BLAKE SYLVIA

The Remarkable Journeys of Jason and Gareth Bethlehem Books
An authoritative guide to the Egyptian myths that sheds new light on an ancient way of understanding the world. This survey of Egyptian mythology explores how the ancient Nile-dwellers explained the world around them. It delves into the creation and evolution of the world and the reigns of the gods on earth, before introducing us to the manifestations of Egypt's deities in the natural environment; the inventive ways in which the Egyptians dealt with the invisible forces all around them; and their beliefs about life after death. Through his engaging narrative, Garry Shaw guides us through the mythic adventures of such famous deities as Osiris, the god murdered by his jealous brother Seth;

the magical and sometimes devious Isis, who plotted to gain the power of the sun god Re; and Horus, who defeated his uncle Seth to become king of Egypt. He also introduces us to lesser known myths, such as the rebellions against Re; Geb's quest for Re's magical wig; and the flaying of the unfortunate god Nemty. From stars and heavenly bodies sailing on boats, to the wind as manifestation of the god Shu, to gods, goddesses, ghosts, and demons—beings that could be aggressive, helpful, wise, or dangerous—Shaw goes on to explain how the Egyptians encountered the mythological in their everyday lives.

For over a decade Nefertiti, wife of the heretic king Akhenaten,

was the most influential woman in the Bronze Age world; a beautiful queen blessed by the sun-god, adored by her family and worshipped by her people. Her image and her name were celebrated throughout Egypt and her future seemed golden. Suddenly Nefertiti disappeared from the royal family, vanishing so completely that it was as if she had never been. No record survives to detail her death, no monument serves to mourn her passing and to this day her end remains an enigma - her body has never been found. Joyce Tyldesley here provides a detailed discussion of the life and times of Nefertiti, Egypt's sun queen, set against the background of the ephemeral Amarna court. A Story Based on the Life of Young Harriet Tubman University of Pennsylvania Press

The ancient world comes to life in the first volume in a two book series on the history of Egypt, spanning the first farmers to the construction of the pyramids. Famed archaeologist John Romer draws on a lifetime of research to tell one history's greatest stories; how, over more than a thousand years, a society of farmers created a rich, vivid world where one of the most astounding of all human-made landmarks, the Great Pyramid, was built. Immersing the reader in the Egypt of the past, Romer examines and challenges the long-held theories about what archaeological finds mean and what stories they tell about how the Egyptians lived. More than just an account of one of the most fascinating periods of history, this engrossing book asks readers to take a step back and question what they've learned about Egypt in the past. Fans of Stacy Schiff's Cleopatra and history buffs will be captivated by this re-telling of Egyptian history, written by one of the top Egyptologists in the world.

'Man perishes; his corpse turns to dust; all his relatives pass away. But writings make him remembered.' The fascination Ancient Egypt holds in our minds has many sources, but at the heart of it lie hieroglyphics. This extraordinary writing system was for many years seen as the ultimate challenge and puzzle before finally being cracked in the 1820s. Preserved carved in stone or inked on papyri, hieroglyphic writings give a unique insight into an awe-inspiring but also deeply mysterious culture. Toby Wilkinson has translated a rich selection of pieces, ranging from accounts of battles to hymns to stories to royal proclamations. This book is both very enjoyable and an essential resource for anyone wanting to study one of humankind's great civilizations.
