LANE HOLMES

Oxford Textbook of Correctional Psychiatry DIANE Publishing
After decades of stability from the 1920s to the early 1970s, the rate of imprisonment in the United States has increased fivefold during the last four decades. The U.S. penal population of 2.2 million adults is by far the largest in the world. Just under one-quarter of the world's prisoners are held in American prisons. The U.S. rate of incarceration, with nearly 1 out of every 100 adults in prison or jail, is 5 to 10 times higher than the rates in Western Europe and other democracies. The U.S. prison population is largely drawn from the most disadvantaged part of the nation's population: mostly men under age 40, disproportionately minority, and poorly educated. Prisoners often carry additional deficits of drug and alcohol addictions, mental and physical illnesses, and lack of work preparation or experience. The growth of incarceration in the United States during four decades has prompted numerous critiques and a growing body of scientific knowledge about what prompted the rise and what its consequences have been for the people imprisoned, their families and communities, and for U.S. society. The Growth of Incarceration in the United States examines research and analysis of the dramatic rise of incarceration rates and its affects. This study makes the case that the United States has gone far past the point where the numbers of people in prison can be justified by social benefits and has reached a level where these high rates of incarceration themselves constitute a source of injustice and social harm. The Growth of Incarceration in the United States examines policy changes that created an increasingly punitive political climate and offers specific policy advice in sentencing policy, prison policy, and social policy. The report also identifies important research questions that must be answered to provide a firmer basis for policy. This report is a call for change in the way society views criminals, punishment, and prison. This landmark study assesses the evidence and its implications for public policy to inform an extensive and thoughtful public debate about and reconsideration of policies.

Sourcebook of Criminal Justice Statistics Oxford University Press

This student-friendly introductory core text describes the criminal justice process in the United States — outlining the decisions, practices, people and issues involved. It provides a solid introduction to the mechanisms of the criminal justice system, with balanced coverage of the issues presented by each facet of the process, including a thorough review of practices and controversies in law enforcement, the criminal courts and corrections. Each chapter is enhanced by important terms, boxes, photos, and review questions. Includes a glossary.

Sexual Victimization in Prisons and Jails Reported by Inmates, 2009-09 Routledge

The Federal Bureau of Prisons (BOP), the component of the Department of Justice (DOJ) responsible for incarcerating all federal defendants sentenced to prison, was operating at 20% over its rated capacity as of December 2015. To alleviate overcrowding, in 1997 the BOP had begun contracting with privately operated institutions (contract prisons), to confine federal inmates who are primarily low security, criminal alien adult males with 90 months or less remaining to serve on their sentences. This report examined how the BOP monitors these facilities and assessed whether contractor performance meets certain inmate safety and security requirements. It found that, in most key areas, contract prisons incurred more safety and security incidents per capita than comparable BOP institutions and that the BOP needs to improve how it monitors contract prisons. Figures. This is a print on demand report.

Census Catalog and Guide University of North Texas Press
Brings together in one source information on the criminal justice system and the criminal justice research and analysis activities of each State. Covers: state justice system overview; law enforcement; prosecution and defense; victims' rights and assistance; adjudication; corrections; statutory provisions and more. Also includes a state-by-state discussion of the missions and goals of the State Statistical Analysis Centers, and a state-by-state directory of criminal justice issues and research in the States. Comprehensive!

Special Report Routledge

This study investigated relationships of locus of control and anxiety, with autogenic training, biofeedback, and guided imagery

in a female prison population. It was hypothesized that training in these treatment modalities would increase internal locus of control and decrease state anxiety. Also hypothesized was the need for psychotropic medication would decrease, as would Institutional incident reports. The sample consisted of 86 female inmates from the Federal Correctional Institution in Pleasanton, California. The treatment program was conducted twice. In each running four groups formed: autogenic training, biofeedback, guided imagery, and control. Treatment subjects received eight weekly 60-minute sessions with the treatment modality of their group. All groups were administered Levenson's "IPC Scale" (1981) for locus of control scores, Spielberg's "State-Trait Anxiety Inventory" (1968), and a self-report questionnaire. Instruments were administered as a pretest, a posttest, and a second posttest eight weeks later. Treatment modalities were found to have an effect on locus of control and anxiety level of subjects. Also effected was the perceived health of each individual. It appears that biofeedback, followed by guided imagery, is the more effective treatment. Autogenic training appears to have had little effect in this study. Biofeedback groups had a reduction of both state and trait anxiety. Increase in "Internal" locus of control and decrease in "Powerful Others" during treatment was seen. "Chance" scores increased after treatment. Physical health symptoms decreased. The degree treatment helped these symptoms was significant. Guided imagery groups had a reduction in state and trait anxiety. "Powerful Others" orientation decreased during treatment. The degree of stress and stress related problems decreased with treatment. Increased internal locus of control was found to a significant degree in only the biofeedback group during treatment. Inconclusive results were found with incident reports and administration of psychotropic medication as insignificant numbers of the sampling received either. This study found that biofeedback and guided imagery as treatment methods have positive effects on female inmates. Continuing treatments alone could benefit the population. Effects of combining treatments may be even more pronounced. Research in combining treatment modalities is called for.

