ITI Welder Welding and Inspection
Manoj Dole
Set in the backdrop of

the Sunday Book Bazaar at Daryaganj, Delhi, GOD LOVES DARYAGANJ is the love story of Daya, a Dalit girl from Haryana, who has become a teacher in a

school in Sonipat and Om, an upper caste Bihari student of Law in Delhi. The story that revolves around their love for books and their blossoming of

love for each other is interspersed with rolling - on - the - floor campus humor and stories within stories that touch on the themes of inter- caste marriage, untouchability and discrimination based on caste. Written with lucidity and utmost sensitivity, the book is a page-turner, coming from the pen of a lawyer who is already busy writing a sequel to God Loves Daryaganj.

★ABOUT THE BOOK:
Presentation of the book is made in very simple and easily understandable language and well supported with wide range of illustrations. The subject matter of this book meets the

requirement of B. Tech. and M. Tech. Mechanical Engineering students. Advanced Welding Technology is taught at the professional level as a compulsory /Elective subject in various universities, AMIE and IME schemes. A successful Welding Engineer should be more familiar with the current welding processes and new welding techniques. Inspection is the essential basic

strength of any product. It is the inspection whether at the stage of manufacturing or at in service stage ensures the proper production of product and hence produces wealth for that organisation. Hence the objective of the book is to provide Engineering personnel with the background knowledge of inspection of products without destroying them, i.e. by Non-

destructive techniques used in Modern Industry. This book will also be suitable for personnel's from various disciplines like Mechanical Engg., Industrial Engg., Production Engg., Metallurgical Engg. and Manufacturing Technology etc. The matter of this book is divided into seven chapters which covers the topics on Introduction, Conventional Welding Processes, Advance Welding Process, Weld Design and Quality Control, Inspection and Testing and Thermal and Metallurgical Consideration s, and Non-Destructive Testing (N.D.T.) Lab. work.

★RECOMMENDATIONS: A textbook for all Engineering Branches, Competitive Examination, ICS, and AMIE Examinations
