Stein Smith wanted to be
a journalist ever since he

was a child. He nursed the idea of going to the university to study journalism, but after high school the death of his father put an end to that dream. He was forced to work to support the family. He started writing articles for a local newspaper and eventually gained full employment status with The Silent Voices. His articles, which were too critical of the corrupt regime, soon landed him into trouble. After threats and beatings, he was forced to go into hiding because he

dared to attack the head of state himself in one of his articles. On his first attempt to leave the country, he gets across the border into Equatorial Guinea only to realize that his photo is pasted on the door of the Immigration office. He is forced to run back into his homeland where there is a serious man hunt for him with his next target being the Nigerian border found on the other end of the country. With the numerous police checkpoints along the way, would he finally

make it there?

Corporate Governance in Lithuania

International Labour Organization

This review assesses Lithuania's corporate governance arrangements for listed companies and state-owned enterprises against the standards of the G20/OECD Principles of Corporate Governance and the OECD Guidelines on Corporate Governance of State-Owned Enterprises.

Violence at Work

OECD Publishing

This publication examines

the contribution of MENA SOEs to industrial development, diversification, poverty elimination and the provision of goods and services to the public, and provides an overview of the diverse mandates and roles of MENA SOEs.

The Origins of Comics

Cambridge University Press

Bribery by international firms in OECD countries is more pervasive in public procurement than in the utilities, taxation or judicial sectors. Whilst most international efforts

to fight corruption have focused exclusively on the bidding process, recent corruption scandals have highlighted grey areas throughout the whole public procurement cycle, including in needs assessment and contract management. This publication draws on the experience of procurement practitioners as well as audit, competition and anti-corruption specialists, and sets out a comparative overview of practices designed to enhance integrity throughout the

whole procurement cycle, with examples from OECD and non-OECD countries. *Arabian Oil Ventures* Cambridge University Press

One case of transnational corruption out of five occurs in the extractive sector according to the 2014 OECD Foreign Bribery Report. In this area, corruption has become increasingly complex and sophisticated affecting each stage of the extractive value chain with potential huge revenue losses for the

public coffers. This report is intended to help policy makers, law enforcement officials and stakeholders strengthen prevention efforts at both the public and private levels, through improved understanding and enhanced awareness of corruption risk and mechanisms. It will help better tailoring responses to evolving corruption patterns and effectively countering adaptive strategies. The report also offers options to put a cost on corruption to make it less attractive at

both the public and private levels.

Corporate Governance of State-Owned Enterprises A Survey of OECD Countries Harvard University Press

In *The Origins of Comics: From William Hogarth to Winsor McCay*, Thierry Smolderen presents a cultural landscape whose narrative differs in many ways from those presented by other historians of the comic strip. Rather than beginning his inquiry with the popularly accepted "sequential art" definition

of the comic strip, Smolderen instead wishes to engage with the historical dimensions that inform that definition. His goal is to understand the processes that led to the twentieth-century comic strip, the highly recognizable species of picture stories that he sees crystallizing around 1900 in the United States. Featuring close readings of the picture stories, caricatures, and humoristic illustrations of William Hogarth, Rodolphe Töpffer, Gustave Doré, and their

many contemporaries, Smolderen establishes how these artists were immersed in a very old visual culture in which images--satirical images in particular--were deciphered in a way that was often described as hieroglyphical. Across eight chapters, he acutely points out how the effect of the printing press and the mass advent of audiovisual technologies (photography, audio recording, and cinema) at the end of the nineteenth century led to a new twentieth-century visual

culture. In tracing this evolution, Smolderen distinguishes himself from other comics historians by following a methodology that explains the present state of the form of comics on the basis of its history, rather than presenting the history of the form on the basis of its present state. This study remaps the history of this influential art form. *Oil, Power, and War* OECD Publishing Technology and Ethics. A European Quest for Responsible Engineering, edited by B. Heriard

Dubreuil and his team (University Lille) is in many regards an innovative publication. It is the first fully European contribution to the field of engineering ethics and the result of an intensive cooperation between ethicists and engineers from all the member countries of the European Union. The basic structure of the book is both the distinction and interaction between three levels of analysis: personal responsibility of engineers, the institutional level

(business organisations) and the impact of technology on society and culture. On the personal level, the book deals with problems such as the role of professional codes and the fact that engineers must cope with flexibility, shorter lines of decision and erosion of the boundaries between private and professional life. On the meso level, the book deals with different aspects of decision making in the context of business organizations, such as quality management,

technology assessment procedures, business ethics committees etc... On the macro level, the authors focus on the power of technology. Together with the influences from other social, economic and political actors, the decisions of engineers change the world in a way which is of moral significance.

Bibliography of Art and Architecture in the Islamic World (2 vols.)

OECD

"Talent management could very soon replace

traditional Human Resource management within companies. This book explores this new concept and questions the progressive drift from one notion to the other. Talent is a unique combination of various outstanding skills. Companies are doing their best to attract, retain and make talents effective in the turbulent context of business in a global economy. After exploring what talent management concretely means in terms of policies and practice, the HR professional and the

scholar will have clear picture of the potential opportunities and limits of talent management."-- Publisher.

Economic Intelligence

Chelsea Green Publishing
Violence at work, ranging from bullying and mobbing, to threats by psychologically unstable co-workers, sexual harassment and homicide, is increasing worldwide and has reached epidemic levels in some countries. This updated and revised edition looks at the full range of aggressive acts, offers new information on

their occurrence and identifies occupations and situations at particular risk. It is organised in three sections: understanding violence at work; responding to violence at work; future action.

Quality assurance is a relatively new phenomenon in internationalisation. This publication offers basic knowledge and suggests tools to maintain or increase the quality of an institution's internationalisation. This volume is written especially for internationalisation

officers, policymakers and other staff in higher education involved in internationalisation and its quality assurance. It will not give an in-depth insight into quality assurance, nor will it offer a detailed description of the best quality assurance system for internationalisation. It is rather a collection of possible actions to take for the quality assurance of internationalisation. Which measures should be chosen will depend largely on the characteristics of an

individual institution. The central question to be addressed by the present volume is how can we assure the quality of internationalisation of an institution? I hope the examples and suggestions given will provide you with useful procedures and systems from which to choose the most applicable to your institution. -- Preface by Adinda van Gaalen.
Language and Social Relations BRILL
 Volume X of the World Investment Directory series of UNCTAD covers

53 economies of the African region. Data are presented on both inward and outward flows and stocks of foreign direct investment (FDI), operations of transnational corporations (TNCs), and basic information on the largest TNCs in and from these countries and information on the regulatory framework affecting FDI, organized by country. The data on inward and outward FDI flows and stocks are based on information as of December 2007.

Arbitration Under International Investment

Agreements OECD Flexible housing is

housing that can adjust to the changing needs of the user and accommodate new technologies as they emerge. Flexible Housing by Jeremy Till and Tatjana Schneider examines the past, present and future of this important subject through over 160 international examples. Specially commissioned plans, printed to scale, together with over 200 illustrations and diagrams provide fascinating detail and allow direct visual comparisons to be made. Combining history, theory and design the book

explains the social and economic benefits that can be achieved and shows the various ways it has been and can be delivered. The book ends with an accessible guide to how flexible housing might be designed and constructed today to achieve adaptable and ultimately sustainable buildings. Housing designers, housing managers and students of architecture, construction and housing will find this book of immense value both as a comprehensive reference and design

manual.
