KADE CRISTOPHER

*Concise Oxford-Duden
German Dictionary*
Oxford University Press
This book, first published in 1981, is a study of the social and political sources of amoral political rule in modern times. Only a moral indifference unparalleled in history made the Holocaust possible, and by linking the German imperial ambitions to the meaningless suffering and death in the concentration camps, the true significance of the Holocaust is revealed in all its horror. Understanding this requires an understanding of the social forces that

produced a national amorality among Germany's elites. The author suggests three contributive causes: a marked ambiguity among Germans in their attitude towards social values; the development of a cadre characterized by status insecurity; and an inability to resolve internal conflict.

The Historical Magazine and Notes and Queries Concerning the Antiquities, History and Biography of America

Oxford University Press, USA
Germany's financial collapse in the summer of 1931 was one of the biggest economic catastrophes of modern history. It led to a global panic, brought down the international monetary system, and turned a

worldwide recession into a prolonged depression. The crisis also contributed decisively to the rise of Hitler. Within little more than a year of its onset, the Nazis were Germany's largest political party at both the regional and national level, paving the way for Hitler's eventual seizure of power in January 1933. The origins of the collapse lay in Germany's large pile of foreign debt denominated in gold-backed currencies, which condemned the German government to cut spending, raise taxes, and lower wages in the middle of a worldwide recession. As political resistance to this policy of austerity grew, the German government began to question its

debt obligations, prompting foreign investors to panic and sell their German assets. The resulting currency crisis led to the failure of the already weakened banking system and a partial sovereign default. Hitler managed to profit from the crisis because he had been the most vocal critic of the reparation regime responsible for the lion's share of German debts. As the financial system collapsed, his relentless attacks against foreign creditors and the alleged complicity of the German government resonated more than ever with the electorate. The ruling parties that were responsible for the situation lost their credibility and became

defenceless in the face of his onslaught against an establishment allegedly selling the country out to her foreign creditors. Meanwhile, these creditors hesitated too long to take the wind out of Hitler's sails by offering debt relief. In this way, a financial crisis soon developed into a political catastrophe for both Europe and the world.

This new edition provides an up-to-date and complete picture of contemporary German, including spelling changes ratified in 1996.

Featured are more than 260,000 words, sample sentences, and maps. Thumb-indexed.

Sounds German

Oxford University Press, USA
The Oxford Guide to Middle High German is the most comprehensive self-contained treatment of Middle High German available in English. It covers the language, literature, history, and culture of German in the period from 1050 to 1350 and is designed for entry-level readers, advanced study, teaching, and reference. The book includes a large sample of texts, not only from Classical works such as Erec, the Nibelungenlied, Parzival, and Tristan, but also from mystical writing, chronicles, and legal documents; the selection represents all major dialects and the full time span of the period. The volume

begins with an introduction that defines Middle High German linguistically, geographically, and chronologically. Chapter 2 then provides a detailed exploration of the grammar, covering sounds and spelling, inflectional morphology, syntax, and lexis. Each section in this chapter begins with a summary of the main points, followed by detailed paragraphs for in-depth study and reference. Chapter 3 deals with versification, discussing metre, rhyme, lines of verse in context, and verse forms, and includes practical tips for scansion. Chapter 4 offers an account of the political and social structures of Medieval Germany and a survey of the principal types

of texts that originated in the period. The final chapter of the book comprises over forty texts, each placed in context and provided with explanatory footnotes; the first two texts, to be taken together with the introductory grammar sections, are aimed at newcomers. A glossary provides full coverage of the vocabulary appearing in the texts and throughout the book.

Searchable German to English and English to German dictionaries, based on the Oxford-Duden German dictionary, containing a total of 150,00 words and phrases and 250,000 translations.
The Oxford Duden German Dictionary
Oxford University

Press, USA

This volume examines selected works of German literature from Gustav Freytag to Joseph Goebbels in relation to ethical, socio-economic, and political texts from the economic «take off» period in the middle of the nineteenth century up to the rise of National Socialism and investigates two aspects of anti-Semitic anti-capitalistic representations contained therein. First it traces how the Jews gained the dubious distinction of being the inventors, even embodiment, of capitalism and elaborates on negative traits assigned to both of them. Second it examines how representations of specifically Jewish capitalists were

instrumentalized both to discredit laissez faire and simultaneously to assist in the definition of a specifically «German» socio-economic ethos. The Concise Oxford-Duden German Dictionary OXFORD University Press This course book will take you from complete beginner to intermediate level in 14 easy to digest units. You can work at your own pace using carefully structured learning blocks within each unit. You can see at a glance how far you've progressed with the course's regular programme of self-assessment. *The British National Bibliography* Oxford University Press This new dictionary offers up-to-date

coverage of essential German and English, and extra help with German and English verbs and pronunciation, all in a compact and affordable format.

