Ten-year-old Chamdi has rarely ventured outside his orphanage and entertains a fantasy of what Bombay is like beyond its garden walls – a paradise he calls Kahunsha, “the city of no sadness.” He runs away to search for his long-lost father and finds himself thrust into chaos. Moving, poignant, and wonderfully rich in the sights and sounds of Bombay, this novel is the story of Chamdi's struggle for survival on the city's dangerous streets.

The Valley and the Flood Houghton Mifflin Harcourt

A stunning and provocative new novel by the internationally celebrated author of *The Blind Assassin*, winner of the Booker Prize. Margaret Atwood's new novel is so utterly compelling, so prescient, so relevant, so terrifyingly-all-too-likely-to-be-true, that readers may find their view of the world forever changed after reading it. This is Margaret Atwood at the absolute peak of her powers. For readers of *Oryx and Crake*, nothing will ever look the same again. The narrator of Atwood's riveting novel calls himself Snowman. When the story opens, he is sleeping in a tree, wearing an old bedsheet, mourning the loss of his beloved Oryx and his best friend Crake, and slowly starving to death. He searches for supplies in a wasteland where insects proliferate and pigeons and wolvoogs ravage the pleeblands, where ordinary people once lived, and the Compounds that sheltered the extraordinary. As he tries to piece together what has taken place, the narrative shifts to decades earlier. How did everything fall apart so quickly? Why is he left with nothing but his haunting memories? Alone except for the green-eyed Children of Crake, who think of him as a kind of monster, he explores the answers to these questions in the double journey he takes – into his own past, and back to Crake's high-tech bubble-dome, where the Paradise Project unfolded and the world came to grief. With breathtaking command of her shocking material, and with her customary sharp wit and dark humour, Atwood projects us into an outlandish yet wholly believable realm populated by characters who will continue to inhabit our dreams long after the last chapter.

The Year of the Flood Chicago Review Press

Atwood triumphs with these dazzling, personal stories in her first collection since *Wilderness Tips*. In these ten interrelated stories Atwood traces the course of a life and also the lives intertwined with it, while evoking the drama and the humour that colour common experiences — the birth of a baby, divorce and remarriage, old age and death. With settings ranging from Toronto, northern Quebec, and rural Ontario, the stories begin in the present, as a couple no longer young situate themselves in a larger world no longer safe. Then the narrative goes back in time to the forties and moves chronologically forward toward the present. In “The Art of Cooking and Serving,” the twelve-year-old narrator does her best to accommodate the arrival of a baby sister. After she boldly declares her independence, we follow the narrator into young adulthood and then through a complex

relationship. In “The Entities,” the story of two women haunted by the past unfolds. The magnificent last two stories reveal the heartbreaking old age of parents but circle back again to childhood, to complete the cycle. By turns funny, lyrical, incisive, tragic, earthy, shocking, and deeply personal, *Moral Disorder* displays Atwood's celebrated storytelling gifts and unmistakable style to their best advantage. This is vintage Atwood, writing at the height of her powers.

From the #1 New York Times bestselling author of *The Handmaid's Tale* In this extraordinary collection, Margaret Atwood gives us nine unforgettable tales that reveal the grotesque, delightfully wicked facets of humanity. “Alphinland,” the first of three loosely linked tales, introduces us to a fantasy writer who is guided through a stormy winter evening by the voice of her late husband. In “Lusus Naturae,” a young woman, monstrously transformed by a genetic defect, is mistaken for a vampire. And in the title story, a woman who has killed four husbands discovers an opportunity to exact vengeance on the first man who ever wronged her. By turns thrilling, funny, and thought-provoking, *Stone Mattress* affirms Atwood as our greatest creator of worlds—and as an incisive chronicler of our darkest impulses.

