## **PETERSEN CARLA**

---

*A Long Walk to Water*  
Springer  
When Peter DeLeo set out one Sunday morning on a sightseeing and photography trip over

the central Sierra Nevada mountains in California, he had no idea that he would soon be fighting for his life with the odds stacked very much against him. DeLeo's single-engine plane encountered turbulence, and he and his two passengers

crashed in the mountains. All three survived the accident but sustained multiple injuries. DeLeo had broken ribs, a shattered ankle, and a badly damaged shoulder. After assessing their situation, they decided that the passengers should remain with the plane while DeLeo would hike out to bring back help. It was already winter; he left the limited emergency supplies with the plane's passengers; and he was hampered by his injuries, but DeLeo was determined to get help. He found or improvised shelter at night, carefully warmed himself during the daytime, drank from small pools of melted snow and ice, and slowly but steadily made his way toward

civilization. Suffering from exhaustion and on the verge of collapse, he found a hot spring that provided him with temporary warmth and insects to eat. Injuries, dehydration, malnutrition, and a two-day blizzard slowed him, and a rockslide nearly killed him just as he glimpsed the valley and highway that he so desperately sought, but DeLeo's courage saw him through. Meanwhile, Civil Air Patrol planes searched fruitlessly for the lost plane and for survivors; twice, DeLeo frantically tried to signal the search planes, but to no avail. When DeLeo finally reached a highway, he found it almost impossible to convince the authorities that he

was the lost pilot who had been all but given up for dead. His astonishing survival, one of the most remarkable feats of endurance on record, made national and even international news. Now, for the first time, Peter DeLeo tells his remarkable story in gripping detail. His amazing saga is destined to become a classic.

Bestselling author  
Lauren Tarshis tackles the American Revolution in this latest installment of the groundbreaking, New York Times bestselling I Survived series.

**The American Dream**

Houghton Mifflin  
Harcourt  
The New York Times bestselling work of

undercover reportage from our sharpest and most original social critic, with a new foreword by Matthew Desmond, author of *Evicted* Millions of Americans work full time, year round, for poverty-level wages. In 1998, Barbara Ehrenreich decided to join them. She was inspired in part by the rhetoric surrounding welfare reform, which promised that a job—any job—can be the ticket to a better life. But how does anyone survive, let alone prosper, on \$6 an hour? To find out, Ehrenreich left her home, took the cheapest lodgings she could find, and accepted whatever jobs she was offered. Moving from Florida to Maine to Minnesota, she worked as a

waitress, a hotel maid, a cleaning woman, a nursing-home aide, and a Wal-Mart sales clerk. She lived in trailer parks and crumbling residential motels. Very quickly, she discovered that no job is truly "unskilled," that even the lowliest occupations require exhausting mental and muscular effort. She also learned that one job is not enough; you need at least two if you want to live indoors. *Nickel and Dimed* reveals low-rent America in all its tenacity, anxiety, and surprising generosity—a land of Big Boxes, fast food, and a thousand desperate stratagems for survival. Read it for the smoldering clarity of Ehrenreich's perspective and for a rare view of how

"prosperity" looks from the bottom. And now, in a new foreword, Matthew Desmond, author of *Evicted: Poverty and Profit in the American City*, explains why, twenty years on in America, *Nickel and Dimed* is more relevant than ever.

*Can the South Survive?*

*Can South Africa Survive?* Zed Books

In this book, Geryl provides the blueprint for those wishing to survive the 2012 disaster to prepare themselves and prevail. He explains in detail the myriad problems survivors will encounter, and the precautions that need to be taken to overcome them.

*As the Future Unfolds Prepare Yourself...*

Random House  
Examining many aspects of the South-- religion, manners, family life, localism, literature, politics, rural life, and urbanization-- these essays acknowledge the power and relevance of the Agrarian tradition and argue that the South can still provide a model and touchstone for the nation.

### **Can it Survive the 21st Century?**

iUniverse  
Should we be more concerned that collapsing share values and widespread corporate failure and fraud beg some serious questions about the viability of the present world economy? Harry Shutt persuasively demonstrates that the present crisis is the culmination of 30 years

of deepening stagnation. Faced with a long-term trend of reduced demand for both capital and labor the world economy has only avoided a vast recession through growing reliance on official subsidy and market distortion. Shutt points out that regulatory reform can only work by limiting profitability but that a more sustainable model is unacceptable to ruling elites. He outlines an agenda for fundamental changes, based on the premise that the primacy of private profit is no longer compatible with the priorities of modern democracies.

