of catheter-associated urinary tract infection Additional contemporary case studies The addition of Quality for Safety in Nursing Education (QSEN) initiatives A greater focus on prioritization and delegation of client's needs infused throughout exercises

Guccione's Geriatric Physical Therapy E-Book Elsevier Health Sciences

As the most comprehensive resource on health promotion and maintenance for older adults and their families and caregivers, *Toward Healthy Aging*, 7th Edition includes the most current information you need to provide effective holistic care, promote healthy lifestyle choices, and address end-of-life issues. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing and using Maslow's hierarchy of needs, this book includes complete coverage of both common and uncommon conditions in the older adult. *Toward Healthy Aging* also highlights key aging issues with sections devoted to basic physiologic needs, safety and security, the need to belong, self-esteem, and self-actualization. A strong focus on health and wellness emphasizes a positive approach to aging. Disease processes are discussed in the context of healthy adaptation, nursing support, and responsibilities. Careful attention to age, cultural, and gender differences are integrated throughout to help you remember these important considerations when caring for older adults. Up-to-date content on AIDS provides important information on addressing this growing concern among older adults. Consistent chapter organization with objectives, case studies, critical thinking questions, research, and study questions make information easy to find and use. Assessment guidelines are incorporated throughout in helpful tables, boxes, and forms for quick access. Case studies at the end of most chapters explore realistic patient care scenarios to help you expand your knowledge and understanding. Resource lists and appendices provide opportunities for further research and study. With over 200 illustrations, the full-color design is engaging and easy to read. Healthy People 2010 boxes address healthy aging considerations. Evidence-Based Practice boxes help you incorporate the latest research findings into practice and advise you on how to avoid potentially harmful practices. A Nutritional Needs chapter includes the most current nutritional guidelines for older adults to help you better address patients' nutritional needs. Includes the latest scales and guidelines for assessing the gerontologic patient in the Health Assessment in Gerontological Nursing chapter. Expanded coverage of end-of-life issues helps you meet the needs of older adults and their families and caregivers during this difficult transition. Economics of aging discussions help you better understand the financial challenges your patients may face. The latest pharmacologic and nonpharmacologic pain management information helps you reduce pain and discomfort for your patients and helps you provide more effective care.

Ebersole and Hess' Gerontological Nursing & Healthy Aging Jones & Bartlett Learning Gerontological Nursing: Competencies for Care, Fourth Edition focuses on caring for the elderly by employing a holistic and inter-disciplinary approach. The Fourth Edition will feature a greater emphasis on healthy aging and continues to follow the framework of the Core Competencies of the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.
