A practical and applied introduction to criminal justice Introduction to Criminal Justice: Practice and Process shows you how to think practically about the criminal justice system by offering you a proven, problem-based approach to learning. Bestselling authors Kenneth J. Peak and Tamara D. Madensen draw on their many years of combined practitioner and academic experience to explain the importance of criminal justice and show how key trends, emerging issues, historical background, and practical lessons can be applied in the field. New to the Third Edition: An emphasis on constitutional policing, legitimacy, and procedural justice stresses the importance for police to develop a "guardian" mindset over a "soldier" mindset. New discussions of contemporary criminological theories—such as social structure theories, social process theories, social conflict theories, feminist

theories, and environmental criminology theories—provide you with a concise explanation on why people commit crimes and how to prevent them in the modern world. An in-depth view of three particularly challenging problems and policy issues—terrorism, the mentally ill population, and illegal immigration—demonstrate how today's society and the criminal justice system are affected by these issues and what can be done to address the problems. New examples and case studies of ethical dilemmas illustrate today's climate of distrust, dissension, and dysfunction to encourage you to think critically about what is considered "ethical". New video interviews with criminal justice professionals offer you career advice, provide you with insights into a variety of career paths, and discuss challenges and misconceptions of each profession.

Introduction to Criminology: Theories, Methods, and Criminal Behavior is a comprehensive introduction to the study of criminology, with a chapter devoted to the criminal justice system. Valued and admired for the author's easy-to-read writing style and the text's overall accessibility, this book concentrates on the vital core of criminological theory-theory, method, and criminal behavior-and successfully avoids an overly legal or crime control orientation. Updated throughout and with a visually engaging new two-color design, the Sixth Edition investigates all major forms of criminal activity, including organized crime, white collar crime, political crime, and environmental crime. Author Frank E. Hagan explains the methods of operation, the effects on society, and how various theories account for criminal behavior. New to the Sixth Edition Offers expanded treatment of theory: An additional theory chapter (Chapter 5) explores psychological and biological theories, and the author has provided additional coverage of Developmental/Life

Course theory in Chapter 6. Presents expanded detail on many types of crime: The book features comprehensive treatment of all crime typologies. Provides broader coverage of crime in its various forms: With major coverage of white collar, political, and organized crime, the text fully addresses topics such as Warez software piracy, spies, assassins, new organized crime groups, and major corporate scandals. Incorporates updated and new "Crime Files" and "In the News" boxes: New captivating examples include the Virginia Tech shootings; the BTK killer; Washington, DC snipers; Red Lake Massacre; and the Hanssen Spy case. Includes a new final chapter on the criminal justice system (Chapter 14): This chapter provides a brief overview to acquaint students who have not had a separate course on the justice system. Features an updated photo program: Contemporary visual representations bring to life the theories and crime typologies covered in the text. Accompanied by High Quality Ancillaries Student Study Site at www.sagepub.com/hagan study: The study site

includes self-quizzes, links to interesting and useful audio and video files (NPR and PBS radio archives, Frontline videos), carefully selected journal articles, Web research exercises, E-flashcards, and more. Critical and Peacemaking Themes Influenced by Richard Quinney
Routledge

The book explores police legitimacy and crime

control, with a focus on the European region. Using comparative case studies, the contributions to this timely volume examine the effects of a transition to democracy on policing, public attitudes towards police legitimacy, and the ways in which perceptions of police legitimacy relate to compliance with the law. Following these case studies, the authors provide recommendations for improving police legitimacy and controlling crime, in these particular sociopolitical environments, where the police are often associated with previous military or paramilitary roles. The techniques used by these researchers may be applied to studies for policing in other regions, with potential applications within Europe and beyond. Chapters present topical issues of crime, crime control and human emotions regarding crime, criminals, law enforcement and punishment in contemporary societies. This book will be of interest to researchers in criminology and criminal justice, as well as political science and public policy. This book is highly recommended for anyone

interested in procedural justice and legitimacy, encounters between citizens and the state, the effectiveness of governmental institutions, and democratic development. It stands alone in its broad, cross-national contributions to understanding these issues. -Wesley G. Skogan, PhD, Professor of Political Science, Northwestern University, Chicago, IL, USA *Varieties of Comparative Criminology* Routledge "This is a very good statistics book; it is user-friendly, logically structured, and provides novel information that is not available in other comparable textbooks." — Viviana Andreescu, University of Louisville Statistics for Criminology and Criminal Justice, Fourth Edition offers students a practical and comprehensive introduction to statistics and highlights the integral role research and statistics play in the study of criminology and criminal justice. Packed with real-world case studies and contemporary examples utilizing the most current crime data and empirical research available, students not only learn how to perform and understand statistical

