Making the case for a new kind of visual history, *The Goddess and the Nation* charts the pictorial life and career of Bharat Mata, "Mother India," the Indian nation imagined as mother/goddess, embodiment of national territory, and unifying symbol for the country's diverse communities. Soon after Mother India's emergence in the late nineteenth century, artists, both famous and amateur, began to picture her in various media, incorporating the map of India into her visual persona. The images they produced enabled patriotic men and women in a heterogeneous population to collectively visualize India, affectively identify with it, and even become willing to surrender their lives for it. Filled with illustrations, including 100 in color, *The Goddess and the Nation* draws on visual studies, gender studies, and the history of cartography to offer a rigorous analysis of Mother India's appearance in painting, print, poster art, and pictures from the late nineteenth century to the present. By exploring the mutual entanglement of the scientifically mapped image of India and a (Hindu) mother/goddess, Sumathi Ramaswamy reveals Mother India as a figure who relies on the British colonial mapped image of her dominion to distinguish her from the other goddesses of India, and to guarantee her novel status as embodiment, sign, and symbol of national territory. Providing an exemplary critique of ideologies of gender and the science of cartography, Ramaswamy demonstrates that images do not merely reflect history; they actively make it. In *The Goddess and the Nation*, she teaches us about pictorial ways of learning the form of the nation, of how to live with it—and ultimately to die for it.

Sylvia Browne, in her own inimitable style, again defies convention in this uniquely informative compilation of diligently researched facts and personal accounts about the premise of a female divinity - namely, the Mother God (also known as the feminine principle). Spanning time, from the earliest beginnings of humankind when "Goddess worship" was at its peak, to the current era with its myriad beliefs and religions, Sylvia takes us on a journey of discovery, where she discusses the suppression of the "Mother Goddess" by the male-dominated politics of modern-day religious dogma. Using a combination of historical data and poignant and heartwarming stories that reveal the power and miracles attributed to the Mother God, Sylvia leads us from the question of "Does She exist?" to the logical, fact-based conclusion that She does ... and then shows us how to call on Her to help us in our everyday lives.

An examination of the Mother Goddess in Italian Renaissance art by art historian Edith Balas.

The Book of Kelle Univ of California Press

For as long as we have sought god, we have found the goddess.

Ruling over the imaginations of humankind's earliest agricultural civilizations, she played a critical spiritual role as a keeper of nature's fertile powers and an assurance of the next sustaining harvest. In *The Goddess*, David Leeming and Christopher Fee take us all the way back into prehistory, tracing the goddess across vast spans of time to tell the epic story of the transformation of belief and what it says about who we are. Leeming and Fee use the goddess to gaze into the lives and souls of the people who worshipped her. They chart the development of traditional Western gender roles through an understanding of the transformation of concepts of the Goddess from her earliest roots in India and Iran to her more familiar faces in Ireland and Iceland. They examine the subordination of the goddess to the god as human civilizations became mobile and began to look upon masculine deities for assurances of survival in movement and battle. And they show how, despite this history, the goddess has remained alive in our spiritual imaginations, in figures such as the Christian Virgin Mother and, in contemporary times, the new-age resurrection of figures such as Gaia. *The Goddess* explores this central aspect of ancient spiritual thought as a window into human history and the deepest roots of our beliefs. *Babylon Religion* Oxford University Press on Demand
Hand block-printed on textile, this limited-edition artists' book consists of a sequence of folding panels, designed to invoke pre-modern - particularly Asian - traditions of bookmaking. At the same time, the panels recall and recreate a Mata-Ni-Pachedi - the ritual 'Cloth of the Mother Goddess' - and tell the story of its origins. The textile book is accompanied by a film on the artist and his art tradition. The tactility of the book, invoking the labour and craft that have gone into its creation, is offset by the digital documentary which brings in context and history; together, the juxtaposition of the two approaches expands the frontiers of the book form, while deepening the viewer's enjoyment and understanding of the art tradition. The images featured in the book have been painted by Jagdish Chitara, who belongs to the Waghari community of artisans from Gujarat in western India. Poor and marginalised, they paint and block-print votive textiles for other so-called outcaste communities, equally disenfranchised in the Hindu caste hierarchy. Worshippers who are barred from entering temples offer a painted image of their particular guardian goddess to herself, in the form of a textile shrine. This poignant tradition, deemed low, in fact, expresses a sublime conception of the power of art: gifting a piece of creation to the creator is considered the highest form of worship. This is a notion of transcendence that appears to stretch across cultures and times.

In Search of God the Mother South Asia Books

Bringing a feminist perspective to contemporary findings of geneticists and archeologists, Lucia Chiavola Birnbaum, cultural historian, points out that the oldest veneration we know is of a dark mother of central and south Africa, whose signs-ochre red and the pubic V-were taken by african migrants after 50,000 BCE to caves and cliffs of all continents. The oldest sanctuary in the world was created in 40,000 BCE by african migrants in Har Karkom, later called Mt. Sinai, foundation place of judaism, christianity, and islam. Lucia documents the continuing memory of the dark mother and her values in prehistoric images of the dark mother, in historic black madonnas and in other dark women divinities whose sanctuaries are on african paths. She tracks the memory in rituals and stories of her sicilian grandmothers, in persecution of dark others in patriarchal Europe and the United States, in the rise of nonviolent dark others since the 1960s, in the banners of the 1995 world conference of women at Beijing, and in art. She finds the dark mother's values-justice with compassion, equality, and transformation-in everyday and celebratory rituals of the world's subaltern cultures-and suggests that the image and values are in the submerged memories of everyone.

Jailbreaking the Goddess is a revolutionary revisioning of the feminine divine. Where the maiden, mother, crone archetypal system is tied to female biology and physical stages of life, the fivefold model liberates the female experience from the shackles of the reproductive model. In a woman's lifetime, she will go through several different cycles of beginnings, potential, creation, mastery, and wisdom. This fivefold model is not an adaption of the threefold. It is a new system that embraces the powerful, fluid nature of the lived experience of women today. Join Lasara Firefox Allen as she explores the nature of the five archetypes; gives examples of what areas of life each might preside over; lists goddesses that fit within each archetype; suggests ways to begin building relationship with the different archetypes; and provides simple rituals for recognition, transition, and invocation. Praise: "Jailbreaking the Goddess is an important contribution to the writings on Goddess tradition and feminist spirituality...I love her political savvy, her sensitivity around issues of diversity and cultural awareness and appropriation, and her unabashed celebration of pleasure, sensuality, and life!"—Starhawk "This fiercely inspired body of work is art, theory, and passion. innovative work that has the potential to change the face of modern feminist spirituality."—Suzanne Sterling, founder of Voice of Change

This labyrinthine and extraordinary book, first published more than fifty years ago, was the outcome of Graves's vast reading and curious research into strange territories of folklore, mythology, religion and magic. Erudite and impassioned, it is a scholar-poet's quest for the meaning of European myths, a polemic about the relations between man and woman, and also an intensely personal document in which Graves explored the sources of his own inspiration and, as he believed, all true poetry. This new edition has been prepared by Grevel Lindop, who has written an illuminating introduction. The text of the book incorporates all Graves's final revisions, as well as his replies to two of the original reviewers, and a long essay in which he describes the months of inspiration in which *The White Goddess* was written.