In this 2006 book, Conor Gearty confronts the challenges that may destroy the language of human rights for future generations.

*The Cajuns of South*

*Louisiana* UNSW Press

Looks at how African and Western patterns are merging, examines the problems that face modern Africa, and clears up Western misconceptions about the continent

How Long Will South Africa Survive?

CreateSpace

It's time to fight back. Each day, more South Africans are targeted, labelled, and hounded out of society for expressing their

opinions - ordinary opinions that just a few years ago were accepted as rational common sense. Have you been "cancelled" by an online mob that won't stop harassing you until you're fired from your job? Helen Zille almost was - but she survived by fighting back. In *#StayWoke: Go Broke*, the bestselling author and defining South African political figure explains why the woke Left constitutes a greater threat to South Africa's future than the populist Right does. Now more than ever, liberals must strengthen their spines and fight for their values - or be eviscerated in the Culture Wars raging across the English-speaking world. If you're looking for an

incisive, indispensable survival guide through this tumultuous period of South African history, then *#StayWoke: Go Broke* is for you. Buy it now. *I'll Take My Stand Can the South Survive?* An exhaustive analysis of the land called Dixie, its past, its present, and its future -- if it has one. Does the South even have a right to exist? If so, can it survive immigration, integration, and a consuming coarsening of its culture? Influenced by the astute observations of such scholars as Richard Weaver and Donald Davison, Grissom provides some straightforward answers to several questions plaguing the modern South. *How Long Will South Africa Survive?* The Looming

Crisis  
In 1977, Johnson's best selling *How Long Will South Africa Survive?* offered a controversial and highly original analysis of the survival prospects of apartheid. Now, after more than two decades of the ANC in government, he believes the question must be posed again. "The big question about ANC rule," Johnson writes, "is whether African nationalism would be able to cope with the challenges of running a modern industrial economy. Twenty years of ANC rule have shown conclusively that the party is hopelessly ill equipped for this task. Indeed, everything suggests that South Africa under the ANC is fast slipping backward and that even the survival of

South Africa as a unitary state cannot be taken for granted. The fundamental reason why the question of regime change has to be posed is that it is now clear that South Africa can either choose to have an ANC government or it can have a modern industrial economy. It cannot have both."

**Can Human Rights Survive?** Metropolitan Books

Confederate Winter is historical fiction based on a true family story backed up by an affidavit in the Confederate archives in Montgomery, Alabama. The author's great, great, great grandfather, William Sweeney, fought as a Confederate soldier at the tender age of 14. His father, John, had been drafted the year

before into the Union Army. Confederate Winter is their story. By 1864 the Confederacy is on the verge of defeat. Atlanta has fallen and Confederate General John Bell Hood's army is in retreat. Hood formulates a bold plan to re-capture Nashville, the great base for the Union army in the West. A victory could change the course of the war. Hood needs manpower, however, and sends his conscription parties out to scour the countryside.

Confederate Winter tells the story of a true-life family caught up in this grand adventure. The Federals conscript John Sweeney, the father, in late 1863 as General Sherman prepares his march on Atlanta and the sea.

His son William is left in charge of the family farm, until one early fall morning...

**When All Hell Breaks**

**Loose** Hoover Press  
A lively cookbook for Southerners who wish to recapture the tastes, smells, and memories of their youth -- and for fans of Southern cooking everywhere. Food in the South is a religion. Yet the problem with a lot of Southern cooking is the ever-present can of cream of mushroom soup. In this lively, humorous cookbook, Robert St. John shows Southerners (and all fans of the cuisine) how to indulge in the ideas and tastes that inspired Southern cooking, without resorting to ingredients like that canned soup in the recipe. The classic dishes are all

here; they just taste better! Sections include cocktail party fare, funeral food, breakfasts, salads and soups, summer suppers, cakes, vegetables, chitlins, desserts, sides, and much more. Recipes include Buttermilk Chicken, Pecan Crusted Redfish, Fried Catfish, Cajun Popcorn, Corn Fritters, and lots of other Southern classics.