analyses, but also recognize the connection between statistical analyses use in everyday life and its importance to criminology and criminal justice. Written by two well-known experts in the field, Ronet D. Bachman and Raymond Paternoster continue to facilitate learning by presenting statistical formulas with step-by-step instructions for calculation. This "how to calculate and interpret statistics" approach avoids complicated proofs and discussions of statistical theory, without sacrificing statistical rigor. The Fourth Edition is replete with new examples exploring key issues in today's world, motivating students to investigate research questions related to criminal justice and criminology with statistics and conduct research of their own along the way. Introducing Criminology
 Jones & Bartlett Learning
 Through theoretical and empirical examination of legal frameworks for court diversion, this book interrogates law's complicity in the debilitation of disabled people. In a post-deinstitutionalisation era, diverting disabled people from criminal justice systems and into mental health and disability services is considered therapeutic, humane and socially just. Yet, by drawing on Foucauldian theory of biopolitics, critical legal and political theory and critical disability theory, Steele argues that court diversion continues disability oppression. It can facilitate criminalisation, control and punishment of disabled people who are not sentenced and might not even be convicted of any criminal offences. On a broader level, court diversion contributes to the longstanding phenomenon of disability-specific coercive intervention, legitimates prison incarceration and shores up the boundaries of foundational legal concepts at the core of jurisdiction, legal

personhood and sovereignty. Steele shows that the United Nations Convention on the Rights of Persons with Disabilities cannot respond to the complexities of court diversion, suggesting the CRPD is of limited use in contesting carceral control and legal and settler colonial violence. The book not only offers new ways to understand relationships between disability, criminal justice and law; it also proposes theoretical and practical strategies that contribute to the development of a wider re-imagining of a more progressive and just socio-legal order. The book will be of interest to scholars and students of disability law, criminal law, medical law, socio-legal studies, disability studies, social work and criminology. It will also be of interest to disability, prisoner and social justice activists.

Recent years have witnessed an increase in the attention given to the later stages of criminal careers. Research upon this topic has charted the main factors associated with the termination of criminal careers, outlined some of the possible reasons behind these relationships and started to develop theoretical explanations for such relationships. Collected together for the first time are some of the most important contributions to this field of research. The collection focuses upon the initial explorations into this topic, the most commonly observed findings, the cessation of offending by specific offender-types and theoretical matters. An introductory essay by the editor provides a thorough overview of the work in this area and highlights the reasons why the termination of criminal careers will become increasingly important to

criminologists and criminal justice policy makers alike.

Systems, Diversity, and Change SAGE Publications

Research Methods in Criminal Justice and Criminology connects key concepts to real field research and practices using contemporary examples and recurring case studies throughout the book that demonstrate how concepts relate to students' lives. Authors Callie M. Rennison and Timothy C. Hart introduce practical research strategies used in criminal justice to show students how a research question can become a policy that changes or influences criminal justice practices. The book's student-driven approach addresses both the "why" and the "how" as it covers the research

process and focuses on the practical application of data collection and analysis. By demonstrating the variety of ways research can be used, and reinforcing the need to discern quality research, the book prepares students to become critical consumers and ethical producers of research. The Second Edition includes two new case studies woven throughout, and new expert profiles to highlight contemporary topics. Editable PowerPoint slides and a test bank are available to instructors at: <https://edge.sagepub.com/rennison-research-methods-2e>.

Introduction to Criminology SAGE Publications

A unique text/reader that takes a comprehensive, interdisciplinary approach to the study of criminology Providing an affordable alternative to the standard textbook, this new edition of the authors' popular text/reader provides instructors and students the best of both worlds – authored text with carefully selected accompanying readings. Now thoroughly updated with new articles, new content, and new statistics, tables, and figures, this Second Edition provides an interdisciplinary perspective on crime and criminality that incorporates the latest theories, concepts, and research from sociology, psychology, genetics, evolutionary biology, and the neurosciences. The new edition is divided into 15 sections that mirror chapters in a typical criminology textbook.

New to This Edition: A new Section 11 on Mass Murder and Terrorism makes coverage of these high-interest topics even more accessible. Section 10 now focuses only on

murder, rape, robbery, aggravated assault, and domestic violence, making it easier for students to absorb the material. New articles appear in the structural theories section, the sections devoted to violent crime, and throughout the text/reader as needed. The authors now more closely link sections on types of crime to sections on theory to give readers a more cohesive understanding of the connections between the two. Contemporary criminologists' favored theories (drawn from a survey of 770 criminologists) now appear in a table to give readers insight into the professional opinion today on criminological theories. Features: Each Section has a 15-page introduction (a "mini-chapter") that contains vignettes, photos, tables and graphs, end-of-chapter questions, and Web exercises, followed by three to four supporting readings. Theory Section introductions contain a unique table that compares and contrasts the theories presented, while theory concluding sub-sections focus on policy and crime

prevention. A "How to Read a Research Article" guide (which appears prior to the first reading)

illustrates key aspects of a research article. The book's readings are drawn

from carefully selected, edited journal articles appropriate for an undergraduate audience.
