ERICK HARPER

Academic Encounters: Human Behavior Student's Book Cambridge University Press

How do ant colonies get anything done, when no one is in charge? An ant colony

operates without a central control or hierarchy, and no ant directs another. Instead, ants decide what to do based on the rate, rhythm, and pattern of individual encounters and interactions--resulting in a dynamic network that coordinates the functions of the colony. Ant Encounters provides a revealing and accessible look into ant behavior from this complex systems perspective. Focusing on the

moment-to-moment behavior of ant colonies, Deborah Gordon investigates the role of interaction networks in regulating colony behavior and relations among ant colonies. She shows how ant behavior within and between colonies arises from local interactions of individuals, and how interaction networks develop as a colony grows older and larger. The more rapidly ants react to their encounters, the more

sensitively the entire colony responds to changing conditions. Gordon explores whether such reactive networks help a colony to survive and reproduce, how natural selection shapes colony networks, and how these structures compare to other analogous complex systems. *Ant Encounters* sheds light on the organizational behavior, ecology, and evolution of these diverse and ubiquitous social insects.

Cambridge University Press

The Academic Encounters Second edition series uses a sustained content approach to teach skills necessary for taking academic courses in English. There are two books for each content area.

Academic Encounters Level 4 Student's Book Listening and Speaking with DVD Human Behavior engages students through interviews and academic lectures on stimulating topics from the fields of psychology and communications. Topics include stress and the immune system, intelligence testing, friendship, and love. Students develop crucial listening and note-taking skills, discuss content, conduct interviews, and make presentations. A Student DVD includes all of the academic

lectures. Topics correspond with those in *Academic Encounters Level 4 Student's Book Reading and Writing Human Behavior*. The books may be used independently or together.

Academic Encounters: Human Behavior Student's Book Princeton University Press

The Academic Encounters series uses a sustained content approach to teach skills necessary for taking academic courses in English. There are two books for each content area. *Academic Encounters: Human Behavior* engages students with authentic academic readings from college textbooks, photos, graphs, and charts on stimulating topics from the fields of psychology and communications. Topics include stress, health, and nonverbal communication. Students develop important skills such as skimming, reading for the main idea, reading for speed, understanding vocabulary in context, summarizing, note taking, and test preparation. By completing writing assignments of different lengths, students build academic writing skills, respond to the readings, and incorporate what they have learned. The topics correspond with those in *Academic Listening Encounters:*

Human Behavior. The books may be used independently or together.
