Song of Kali Harper Collins

Once Joe Kurtz needed revenge--and revenge cost him eleven years in Attica prison. Now Kurtz needs a job, and the price is going to be higher. Out of prison, out of touch, Kurtz signs on with the Byron Farino, Don of a Mob family whose son Kurtz had been protecting on the inside. Farino enlists Kurtz's help to track down the Family's missing accountant--a man with too much knowledge of Family business to have on the loose. But someone doesn't want the accountant found--and with enemies inside the Family vying for his throne, and turf warfare just around the corner, Farino needs an outsider like Kurtz to flush out who's really behind this latest affront. As the story twists and turns and the body count rises, Kurtz no longer knows who he can trust. Everyone seems to be after something, from the mob boss's sultry yet dangerous daughter, to a hit man named The Dane, an albino killer who is good with a knife, and a dwarf who is armed to the teeth and hell-bent on revenge. Kurtz has always been an ace investigator. Now he's about to discover that to get at the truth, sometimes you have to go after it--hard.

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he

asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

It's the summer of 1942, and FBI agent Joe Lucas has come to Cuba at the behest of the Director to keep an eye on Ernest Hemingway in the Caribbean. Lucas thinks of it as a demotion--a babysitting job for a famous writer who has decided to play spy, assembling a team of misfits including an American millionaire, a twelve-year-old Cuban orphan, a Spanish jai alai champion and more in a would-be espionage ring Hemingway dubs the "Crook Factory." But when Hemingway uncovers a critical piece of intelligence that both threatens his life and endangers the political landscape, the fate of the free world and the life of one of its most preeminent writers lies in the hands of the FBI's most ruthless agent.

This book is a critical biography of Grant Allen, (1848-1899), the first for a century, based on all the surviving primary sources. Born in Kingston, Ontario, into a cultured and affluent family, Allen was educated in France and England. A mysterious marriage while he was an Oxford undergraduate wrecked his academic career and radicalized his views on sexual and marital questions, as did a three-year teaching stint in Jamaica. Despite his lifelong ill health and short life, Allen was a writer of extraordinary productivity and range. About half - more than 30 books and many hundreds of articles - reflects interests which ran from Darwinian biology to cultural travel guides. His prosperity, however, was underpinned by fiction; more than 30 novels, including *The Woman Who Did*, which has attracted much recent attention from feminist critics and historians. *The Better End of Grub*

Street uses Allen's career to examine the role and status of the freelance author/journalist in the late-Victorian period. Allen's career delineates what it took to succeed in this notoriously tough profession.

The "masterfully chilling" novel that inspired the hit AMC series (Entertainment Weekly). The men on board the HMS Terror — part of the 1845 Franklin Expedition, the first steam-powered vessels ever to search for the legendary Northwest Passage — are entering a second summer in the Arctic Circle without a thaw, stranded in a nightmarish landscape of encroaching ice and darkness. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen predator stalking their ship, a monstrous terror clawing to get in. "The best and most unusual historical novel I have read in years." —Katherine A. Powers, Boston Globe

In 1999, Conrad Anker found the body of George Mallory on Mount Everest, casting an entirely new light on the mystery of the lost explorer. On 8 June 1924, George Leigh Mallory and Andrew 'Sandy' Irvine were last seen climbing towards the summit of Everest. The clouds closed around them and they were lost to history, leaving the world to wonder whether or not they actually reached the summit - some 29 years before Edmund Hillary and Tensing Norgay. On 1 May 1999, Conrad Anker, one of the world's foremost mountaineers, made the momentous discovery - Mallory's body, lying frozen into the scree at 27,000 feet on Everest's north face. Recounting this day, the authors go on to assess the clues provided by the body, its position, and the possibility that Mallory had successfully climbed the Second Step, a 90-foot sheer cliff that is the single hardest obstacle on the north face. A remarkable story of a charming and immensely able man, told by an equally talented modern climber.

Beneath the gaze of the gods, the mighty armies of Greece and Troy met in fierce and glorious combat, scrupulously following the text set forth in Homer's timeless narrative. But that was before twenty-first-century scholar Thomas Hockenberry stirred the bloody brew, causing an enraged Achilles to join forces with his archenemy Hector and turn his murderous wrath on Zeus and the entire pantheon of divine manipulators; before the swift and terrible mechanical creatures that catered for centuries to the pitiful idle remnants of Earth's human race began massing in the millions, to exterminate rather than serve. And now all bets are off.