Routledge

The SAGE Guide to Writing in Corrections equips students with transferable writing skills that can be applied across the field of corrections—both academically and professionally. Authors Steven Hougland and Jennifer M. Allen interweave professional and applied writing, academic writing, and information literacy, with the result being a stronger, more confident writer in their classes and in the field.

Addressing Correctional Officer Stress Springer

Michael Singer explores the empirical, legal, and socio-cultural factors of rape in prison.

A Guide to Sources of Texas Criminal Justice Statistics Greenwood Publishing Group

Criminal Justice Report Writing offers both recruits and experienced officers a wealth of information about report writing. A pre-test and post-test help you assess your strengths and determine which skills need your attention. Topics include organizing and writing reports, bullet style, reviewing sentence skills, avoiding usage errors, and applying the specialized vocabulary needed for report writing. Sample reports are included. Exercises are provided throughout the book, and an Answer Key allows you to check your progress at each step.

Prison Shakespeare Routledge

This book explores the development of the global phenomenon of Prison Shakespeare, from its emergence in the 1980s to the present day. It provides a succinct history of the phenomenon and its spread before going on to explore one case study the Queensland Shakespeare Ensemble's (Australia) Shakespeare Prison Project in detail. The book then analyses the phenomenon from a number of perspectives, and evaluates a number of claims made about the outcomes of such programs, particularly as they relate to offender health and behaviour. Unlike previous works on the topic, which are largely individual case studies, this book focuses not only on Prison Shakespeare's impact on the prisoners who directly participate, but also on prison culture and on broader social attitudes towards both prisoners and Shakespeare.

Prison Rule Violators IGI Global

Risk Markers for Sexual Victimization and Predation in Prison contains the results of Dr. Warren and Dr. Jackson's study in response to the 2003 Prison Rape Elimination Act and extends the literature on prison rape in important and distinct ways.

Living Inside Prison Walls National Academies Press

Drawing on a range of research and media sources to provide an international perspective on the topic of prison violence, this book focuses on the impact of such violence on the individual both while he or she is incarcerated and upon his or her release from prison, as well as on society as a whole. With a special emphasis on comparisons of violence among incarcerated populations in the United States, Canada and the United Kingdom, *Prison Violence: Causes, Consequences and Solutions* explores the various systems that exist to combat the problem, whilst also considering public perceptions of offenders and punishment, as influenced by media and coverage of high-profile cases. Providing a comprehensive analysis of prison violence on national and international levels, this book examines the extent of the problem, theoretical understandings of the issue and concrete solutions designed to prevent and handle such violence. As such, it will be of interest to policy makers as well as scholars of sociology, criminology and penology.

The Criminal Justice Report Writing Guide for Officers Ashgate Publishing, Ltd.

Are advantaged offenders defenseless against the harshness of prison life? Based upon a qualitative study of the prison adjustment of educated, high status advantaged offenders, this book concludes that these offenders adjust well to incarceration. *Report Writing for Criminal Justice Professionals Living Inside Prison Walls*

The Routledge International Handbook of Race, Class, and Gender chronicles the development, growth, history, impact, and future direction of race, gender, and class studies from a multidisciplinary perspective. The research in this subfield has been wide-ranging, including works in sociology, gender studies, anthropology, political science, social policy, history, and public health. As a result, the interdisciplinary nature of race, gender, and class and its ability to reach a large audience has been part of its appeal. The Handbook provides clear and informative essays by experts from a variety of disciplines, addressing the diverse and broad-based impact of race, gender, and class studies. The Handbook is aimed at undergraduate and graduate students who are looking for a basic history, overview of key themes, and future directions for the study of the intersection of race, class, and gender. Scholars new to the area will also find the Handbook's approach useful. The areas covered and the accompanying references will provide readers with extensive opportunities to engage in future research in the area.

