At Night All Blood Is Black McGraw Hill Professional

How do you give your brand a competitive edge in a 'me-too' situation? How do you differentiate your brand and give it a distinctive identity? How, in short, do you secure competitive advantage for your brand? Especially in a 'mine-too' situation. The author answers all these questions and more, by discussing the concepts and principles involved in developing sound positioning strategy. He brings into focus its practice and applications with cases and examples from the Indian market. A large number of packaged goods, as well as some widely used durables such as two-wheelers, TV sets, etc. have been analysed. The second edition has new chapters on positioning of services and celebrity endorsements. Also new cases and examples have been included. With this coverage, the book will help markets and advertisers create sound positioning strategies for their brands.

Differentiate or Die McGraw Hill Professional

Pork dorks. Craftsters. American Girl fans. Despite their different tastes, these eclectic diehards have a lot in common: they're obsessed about a specific brand, product, or category. They pursue their passions with fervor, and they're extremely knowledgeable about the things they love. They aren't average consumers—they're superconsumers. Although small in number, superconsumers can have an outsized impact on a company's bottom line. Representing 10% of total consumers, they can drive between 30% to 70% of sales, and they're usually willing to spend considerably more than the average consumer. And because they're so engaged and passionate, they can offer invaluable advice to managers looking to improve their products, change their business models, energize their cultures, and attract new customers. In Superconsumers, growth strategy expert Eddie Yoon lays out a simple but extremely effective framework that has helped companies of all types and sizes achieve more sustainable growth: he'll show you how to find, listen to, and engage with your most passionate and profitable consumers, and then tailor your decisions to meet their wants and needs. Along the way, he'll let you into the minds and homes of superconsumers of all kinds, revealing what makes them tick and why they're willing to spend so much more than other consumers. Rich with data and case studies of companies that have implemented superconsumer strategies with great success, Superconsumers is a fun, practical, and inspiring guide for anyone interested in making

their best customers even better.

Survival in Our Era of Killer Competition Farrar, Straus and Giroux

Content, in all its forms, is the single most critical element of any marketing campaign. Finding a successful equilibrium between content marketing and content strategy is difficult, but essential. Content - The Atomic Particle of Marketing goes beyond superficial descriptions of how to produce engaging social media content to offer the results of many years of deep quantitative research, and hours of interviews with senior marketers at some of the world's leading brands. Written by a recognised industry thought-leader, Content - The Atomic Particle of Marketing explores how content functions in the broader framework of all marketing, as well as organizational concerns and IT decision making. It demonstrates the value content brings not only to "owned" media initiatives, such as a company website or blog, but also the essential role content plays in all other marketing initiatives, from social media to advertising to offline channels. It will enable readers to make the organizational, staffing, tools and process decisions necessary to get content up and running across divisions and organizational silos. Deeply researched and insightful, Content - The Atomic Particle of Marketing is, quite simply, the definitive research-based guide to content marketing.

Kellogg on Branding in a Hyper-Connected World Harvard Business Press

In the same right-to-the-point, no-nonsense style that was a hallmark of Positioning, this sequel squares off against critical marketing challenges such as how to make sure your message gets through in an era of information overload.

Survival in Our Era of Killer Competition Tata McGraw-Hill Education

Offers revised thinking on management practice, emphasizing tactics, rather than arbitrary decision making, to guide strategy, and contains step-by-step procedures for a marketing campaign

Nail Your Brand Into the Mind with the Emotional Power of a Visual Ambient Press

Most anti-smoking campaigns inadvertently encourage people to smoke. The scent of melons helps sell electronic products. Subliminal advertising may have been banned, but it's being used all the time. Product placement in films rarely works. Many multi-million pound advertising campaigns are a complete waste of time. These are just a few of the findings of Martin Lindstrom's groundbreaking study of what really makes consumers tick. Convinced that there is a gulf between what we believe influences us and what actually does, he set up a highly ambitious research project that employed the very latest in brain-scanning technology and called on the services of some 2000 volunteers.

Buyology shares the fruits of this research, revealing for the first time what actually goes on inside our heads when we see an advertisement, hear a marketing slogan, taste two rival brands of drink, or watch a programme sponsored by a major company. The conclusions are both startling and groundbreaking, showing the extent to which we deceive ourselves when we think we are making considered decisions, and revealing factors as varied as childhood memories and religious belief that come together to influence our decisions and shape our tastes.

Positioning for Advantage Columbia University Press

The author of *Positioning and Marketing Warfare* summarizes his key ideas about marketing strategy in an accessible format, discussing the ways in which "positioning" is an essential concept in marketing.