After the Flood The Year of the Flood

By the author of *The Handmaid's Tale* and *Alias Grace* The sun brightens in the east, reddening the blue-grey haze that marks the distant ocean. The vultures roosting on the hydro poles fan out their wings to dry them. The air smells faintly of burning. The waterless flood – a man-made plague – has ended the world. But two young women have survived: Ren, a young dancer trapped where she worked, in an upmarket sex club (the cleanest dirty girls in town); and Toby, who watches and waits from her rooftop garden. Is anyone else out there?

Things From the Flood Princeton University Press

Life is about more than just surviving... An unforgettable, inventive, and riveting epic saga about a mother, her daughter and their struggle to survive in a post-apocalyptic flooded world, which signals the arrival of an extraordinary new talent. 'An adventure rife with great peril and high emotional stakes, this postapocalyptic novel reads like a fast-paced screenplay: intense, visceral, and relentless.' *Library Journal* It's 2031, and the world has been utterly transformed. After years of rising floodwaters, all that's left is an archipelago of mountaintop colonies surrounded by a deep expanse of open water. Civilization as it once was is gone. Bands of pirates roam the waters, in search of goods and women to breed. Some join together to create a new kind of society, while others sail alone, barely surviving. Myra and her young daughter, Pearl, survive by fishing from their small boat, visiting small hamlets and towns on dry land to trade for supplies and information. The sole purpose of Myra's existence is to protect Pearl, while mourning the loss of her oldest daughter, Row, who was kidnapped during the last terrifying storm surge. For eight years Myra has searched for the girl that she knows, in her bones and her heart, still lives. In a violent confrontation with a stranger, Myra hears that Row was last seen in a far-off

encampment of raiders on the coast of what used to be Greenland. Throwing aside her usual caution, she and Pearl embark on a perilous voyage into the icy northern seas to rescue her. A compulsively readable novel of dark despair and soaring hope, *After the Flood* is a magnificent, exhilarating, action-packed, and sometimes frightening odyssey laced with wonder - an affecting and wholly original saga, both redemptive and astonishing. 'The searing, often brutal story of a mother's terrifying quest to find her missing daughter in a post-apocalyptic world. Haunting and shocking.' Liv Constantine, bestselling author of *The Last Mrs. Parrish* '[A] brilliantly imagined novel about love and desperation, set in an astonishing new world ... utterly gripping' Karin Slaughter, international bestselling author of *The Last Widow* 'An intriguing and innovative woman-centered swashbuckling quest narrative' Publishers Weekly

"A tense and beautiful tale about the monsters we make and the memories that haunt us." --Kate Alice Marshall, author of *I Am Still Alive* and *Rules for Vanishing Rose* Colter is almost home, but she can't go back there yet. When her car breaks down in the Nevada desert, the silence of the night is broken by a radio broadcast of a voicemail message from her best friend, Gaby. A message Rose has listened to countless times over the past year. The last one Gaby left before she died. So Rose follows the lights from the closest radio tower to Lotus Valley, a small town where prophets are a dime a dozen, secrets lurk in every shadow, and the diner pie is legendary. And according to Cassie Cyrene, the town's third most accurate prophet, they've been waiting for her. Because Rose's arrival is part of a looming prophecy, one that says a flood will destroy Lotus Valley in just three days' time. Rose believes if the prophecy comes true then it will confirm her worst fear--the PTSD she was diagnosed with after Gaby's death has changed her in ways she can't face. So with help from new friends, Rose sets out to stop the flood, but her connection to it, and to this strange little town, runs deeper than she could've imagined. Debut author Rebecca Mahoney delivers an immersive and captivating novel about magical places, found family, the power of grief and memory, and the journey toward reconciling who you think you've become with the person you've been all along.

