Teren Adams was everything Emma had ever wanted in a man—kind, caring, loyal, loving, and on occasion, a hopeless romantic. True, he was also a “little bit” vampire, and had recently joined the ranks of the undead, but to Emma, that wasn't important. She was his, he was hers, and she couldn't wait to be his wife, have his children, and stay by his side for as long as her mortal life would allow her to. At least...that was the plan.

Under the Northern Lights Simon and Schuster

The idea was deceptively simple: New York Times bestselling author A.J. Jacobs decided to thank every single person involved in producing his morning cup of coffee. The resulting journey takes him across the globe, transforms his life, and reveals secrets about how gratitude can make us all happier, more generous, and more connected. Author A.J. Jacobs discovers that his coffee—and every other item in our lives—would not be possible without hundreds of people we usually take for granted: farmers, chemists, artists, presidents, truckers, mechanics, biologists, miners, smugglers, and goatherds. By thanking these people face to face, Jacobs finds some much-needed brightness in his life. Gratitude does not come naturally to Jacobs—his disposition is more Larry David than Tom Hanks—but he sets off on the journey on a dare from his son. And by the end, it's clear to him that scientific research on gratitude is true. Gratitude's benefits are legion: It improves compassion, heals your body, and helps battle depression. Jacobs gleans wisdom from vivid characters all over the globe, including the Minnesota miners who extract the iron that makes the steel used in coffee roasters, to the Madison Avenue marketers who captured his wandering attention for a moment, to the farmers in Colombia. Along the way, Jacobs provides wonderful insights and useful tips, from how to focus on the hundreds of things that go right every day instead of the few that go wrong. And how our culture overemphasizes the individual over the team. And how to practice the art of “savoring meditation” and fall asleep at night. Thanks a Thousand

is a reminder of the amazing interconnectedness of our world. It shows us how much we take for granted. It teaches us how gratitude can make our lives happier, kinder, and more impactful. And it will inspire us to follow our own “Gratitude Trails.”

33,000 pages 44 million words 10 billion years of history 1 obsessed man Part memoir and part education (or lack thereof), The Know-It-All chronicles NPR contributor A.J. Jacobs's hilarious, enlightening, and seemingly impossible quest to read the Encyclopaedia Britannica from A to Z. To fill the ever-widening gaps in his Ivy League education, A.J. Jacobs sets for himself the daunting task of reading all thirty-two volumes of the Encyclopaedia Britannica. His wife, Julie, tells him it's a waste of time, his friends believe he is losing his mind, and his father, a brilliant attorney who had once attempted the same feat and quit somewhere around Borneo, is encouraging but, shall we say, unconvinced. With self-deprecating wit and a disarming frankness, The Know-It-All recounts the unexpected and comically disruptive effects Operation Encyclopedia has on every part of Jacobs's life -- from his newly minted marriage to his complicated relationship with his father and the rest of his charmingly eccentric New York family to his day job as an editor at Esquire. Jacobs's project tests the outer limits of his stamina and forces him to explore the real meaning of intelligence as he endeavors to join Mensa, win a spot on Jeopardy!, and absorb 33,000 pages of learning. On his journey he stumbles upon some of the strangest, funniest, and most profound facts about every topic under the sun, all while battling fatigue, ridicule, and the paralyzing fear that attends his first real-life responsibility -- the impending birth of his first child. The Know-It-All is an ingenious, mightily entertaining memoir of one man's intellect, neuroses, and obsessions and a soul-searching, ultimately touching struggle between the all-consuming quest for factual knowledge and the undeniable gift of hard-won wisdom.