The Future of Your Company Depends on It John Wiley & Sons

WINNER OF THE 2021 INTERNATIONAL BOOKER PRIZE *A BARACK OBAMA SUMMER READING LIST SELECTION* Winner of the Los Angeles Times Book Prize for fiction "Astonishingly good." —Lily Meyer, NPR "So incantatory and visceral I don't think I'll ever forget it." —Ali Smith, *The Guardian* | Best Books of 2020 One of *The Wall Street Journal's* 11 best books of the fall | One of *The A.V. Club's* fifteen best books of 2020 | *A Sunday Times* best book of the year Selected by students across France to win the Prix Goncourt des Lycéens, David Diop's English-language, historical fiction debut *At Night All Blood is Black* is a "powerful, hypnotic, and dark novel" (*Livres Hebdo*) of terror and transformation in the trenches of the First World War. Alfa Ndiaye is a Senegalese man who, never before having left his village, finds himself fighting as a so-called "Chocolat" soldier with the French army during World War I. When his friend Mademba Diop, in the same regiment, is seriously injured in battle, Diop begs Alfa to kill him and spare him the pain of a long and agonizing death in No Man's Land. Unable to commit this mercy killing, madness creeps into Alfa's mind as he comes to see this refusal as a cruel moment of cowardice. Anxious to avenge the death of his friend and find forgiveness for himself, he begins a macabre ritual: every night he sneaks across enemy lines to find and murder a blue-eyed German soldier, and every night he returns to base, unharmed, with the German's severed hand. At first his comrades look at Alfa's deeds with admiration, but soon rumors begin to circulate that this super soldier isn't a hero, but a sorcerer, a soul-eater. Plans are hatched to get Alfa away from the front, and to separate him from his growing collection of hands, but how does one reason with a demon, and how far will Alfa go to make amends to his dead friend? Peppered with bullets and black magic, this remarkable novel fills in a forgotten chapter in the history of World War I. Blending oral storytelling traditions with the gritty, day-to-day, journalistic horror of life in the trenches, David Diop's *At Night All Blood is Black* is a dazzling tale of a man's descent into madness.

A Simple, Speedy, and Sustainable Path to Superior Growth Ries' Pieces Publishing

"A business book with a difference: clear-cut advice, sharp writing and a minimum of jargon." *Newsweek* "Revolutionary! Surprising!" *Business Week* "Chock-a-block with examples of successful and failed marketing campaigns, makes for a very interesting and relevant read." *USA Today*

An Inside-Out Approach Ries' Pieces Publishing

Most of us have an intuitive sense of superior branding. We prefer to purchase brands we find

distinctive—that deliver on some important, relevant dimension better than other brands. These brands have typically achieved positional advantage. Yet few professionals have had the formal training that goes beyond marketing theory to bridge the "theory-doing gap"—understanding the specific techniques and strategies that can be used to create brands that attain positional advantage in the marketplace. *Positioning for Advantage* is a comprehensive how-to guide for creating, building, and executing effective brand strategies. Kimberly A. Whitler identifies essential marketing strategy techniques and moves through the major stages of positioning a brand to achieve in-market advantage. Introducing seven tools—from strategic positioning concepts to strategy mapping to influencer maps—Whitler provides templates, frameworks, and step-by-step processes to build and manage growth brands that achieve positional advantage. This book presents real-world scenarios, helping readers activate tools to increase skill in creating brands that achieve positional advantage. Brimming with insights for students and professionals alike, *Positioning for Advantage* helps aspiring C-level leaders understand not only what superior branding looks like but also how to make it come to life.

The Definitive Guide to Content Marketing Strategy John Wiley & Sons

Who do you want your customers to become? According to MIT innovation expert and thought leader Michael Schrage, if you aren't asking this question, your strategic marketing and innovation efforts will fail. In this latest HBR Single, Schrage provides a powerful new lens for getting more value out of innovation investment. He argues that asking customers to do something different doesn't go far enough—serious marketers and innovators must ask them to become something different instead. Even more, you must invest in their capabilities and competencies to help them become better customers. Schrage's primary insight is that innovation is an investment in your client, not just a transaction with them. To truly innovate today, designing new products or features or services won't get you there. Only by designing new customers—thinking of their future state, being the conduit to their evolution—will you transform your business. Schrage explains how the above question (what he calls "The Ask") will incite you and your team to imagine and design ideal customer outcomes as the way to drive your business's future. The Single is organized around six key insights and includes practical exercises to help you apply the question to your current situation. Schrage also includes examples from well-known companies—Google, Facebook, Disney, Starbucks, Apple, IKEA, Dyson, Ryanair, and others—to illustrate just what is possible when you apply "The Ask." Marketing executives, brand managers, strategic innovators, and entrepreneurs alike should understand how successful innovation rebrands the client and not the product. A requisite question for its time, *Who Do You Want Your Customers To Become* will liberate you and your team from 'innovation myopia'—and turn your innovation efforts on their head. HBR Singles provide brief yet potent business ideas, in digital form, for today's thinking professional.

