First Aid, is a dynamic course for those who want first aid training without the CPR and AED component.

American Red Cross First Aid/CPR/AED Participant's Manual Penguin

Pediatric First Aid, CPR, and AED is a first edition product for McGraw-Hill Higher Education. Part of a series of titles authored by the National Safety Council, Pediatric First Aid, CPR, and AED covers the material required in a Standard First Aid, CPR and AED course. The focus is teaching the layperson to recognize and act in any pediatric emergency and to sustain life until professional help can arrive. Quality content features information based on the current national guidelines for breathing and cardiac emergencies. Other information includes bleeding control, and first aid for sudden illnesses and injuries. Focus is also on preventing injury and illness in children and the first aid for common illnesses and injuries that children sustain. Information is presented in a concise easy -to-read manner that works as a handy reference after the course. National Safety Council programs and products are designed to benefit all types of learning styles by combining lectures, video presentations, group discussions, and hands-on training.

Only orders placed by qualified instructors will be honored. Orders containing this item will not be processed until instructor status is verified.

ACEP First Aid Manual 5th Edition Jones & Bartlett Learning

Online and blended courses are becoming increasingly prevalent in higher education settings, and the pressures to incorporate these environments highlights the increased demand to serve a generation that prefers learning through experience or through interacting with learning tools. Challenges arise in assisting instructors in facilitating and designing blended learning environments that will provide effective learning for all students. The Handbook of Research on Blended Learning Pedagogies and Professional Development in Higher Education is a critical research publication that delves into the importance of effective professional development for educators planning and teaching online or blended courses. It also establishes the benefits of technology-mediated learning environments over traditional learning methods. Highlighting a wide array of topics such as online learning environments, active learning model, and educational development, this publication explores technology-based teaching methods in higher education. This book is targeted toward educators, educational administrators, academicians, researchers, and professionals within the realm of higher education.

Basic Life Support Provider Manual (International English) Amer Heart Assn Incorporated

The student workbook for the credentialed Heartsaver Pediatric First Aid course. Provides information on how to manage illness and injuries in a child during the first few minutes of an emergency until professional help arrives. Includes four core modules: First Aid Basics, Injuries and Illnesses, Life-Threatening Emergencies and the Chain of Survival, and CPR and AED. Also includes optional modules, such as Use of a Nebulizer, to meet regulations for day-care centers in certain states. Workbook comes shrink-wrapped with the Heartsaver Pediatric First Aid Quick Reference Guide (#80-1002), the Adult CPR And AED Reminder Card, the Child And Infant CPR And AED Reminder Card, and a CD containing supplemental information and video clips on CPR and AED skills. An ideal resource for first responders, child-care workers, teachers, foster-care workers, camp counselors, youth organizations, coaches/Little League organizations, as well as parents, grandparents, and baby sitters.

Responding to Emergencies Xlibris Corporation

"Designed for use by persons who are responsible for giving emergency care to the sick and injured. It provides the essential information for developing the functional first aid capabilities required by policemen, firemen, emergency squad members, and ambulance attendants."--Preface.

First Aid, CPR, and AED Essentials Jones & Bartlett Publishers

Emergency Responder: Advanced First Aid for Non-EMS Personnel is not just another first-aid book. Designed for working professionals, this flexible program blends textbook with online modules and instructor-led hands-on training events. Drawing from their years of experience training and developing emergency response teams, the authors cover the most important skills needed in order to effectively respond to life-threatening events. Carefully designed skill sheets included in the text assist readers in developing the competency necessary to perform each skill with accuracy and confidence. Establishing a foundation in the basic concepts of emergency medical care, the text presents in a logical, easy-to-follow format many of the most common illnesses and injuries responders are likely to encounter. The authors provide realistic depth and breadth of information in a way that will make you successful caring for people who have fallen victim to sudden illness or injury.