This is the first comprehensive, multi-author survey of German history that features cutting-edge syntheses of major topics by an international team of leading scholars. Emphasizing demographic, economic, and political history, this Handbook places German history in a denser transnational context than any other general history of Germany. It underscores the centrality of war to the unfolding of German history, and shows how it dramatically affected the development of German nationalism and the structure of German politics. It also reaches out to scholars and students beyond the field of history with

detailed and cutting-edge chapters on religious history and on literary history, as well as to contemporary observers, with reflections on Germany and the European Union, and on 'multi-cultural Germany'. Covering the period from around 1760 to the present, this Handbook represents a remarkable achievement of synthesis based on current scholarship. It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic, often destructive, integration into the community of modern nations. As it brings this story to the present, it also places

the current post-unification Federal Republic of Germany into a multifaceted historical context. It will be an indispensable resource for scholars, students, and anyone interested in modern Germany. Antisemitic Elements in the Critique of Capitalism in German Culture, 1850-1933 OXFORD University Press
This is a brand new edition of the Oxford Colour German Dictionary Plus. This dictionary is an effective and practical reference tool for students, adult learners, travellers, or business professionals. Oxford Take Off in German Dictionary
Oxford University Press, USA

The result of a unique ten-year collaboration between two of the world's foremost dictionary publishers, Oxford University Press and Dudenverlag, The Oxford Duden German Dictionary offers the most comprehensive, accurate, and up-to-date coverage available of the general

vocabulary of contemporary German and English. The two teams worked simultaneously, each living in their own country--in daily contact with other native speakers and in direct touch with changes in their own language--with regular joint sessions in Mannheim and Oxford to guarantee a balanced and completely consistent treatment. This sharing of expertise has resulted in a new kind of dictionary, one that is truly bilingual, not only in its language, but in all the details of its conception and realization--a dictionary that meets the needs of both English and German speakers in the 1990s, whether they wish to write or speak the

foreign language or to translate from it. Here is a state-of-the-art reference work with all the features you would expect from an Oxford Dictionary. It is:
Authoritative: Based on the language data-bases of two of the world's foremost dictionary makers and written by two expert teams of native speakers
Comprehensive: Offers the broadest possible coverage of modern English and German, plus regional variations from Germany, Austria, and Switzerland (for German), Britain, Australia, and the United States (for English)
Up to date: Compiled by native speakers in intimate contact with changes in their language, this lexicon is right up to the minute, with

entries for such recent coinages as "acid rain," "AIDS," "compact disc" and "cable television" Easy to Use: Entries are composed according to what will be most helpful to native speakers, there are many cross-references to help locate words that could appear in more than one place, and idiomatic expressions are clearly explained, even when they appear deep within a definition. Drawing on unparalleled resources, this outstanding dictionary will be the first choice of students, teachers, and translators, as well as anyone else wanting a clear and authoritative English-German dictionary.

The Oxford German Dictionary OXFORD University Press

During recent years, there has been a noticeable increase in interest in the nineteenth century, resulting in many fine monographs. However, these studies often gravitate toward Prussia or treat Germany's southern and northern regions as separate entities or else are thematically compartmentalized. This book overcomes these divisions, offering a wide-ranging account of this revolutionary century and skillfully combining narrative with analysis. Its lively style makes it very accessible and ideal for all students of nineteenth-century Germany. Oxford Essential German Dictionary OUP Oxford Whatever the reason and however long you

plan to stay, moving overseas is not just about deciding what to take with you. Your entire life is about to change and the more prepared you are, the better the relocation will go.

German Social Democracy through British Eyes Springer

This dictionary covers essential German vocabulary needed by students, travelers, and business people featuring 48,000 words and phrases, pronunciations, and verb tables.
