Fully revised and updated, Australian Commercial Law offers a comprehensive, accessible introduction to key aspects of Australian commercial law. Part 1 introduces the fundamentals of contract law and business structures before examining the sale of goods, agency, bailment and personal property. Part 2 covers the Australian Consumer Law, focusing on areas important to commercial entities that interact with consumers. Part 3 examines international commercial law, providing a detailed introduction to the World Trade Organization and to agreements central to trade between countries. The second edition includes: detailed discussion of key concepts in commercial law; four new chapters on contract law basics, business structures, bankruptcy and international commercial law; thorough integration of digital and e-commerce transactions; and end-of-chapter discussion questions designed to test reader knowledge of key points and themes. Written in a clear and concise

style by an expert author team, Australian Commercial Law is an indispensable resource for students seeking a comprehensive understanding of commercial law.

### **The Onion Book of Known**

**Knowledge** Cambridge University Press  
A multi-purpose Bible study resource tool. All the essentials you need to study the biblical text without having to know Hebrew or Greek. Provides definition, explanation, and concordance entries. Dr. James Strong, formerly professor of exegetical theology at Drew Theological Seminary, spent more than thirty-five years preparing his landmark concordance. First published in 1890 with the help of more than one hundred colleagues, Strong's remains the definitive concordance compiled on the King James Version of the Bible. W. E. Vine, M.A. (1873-1949) was a classical scholar, skilled expositor, and a trustworthy theologian. Recognized internationally for his outstanding Greek scholarship, his Expository Dictionary of New Testament Words, first published in 1939, represents the fruit of his lifetime labors and is an unsurpassed classic in its field.

There is growing interest in the use of Neuro Linguistic Programming (NLP) as a Qualitative Market Research technique. NLP was previously used in psychology to understand how people think and react, and as a tool in self-development, interpersonal skills and business, looking at how our brains think and experience the world. Qualitative Market research experts now see that using NLP can help the researchers understand the human brain and, armed with this power, they can find out the truth from interviewees. The Hidden Art of Interviewing People shows how, by using NLP and related techniques in interviews, the market researcher can see beyond the obvious to the truth.

Are you a witless cretin with no reason to live? Would you like to know more about every piece of knowledge ever? Do you have cash? Then congratulations, because just in time for the death of the print industry as we know it comes the final book ever published, and the only one you will ever need: The Onion's compendium of all things known. Replete with an astonishing assemblage of facts, illustrations, maps, charts, threats, blood, and additional fees to edify even the most simple-minded book-buyer, THE ONION BOOK OF KNOWN KNOWLEDGE is packed with valuable information-such as the life stages of an Aunt; places to kill one's self in Utica, New York; and the dimensions of a female bucket, or "pail." With hundreds of entries for all 27 letters of the alphabet, THE ONION BOOK OF KNOWN KNOWLEDGE must be purchased immediately to avoid the sting of eternal ignorance.

**Smart Plant Factory** Little, Brown

This book describes the concept, characteristics, methodology, design, management, business, recent advances and future technologies of plant factories with artificial lighting (PFAL) and indoor vertical farms. The third wave of PFAL business started in around 2010 in Japan and Taiwan, and in USA and Europe it began in about 2013 after the rapid advances in LED technology. The book discusses the basic and advanced developments in recent PFALs and future smart PFALs that emerged in 2016. There is an emerging interest around the globe in smart PFAL R&D and business, which are expected to play an important role in urban agriculture in the coming decades. It is also expected that they will contribute to solving the trilemma of food, environment and natural resources with increasing urban populations and decreasing agricultural populations and arable land area. Current obstacles to successful PFAL R&D and business are: 1) no well-accepted concepts and methodology for PFAL design and management, 2) lack of understanding of the environmental effects on plant growth and development and hydroponics among engineers; 3) lack of understanding of the technical and engineering aspects of PFAL among horticulturists; 4) lack of knowledge of the technical challenges and opportunities in future PFAL businesses among business professionals, policy makers, and investors and 5) lack of a suitable textbook on the recent

advances in PFAL technologies and business for graduate students and young researchers. This book covers all the aspects of successful smart PFAL R & D and business.