Far North is a 2009 National Book Award Finalist for Fiction. My father had an expression for a thing that turned out bad. He'd say it had gone west. But going west always sounded pretty good to me. After all, westwards is the path of the sun. And through as much history as I know of, people have moved west to settle and find freedom. But our world had gone north, truly gone north, and just how far north I was beginning to learn. Out on the frontier of a failed state, *Makepeace*—sheriff and perhaps last citizen—patrols a city's ruins, salvaging books but keeping the guns in good repair. Into this cold land comes shocking evidence that life might be flourishing elsewhere: a refugee emerges from the vast emptiness of forest, whose existence inspires *Makepeace* to reconnect with human society and take to the road, armed with rough humor and an unlikely ration of optimism. What *Makepeace* finds is a world unraveling: stockaded villages enforcing an uncertain justice and hidden work camps laboring to harness the little-understood technologies of a vanished civilization. But *Makepeace's* journey—rife with danger—also leads to an unexpected redemption. *Far North* takes the reader on a quest through an unforgettable arctic landscape, from humanity's origins to its possible end. Haunting, spare, yet stubbornly hopeful, the novel is suffused with an ecstatic awareness of the world's fragility and beauty, and its ability to recover from our worst trespasses.

The stunning story of one of America's great disasters, a preventable tragedy of Gilded Age America, brilliantly told by master historian David McCullough. At the end of the nineteenth century, Johnstown, Pennsylvania, was a booming coal-and-steel town filled with hardworking families striving for a piece of the nation's burgeoning industrial prosperity. In the mountains above Johnstown, an old earth dam had been hastily rebuilt to create a lake for an exclusive summer resort patronized by the tycoons of that same industrial prosperity, among them Andrew Carnegie, Henry Clay Frick, and Andrew Mellon. Despite repeated warnings of possible danger, nothing was done about the dam. Then came May 31, 1889, when the dam burst, sending a wall of water thundering down the mountain, smashing through Johnstown, and killing more than 2,000 people. It was a tragedy that became a national scandal. Graced by David McCullough's remarkable gift for writing richly textured, sympathetic social history, *The Johnstown Flood* is an absorbing, classic portrait of life in nineteenth-century America, of overweening confidence, of energy, and of tragedy. It also offers a powerful historical lesson for our century and all times: the danger of assuming that because people are in positions of responsibility they are necessarily behaving responsibly.

The Song of Kahunsha Saqi

In the six hundredth year of Noah's life, in the second month, the seventeenth day of the month, the same day were all the fountains of the great deep broken up, and the windows of heaven were opened. And the rain was upon the earth forty days and forty nights. The great Biblical flood so described in Genesis has long been a subject of fascination and speculation. In the 19th century the English archbishop James Ussher established it as having happened in the year 2348 B.C., calculating what was then taken as the age of the earth and working backward through the entire series of Biblical "begats." Proof of the flood, which is an element of so many creation myths, began in earnest when archaeology started connecting physical evidence with Biblical story. The dream of proving the Bible as literal truth has proven irresistible, producing both spurious claims and serious scholarship. As best-selling historian Ian Wilson reveals in this fascinating new book, evidence of a catastrophic event has been building steadily, culminating in the work of William Ryan and Walter Pitman. Several years ago Ryan and Pitman had posited that around 5600 BC there had an inundation in the Black Sea of such proportions that it turned the freshwater lake into a saltwater lake by connecting it to the Mediterranean. Were that true, they estimated that there would be signs of civilization 300 feet below the surface of the Black Sea. In September 2000, using his famous underwater equipment, Robert Ballard (of SS Titanic fame) explored parts of the Black Sea near the Turkish shore and found the remains of wood houses. There had been a flood, and whether God's wrath or not it had destroyed everything around it for hundreds of miles, killing tens of thousands of people. Exploring all the archeological evidence, Wilson explains how the Black Sea flood and the Biblical flood have to be connected. In particular, Wilson argues, learnedly and persuasively, that the center of the civilized world was further to the West than previously thought—not in Egypt or Mesopotamia but in what is today Northern Turkey. The earliest, antediluvian civilizations may have migrated east into those places we have come to call the cradles of civilization, forced by the Black Sea flood to create new settlements. Scrupulous in its details and compelling in its sweep, *Before the Flood* is narrative detective history at its most provocative, contributing a vital new chapter to the debate about the Bible and origins of the modern world.