Model Rules of Professional Conduct ABC-CLIO

This is a print on demand edition of a hard to find publication. Presents the annual estimates of rates and levels of violent crime (rape or sexual assault, robbery, aggravated assault, and simple assault), property crime (burglary, motor vehicle theft, and property theft), and personal theft (pocket picking and purse snatching). It describes the year-to-year change from 2008 and trends for the 10-year period from 2000 through 2009. The Nat. Criminal Victimization Survey collects information on non-fatal crimes, reported and not reported to the police, against persons age 12 or older from a nationally representative sample of U.S. households. This report also includes data on the characteristics of victims of crime; estimates of intimate partner violence; and use of firearms and other weapons during the crime. Illustrations. *Risk Markers for Sexual Victimization and Predation in Prison*

American Bar Association

Legal Nurse Consulting Principles and Practices, Fourth Edition, provides foundational knowledge on the specialty nursing practice of legal nurse consulting. Legal nurse consulting is defined, and essential information about the practice is discussed (history, certification, scope and standards of practice, and ethical and liability considerations). The essentials of the law and medical records are explored. Analysis of the various types of legal cases on which legal nurse consultants work is provided, as are other practice areas for legal nurse consultants. The various roles and skills of legal nurse consultants are explored, and the textbook concludes with discussion of the ways in which legal cases are adjudicated. This volume allows nurses to bridge the gap from their clinical experience to the unfamiliar territory of the legal world, with practical advice on topics including tactics for being cross-examined in the courtroom and investigative and analytical techniques for medical records. Individual chapters by subject-matter experts focus on the full range of legal, medical, and business issues that new or experienced legal nurse consultants and nurse experts will encounter in their work. A nuanced look at the realities and complexities of toxic torts, medical malpractice cases, civil rights in correctional healthcare, ERISA and HMO

litigation, and other practice areas is offered. Suitable for experienced nurses studying for certification as legal nurse consultants, and for expert witnesses, practitioners seeking to expand their current legal nurse roles, and other healthcare and legal practitioners.

Invisible Victims and the Pursuit of Justice: Analyzing Frequently Victimized Yet Rarely Discussed Populations
Routledge

This reference work was compiled as a resource for those needing assistance in locating Texas criminal justice statistics. R. Scott Harnsberger has compiled more than 600 entries describing statistical sources for Texas crime; criminals; law enforcement; courts and sentencing; adult and juvenile corrections; capital punishment and death row; victims of crime; driving/boating under the influence; traffic fatalities; substance abuse and treatment; polls and rankings; and fiscal topics such as appropriations, revenues, expenditures, and federal aid. The sources for these statistics originate primarily, but not exclusively, from federal and State of Texas agencies, boards, bureaus, commissions, and departments. The following types of publications are included: annual, biennial, and biannual reports; reports issued in series; analytic and research reports; statistical compilations; budgets and other fiscal documents; audits, inspections, and investigations; census publications; polls;

projections; rankings; surveys; continuously updated online resources; and datasets. Harnsberger has annotated the entries to provide sufficient detail to enable users to decide whether the listed resources merit further investigation. Additional notes contain URLs and information regarding the scope of the published data; title changes; related publications; and the availability of earlier data, previous editions, online tables, and datasets. This book will prove to be a valuable resource for students, faculty, researchers, government officials, and individuals in the law enforcement, correctional, and judicial professions.

Routledge International Handbook of Race, Class, and Gender
Routledge

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review

those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The Redesigned National Crime Survey DIANE Publishing

The criminal justice process is dependent on accurate documentation. Criminal justice professionals can spend 50-75% of their time writing administrative and research reports. Report Writing for Criminal Justice Professionals, Fifth Edition provides practical guidance--with specific writing samples and guidelines--for providing strong reports. Much of the legal process depends on careful documentation and the crucial information that lies within, but most law enforcement, security, corrections, and probation and parole officers have not had adequate training in how to provide well-written, accurate, brief, and complete reports. Report Writing for Criminal Justice Professionals covers everything officers need to learn--from basic English grammar to the difficult but often-ignored problem of creating documentation that will hold up in court. This new edition is updated to include timely information, including extensive coverage of digital reporting, updates on legal issues and privacy rights, and expanded coverage of forensics and scientific reporting.

Federal Probation DIANE Publishing

Topics covered include interpersonal violence, sexual violence, staff violence, rape.
