PATEL DRAVEN

(Updated Edition). University of Chicago Press
Kenneth Burke, founder of the critical method of dramatism, believed that motives and attitudes are constantly generated by individuals as they encounter social situations and material objects in the course of their everyday lives. In *The Rhetoric of Emotions*, Robert Perinbanayagam proposes that by analysing individuals' experiences, especially through their interaction with creative outlets, we can come to a deeper understanding of how the human mind systematically approaches the emotive process. The author maintains that individuals use spoken language, and all other forms of symbolism, including art and

literature, to elicit social cooperation and emotional understanding, both in regard to the world around them and within themselves. Rhetoric and culture are mechanisms for managing values, behaviour, and emotions. In order to ground this philosophical viewpoint, Perinbanayagam strategically discusses famous novels and paintings to show how individuals construct emotional responses to the rhetorical objects at their disposal. In addition to the ideas of Burke and George Herbert Mead, the ideas of Max Weber, Georg Simmel, Charles Sanders Peirce, Edmund Husserl, Alfred Schutz, and Erving Goffman are also reflected in this provocative analysis.

Oedipus the King Franklin Classics Trade Press
Sovereignty of Death SIU Press

The legends surrounding the royal house of Thebes inspired Sophocles to create a powerful trilogy of mankind's struggle against fate. KING OEDIPUS tells of a man who brings pestilence to Thebes for crimes he doesn't realise he has committed, and then inflicts a brutal punishment on himself. It is a devastating portrayal of a ruler brought down by his own oath. OEDIPUS AT COLONUS provides a fitting conclusion to the life of the aged and blinded king, while ANTIGONE depicts the fall of the next generation through the conflict between a young woman ruled by her conscience and a king too confident in his own authority.

Oedipus at Colonus Yale University Press

The celebrated author of *Gender Trouble* here redefines Antigone's legacy, recovering her revolutionary significance and liberating it for a progressive feminism and sexual politics. Butler's new interpretation does nothing less than reconceptualize the incest taboo in relation to kinship—and open up the concept of kinship to cultural change. Antigone, the renowned insurgent from Sophocles's *Oedipus*, has long been a feminist icon of defiance. But what has remained unclear is whether she escapes from the forms of power that she opposes. Antigone proves to be a more ambivalent figure for feminism than has been acknowledged, since the form of defiance she exemplifies also leads to her death. Butler argues that Antigone represents a form of feminist and sexual agency that is fraught with risk. Moreover, Antigone shows how the constraints of normative kinship unfairly decide what will and will not be a livable life. Butler explores the meaning of Antigone, wondering what forms of kinship might have allowed her to live. Along the way, she considers the works of such philosophers as Hegel,

Lacan, and Irigaray. How, she asks, would psychoanalysis have been different if it had taken Antigone—the "postoedipal" subject—rather than Oedipus as its point of departure? If the incest taboo is reconceived so that it does not mandate heterosexuality as its solution, what forms of sexual alliance and new kinship might be acknowledged as a result? The book relates the courageous deeds of Antigone to the claims made by those whose relations are still not honored as those of proper kinship, showing how a culture of normative heterosexuality obstructs our capacity to see what sexual freedom and political agency could be.

Antigone's Claim Oxford University Press

For introductory undergraduate courses in literature. Clear, student-friendly writing and an impeccable treatment of the technique of critical reading make this text a powerful and engaging learning tool. This compact text focuses on helping students read and understand literature from various critical theory perspectives. The inclusion of women and cross-cultural writers encourages students to approach literature from a variety of critically valuable viewpoints, reinforcing an underlying premise that there are many valid interpretations of literature. An emphasis on understanding the critical elements and how they work in conjunction leads students to apply what they have learned when developing a thorough, satisfying critical interpretation.

Literature BRILL

Sophocles I contains the plays "Antigone," translated by Elizabeth Wyckoff; "Oedipus the King," translated by David Grene; and "Oedipus at Colonus," translated by Robert Fitzgerald. Sixty years

