Originally part of The Book of Lismore this ancient Irish epic (which could be called the Tain of Munster) is a marvelous story of magic and fantasy, political influence and vengeance, with a wealth of place-names and curious traditions. The story concerns the march of the high-king Cormac MacAirt, his army and druids from Tara into Munster for the purpose of forcing Fiacha, king of Munster, to pay taxes. A series of encounters take place in which the Munstermen suffer terrible defeats - not through any lack of military ability but through the superior magic of Cormac's druids and druidesses. The situation becomes critical when the druids dry up the wells and Fiacha's men are reduced to shadows of their former selves. At this point Fiacha is obliged to agree to the humiliating conditions imposed by Cormac until the great Munster druid Mogh Roith comes to his aid.

Mixing and mastering are the final challenges in creating great recordings. Great mixes require both creativity and a practical understanding of process, while final masters require both a clear sense for purpose and specialized ears for achieving artistic goals. Mixing and Mastering in the Box gives readers the practical tools for accomplishing both of these tasks while highlighting the artistry of the creative process. While much of the

information presented in Mixing and Mastering in the Box is applicable to those using analog mixing gear, or a hybrid of digital and analog tools, the book focuses directly on working completely within the Digital Audio Workstation (DAW). Author Steve Savage lets readers in on such topics as the secrets of collaboration and using EQ, compression, delay, reverb, and brickwall limiting to improve the sound of records, each topic illustrated with a myriad of concrete examples. Mixing and Mastering in the Box is the ultimate reference manual for the home recordist and the perfect basic to intermediate text for any DAW (Digital Audio Workstation) training class in mixing or mastering. The book is also ideal for readers who handle their own mixing and mastering or who wish - or are professionally required - to be better informed when collaborating on mixes and masters.
