In *Ordering Violence*, Paul Staniland advances a broad approach to armed politics—bringing together governments, insurgents, militias, and armed political parties in a shared framework—to argue that governments' perception of the ideological threats posed by armed groups drive their responses and interactions. Staniland combines a unique new dataset of state-group armed orders in India, Pakistan, Burma/Myanmar, and Sri Lanka with detailed case studies from the region to explore when and how this model of threat perception provides insight into patterns of repression, collusion, and mutual neglect across nearly seven decades. Instead of straightforwardly responding to the material or organizational power of armed groups, Staniland finds, regimes assess how a group's politics align with their own ideological projects. Explaining, for example, why governments often use extreme repression against weak groups even while working with or tolerating more powerful armed actors, *Ordering Violence* provides a comprehensive overview of South Asia's complex armed politics, embedded within an analytical framework that can also speak broadly beyond the subcontinent.

In a consumer society mostly based on capitalistic economic principles, Biblical Economics can easily take backstage, or seem obsolete altogether. Yet, according to Scriptures, Biblical Economics predates our global economy. The author is a theologian and not an economist. He carefully approaches this

sensitive, yet vital topic, as seen in the Word of God. Dispelling popular beliefs and understandings, he carefully dissects divine principles, with an underlying message - a devotional relationship with Jesus. Thus, this book is intended to bring us back to the heart of Biblical Economics, which is all about a devotional relationship with God - not rewards.

Potent, provocative and sometimes shocking, the word vulgar conjures up strong images, ideas and feelings in us all. The *Vulgar* is the first exhibition to explore the inherently challenging but utterly compelling territory of taste in fashion, from the renaissance through to contemporary design. Examining the constantly evolving notion of vulgarity in fashion whilst revelling in its excesses, you are invited to think again about exactly what makes something vulgar and why it is such a sensitive and contested term. Drawn from major public and private collections worldwide, this richly illustrated volume showcases over 120 stunning objects, ranging from historical costumes to couture and ready-to-wear looks. With contributions from leading contemporary designers including Chloé, Christian Dior, Christian Lacroix, Miuccia Prada, Elsa Schiaparelli, Philip Treacy, Viktor & Rolf, Louis Vuitton and Vivienne Westwood. This book contains fascinating literary definitions by curator Judith Clark (Professor of Fashion and Museology, University of the Arts, London), and psychoanalyst and writer Adam Phillips, alongside interviews with several leading contemporary designers. Taking the definitions as a starting point, more than 200 stunning images are also included - weaving together historic dress, haute couture and ready-to-wear fashion, textile ornamentation, manuscripts and photography. Published on the occasion of the exhibition, *The Vulgar: Fashion Redefined* at the Barbican Centre, London (13

October 2016 - 15 February 2017).