ago, the University of Chicago Press undertook a momentous project: a new translation of the Greek tragedies that would be the ultimate resource for teachers, students, and readers. They succeeded. Under the expert management of eminent classicists David Grene and Richmond Lattimore, those translations combined accuracy, poetic immediacy, and clarity of presentation to render the surviving masterpieces of Aeschylus, Sophocles, and Euripides in an English so lively and compelling that they remain the standard translations. Today, Chicago is taking pains to ensure that our Greek tragedies remain the leading English-language versions throughout the twenty-first century. In this highly anticipated third edition, Mark Griffith and Glenn W. Most have carefully updated the translations to bring them even closer to the ancient Greek while retaining the vibrancy for which our English versions are famous. This edition also includes brand-new translations of Euripides' *Medea*, *The Children of Heracles*, *Andromache*, and *Iphigenia among the Taurians*, fragments of lost plays by Aeschylus, and the surviving portion of Sophocles's satyr-drama *The Trackers*. New introductions for each play offer essential information about its first production, plot, and reception in antiquity and beyond. In addition, each volume includes an introduction to the life and work of its tragedian, as well as notes addressing textual uncertainties and a glossary of names and places mentioned in the plays. In addition to the new content, the volumes have been reorganized both within and between volumes to reflect the most up-to-date scholarship on the order in which the plays were originally written. The result is a set of handsome paperbacks destined to introduce new generations of readers to these foundational works of Western

drama, art, and life.

Plays of Sophocles *Oedipus the King*; *Oedipus at Colonus*; *Antigone* Applause Books

The formidable talents of Anthony Hecht, one of the most gifted of contemporary American poets, and Helen Bacon, a classical scholar, are here brought to bear on this vibrant translation of Aeschylus' much underrated tragedy *The Seven Against Thebes*. The third and only remaining play in a trilogy dealing with related events, *The Seven Against Thebes* tells the story of the Argive attempt to claim the Kingdom of Thebes, and of the deaths of the brothers Eteocles and Polyneices, each by the others hand. Long dismissed by critics as ritualistic and lacking in dramatic tension, *Seven Against Thebes* is revealed by Hecht and Bacon as a work of great unity and drama, one exceptionally rich in symbolism and imagery.

A Dictionary Longman Publishing Group

Described as the Mona Lisa of literature and the world's first detective story, Sophocles' *Oedipus the King* is a major text from the ancient Greek world and an iconic work of world literature. Aristotle's favourite play, lauded by him as the exemplary Athenian tragedy, *Oedipus the King* has retained its power both on and off the stage. Before Freud's famous interpretation of the play - an appropriation, some might say - Hölderlin and Nietzsche recognised its unique qualities. Its literary worth is undiminished, philosophers revel in its probing into issues of freedom and necessity and Lacan has ensured its vital significance for post-Freudian psychoanalysis. This Reader's Guide begins with *Oedipus* as a figure from Greek mythology before focusing on fifth-century Athenian tragedy and the meaning of the drama as

it develops scene by scene on the stage. The book covers the afterlife of the play in depth and provides a comprehensive guide to further reading for students.

An Introduction to Critical Reading Columbia University Press
Stuart offers the most thorough discography of the works and recordings of Igor Stravinsky to date as well as a chronicle of the composer's career focusing on his approach to recording and his relation to the recording industry. This is the first discography to list all of Stravinsky's recorded compositions including concert and broadcast performances. It includes all LP issues, highlights Robert Craft's contribution to the continued exposure of Stravinsky's works after 1948, lists the piano recordings by Stravinsky's son, and acknowledges published and unpublished performances--providing a valuable guide to the composer's works.

A collection of eight critical essays on the classical tragedy, arranged in the chronological order of their original publication.

The Oxford Encyclopedia of British Literature Bloomsbury Publishing

With the skills of a playwright, the vision of a producer, and the wisdom of an experienced teacher, David Rush offers a fresh and innovative guide to interpreting drama in *A Student Guide to Play Analysis*, the first undergraduate teaching tool to address postmodern drama in addition to classic and modern. Covering a wide gamut of texts and genres, this far-reaching and user-friendly volume is easily paired with most anthologies of plays and is accessible even to those without a literary background. Contending that there are no right or wrong answers in play analysis, Rush emphasizes the importance of students developing insights of their own. The process is twofold: understand the critical terms that are used to define various parts and then apply these to a particular play. Rush clarifies the concepts of plot, character, and language, advancing Aristotle's concept of the

Four Causes as a method for approaching a play through various critical windows. He describes the essential difference between a story and a play, outlines four ways of looking at plays, and then takes up the typical structural devices of a well-made play, four primary genres and their hybrids, and numerous styles, from expressionism to postmodernism. For each subject, he defines critical norms and analyzes plays common to the canon. A Student Guide to Play Analysis draws on thoughtful examinations of such dramas as *The Cherry Orchard*, *The Good Woman of Setzuan*, *Fences*, *The Little Foxes*, *A Doll House*, *The Glass Menagerie*, and *The Emperor Jones*. Each chapter ends with a list of questions that will guide students in further study.
