The smartphone was an incredibly successful Canadian invention created by a team of engineers and marketers led by Mike Lazaridis and Jim Balsillie. But there was a third key player involved — the community of Kitchener-Waterloo. In this book Chuck Howitt offers a new history of BlackBerry which documents how the resources and the people of Kitchener-Waterloo supported, facilitated, benefited from and celebrated

the achievement that BlackBerry represents. After its few short years of explosive growth and pre-eminence, BlackBerry lost its market to digital juggernauts Apple, Samsung and Huawei. No surprises there. Like Nokia and Motorola before it, BlackBerry was eclipsed. Shareholders lost billions. Thousands of employees lost jobs. Bankruptcy was avoided but the company's founding geniuses were gone, leaving an operation that today is only a fragment of what had been. For Kitchener-Waterloo — as Chuck Howitt tells the story — the Blackberry experience is a mixed bag of disappointments and major ongoing benefits. The wealth it generated for its

founders produced two very important university research institutes. Many recent digital startups have taken advantage of the city's pool of talented and experienced tech workers and ambitious, well-educated university grads. A strong digital and tech industry thrives today in Kitchener-Waterloo — in a way a legacy of the BlackBerry experience. Across Canada, communities hope for homegrown business successes like BlackBerry. This book underlines how a mid-sized, strong community can help grow a world-beating company, and demonstrates the importance of the attitudes and decisions of local institutions in enabling and sustaining successful

innovation. Canada has a lot to learn from BlackBerry Town. *The Complete Business Directory of Products and Services for the Audio/Video Industry* Walter de Gruyter InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects. [The Complete Business Directory of Products and Services for the Audio/Video Industry](#) John Wiley & Sons Now the diverse world of AV suppliers, products, and services is at your fingertips in one, easy-to-use source: AV Market Place 2006. Fully revised and updated, this time-saving industry "bible" is the

only guide you'll need to find almost 6,500 companies that create, apply, or distribute AV equipment and services for business, education, science, and government. As digital transformation becomes increasingly central to effective corporate strategy, today's students must understand information systems' role as the backbone to all organizations. Known for its rich Canadian content and focus on active learning, Introduction to Information Systems, Fifth Canadian Edition shows students how they can use IS to help their employers

increase profitability, improve customer service, manage daily operations, and drive impact in their markets. The popular What's in IT for Me framework empowers students in accounting, finance, marketing, human resources, production/operations management, and management information systems (MIS) to connect their majors to specific IT topics and demonstrate value in the organizations they join.

Media Design and

Technology for Live

Entertainment is a

guide to understanding

the concepts and

equipment used in

projection and video

design for live

performances. After an

introduction in the

principles of design

elements as well as

information on content,

this book focuses on

how content is used

and transmitted by

describing the essential components of systems, providing definitions used in communicating video concepts, and including basic system troubleshooting tips and tricks. A brief history of projected imagery is included, as well as information on analog systems, as outdated technology continues to be used either by choice of the designer or by necessity due to budget. By providing the information to understand the tools and how to use them, the reader should be able to create their own systems to meet his or her design ideas.

The marketing of library services is an essential agenda item for almost all kinds of libraries all over the world. In this volume 47 experts from 20 countries address the issue through 40 articles. The bundling of dozens of contributions from a truly international group of librarians, presented in this book,

provides a broad spectrum on the topic. This book will thus prove immensely useful, helping both working librarians and future librarians to understand vital issues relating to the marketing of library and information services at the local, national and international level. The book is divided into the following six sections: Marketing concept: a changing perspective; Marketing in libraries around the world; Role of library associations; Education, training and research; Excellence in marketing; Databases and other marketing literature.