The Origin of Brands Random House

World-class branding for the interconnected modern marketplace Kellogg on *Branding in a Hyper-Connected World* offers authoritative guidance on building new brands, revitalizing existing brands, and managing brand portfolios in the rapidly-evolving modern marketplace. Superconsumers Simon and Schuster

Ries and Trout share their rules for certain successes in the world of marketing. Combining a wide-ranging historical overview with a keen eye for the future, the authors bring to light 22 superlative tools and innovative techniques for the international marketplace.

A Genie's Wisdom Greenleaf Book Group

A newly revised and expanded edition of the revolutionary business classic, Differentiate or Die, Second Edition shows you how to differentiate your products, services, and business in order to dominate the competition. Veteran marketing guru Jack Trout uses real-world examples and his own unique insight to show you how to bind customers to your products for long-term success and loyalty. This edition includes new case studies, new research, and updated examples from around the world.

Marketing Warfare SAGE

In our hyper-connected world that is changing at warp speed, marketers recognize the need to shift from traditional marketing methods to a new way that can help them better navigate the unpredictable environment. For traditionalists, this change has posed a challenge. Many have tried to incorporate new approaches into the old models they grew up with, only to be frustrated with the results. From the bestselling authors of The Social Employee, and LinkedIn Learning course authors, comes a powerful new textbook that cracks the marketing code in our hyper-focused digital age. The New Marketing, with contributions spanning CMO trailblazers to martech disruptors, behavioral economics luminaries at Yale to leading marketing thinkers at Kellogg and Wharton, is a GPS for navigating in a digital world and moves the craft of marketing through the forces of marketing transformation. We can't predict the future. But our goal is to help make Masters/MBA students and marketing practitioners future-ready and successful.

How to Win in the Digital Age McGraw Hill Professional

It shook up the world of marketing with all the force of a 20-megaton bomb, and now, two decades later, Positioning is still as fresh and, perhaps, even more relevant, for advertisers in the New Economy. To commemorate the 20th anniversary of the classic book that changed an industry, McGraw-Hill has reunited mavens of marketing Al Ries and Jack Trout to make available to another generation of advertisers the book that forever changed the way advertising is done. The 20th Anniversary Edition features commentary from the authors that offers fresh insight into why positioning a product in a prospective customer's mind is still the most important strategy in business. Ries and Trout look back over two decades of campaigns, offering penetrating analyses of some of the most phenomenal successes and unbelievable failures in advertising history. The first book to deal with the problems of communicating to a skeptical, over-communicated public, Positioning describes a revolutionary approach to creating a position in a prospective customer's mind that reflects a company's own strengths and weaknesses as well as those of its competitors. Writing in their trademark witty, fast-paced style, Ries and Trout explain how to position an industry leader so that it gets into people's minds and stays there, how to position a follower so that it can occupy a space not claimed by the leader, and how to avoid letting a second product ride on the coattails of an established one.

REPOSITIONING: Marketing in an Era of Competition, Change and Crisis Kogan Page Publishers

Positioning is hot. Not only in the realm of consumer goods manufacturers, but also for other companies, institutions, governments and even individual persons. An explosion of good quality products on the market and targeted media and advertising campaigns has led to an increasing interest from organizations as to how to strategically position their brand. Up to now, only a few books on positioning were published. Positioning the Brand picks up the gauntlet with an approach based on two fundamental choices: Firstly, the book was written from the perspective of the brand manager, and has therefore been shaped as a practical roadmap. Secondly, this book advocates a new stance on positioning, teaching the reader to look from the inside-out, instead of adopting the usual outside-in methodology. This inside-out approach departs from an analysis of the corporate identity, enabling better fulfilment of external positioning, and ensuring internal support. This book is intended for (future) managers, marketing professionals and communication professionals responsible for the commercial success and reputation of a brand. The contents have a practical set-up, reinforced by engaging examples, and enable the reader to individually complete a positioning process.

Buyology Positioning: The Battle for Your Mind

Paperback version of Visual Hammer by Laura Ries.

Penguin

You know your product is awesome-but does anybody else? Successfully connecting your product with consumers isn't a matter of following trends, comparing yourself to the competition or trying to attract the widest customer base. So what is it? April Dunford, positioning guru and tech exec, is here to enlighten you.

Content - The Atomic Particle of Marketing McGraw Hill Professional

What's the secret to a company's continued growth and prosperity? Internationally known marketing

expert Al Ries has the answer: focus. His commonsense approach to business management is founded on the premise that long-lasting success depends on focusing on core products and eschewing the temptation to diversify into unrelated enterprises. Using real-world examples, Ries shows that in industry after industry, it is the companies that resist diversification, and focus instead

on owning a category in consumers' minds, that dominate their markets. He offers solid guidance on how to get focused and how to stay focused, laying out a workable blueprint for any company's evolution that will increase market share and shareholder value while ensuring future success.
