Walter de Gruyter GmbH & Co KG

The popular Postmortem column in Game Developer magazine features firsthand accounts of how some of the most important and successful games of recent years have been made. This book offers the opportunity to harvest this expertise with one volume. The editor has organized the articles by theme and added previously unpublished analysis to reveal successful management techniques. Readers learn how superstars of the game industry like Peter Molyneux and Warren Spector have dealt with the development challenges such as managing complexity, software and game design issues, schedule challenges, and

changing staff needs.

*GURPS Basic Set: Campaigns* Steve Jackson Games

Grounded in research and extensive experience in schools, this engaging book describes practical ways to combat bullying at the school, class, and individual levels. Step-by-step strategies are presented for developing school- and districtwide policies, coordinating team-based prevention efforts, and implementing targeted interventions with students at risk. Special topics include how to involve teachers, parents, and peers in making schools safer; ways

to address the root causes of bullying and victimization; the growing problem of online or cyberbullying; and approaches to evaluating intervention effectiveness. In a large-size format with convenient lay-flat binding, the book features helpful reproducibles, concrete examples, and questions for reflection and discussion. This book is in The Guilford Practical Intervention in the Schools Series, edited by T. Chris Riley-Tillman.

*The Cancer Stage of Capitalism* Grand Central Publishing

Former adventurer and treasure hunter Sheva Callister is offered a special, mysterious reward by a noble from the city of Ptolus in exchange for her retrieval of a seemingly unimportant brooch. Against her better judgment,

Sheva takes the job and finds herself in a complex web of deception. Young adult.

*Why Humanae Vitae Was Right* Steve Jackson Games

A BASIC ROLEPLAYING GAME: The Nordic and Celtic peoples who settled Iceland in the 9th century came from lands with rich traditions of folklore, where the mythical and supernatural were part of daily life. They found an island of striking beauty, with inland valleys, richly grassed and forested lowlands, massive glaciers, and impressive volcanic mountain ranges. They also found the land to be teeming with spirits of nature and mythic creatures. This book aims to bring to life the world of the Icelandic Sagas and fairy tales, using the Basic Roleplaying system.

For the 25th anniversary year of the historic document *Humanae Vitae*(1968), Janet Smith has gathered together twenty-one outstanding essays and articles by well-respected thinkers to provide the demonstration that Pope Paul VI was not simply correct, but prophetic. While this document is still widely neglected and misunderstood, the Church continues to proclaim that contraception is a moral evil and that the view of man, sexuality, and marriage that leads to the use of the Pill is not one that is compatible with human dignity, sexual responsibility and spousal love. Many are unaware that there have been energetic and persuasive worth defenses of this teaching. The general reader, as

well as the ethicist and moral theologian, will find much here to stimulate his thinking on this issue. Contributors include William May, Paul Quay, Elizabeth Anscombe, Dietrich von Hildebrand, Carlo Caffara, Cormac Burke, Ralph McInerny, John Kippley, John Finnis and Janet Smith.

*Cyberpunk Red Data Screen* Sword & Sorcery Studio

CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and

interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

In this bold new look at the recent uncontrolled spread of global capitalism, John McMurtry, professor of philosophy at the University of Guelph, develops the metaphor of modern capitalism as a cancer. Its invasive growth, he argues, threatens to break down our society's

immune system and--if not soon restrained--could reverse all the progress that has been made toward social equity and stability. On every continent, in every state, there are indicators of profound economic and environmental collapse. From the lands of indigenous communities to the currency markets of Asia, from the ocean floors to the ozone layer, the collapse is all-encompassing and deep-reaching. John McMurtry traces the causes of this global disorder back to the mutating assumptions of market theory that now govern the world's economy. He diagnoses the malaise as a pathologist would a biological cancer, tracking the delinked circuits of the global system's monetised growth as a carcinogenic disorder at the social level

of life-organization. In the wide-lensed tradition of Adam Smith, Marx and Keynes, McMurtry cuts across academic disciplines and boundaries to penetrate the inner logic of the system's problems. Far from pessimistic, he argues that the way out of the global crisis is to be found in an evolving substructure of history which provides a common ground of resolution across ethnic and national divisions. Reaching beyond conventional textbooks, this fascinating study offers a new paradigm which is accessible to intelligent citizens the world over.

**The Playwright as Thinker** Black Library

Being a Hero is tough. Especially if you're wasting your precious game time fighting silly rules instead of monsters. When it comes to designing characters,

no system gives you more control over your character design than Rolemaster. Say goodbye to arbitrary limits and "you can't do that!", because with Rolemaster you can!

*Monte Cook's Ptolus* Ignatius Press

This book engages non-digital role-playing games—such as table-top RPGs and live-action role-plays—in and from Japan, to sketch their possibilities and fluidities in a global context. Currently, non-digital RPGs are experiencing a second boom worldwide and are increasingly gaining scholarly attention for their inter-media relations. This study concentrates on Japan, but does not emphasise unique Japanese characteristics, as the practice of embodying an RPG character is always contingently realised. The purpose is to

trace the transcultural entanglements of RPG practices by mapping four arenas of conflict: the tension between reality and fiction; stereotypes of escapism; mediation across national borders; and the role of scholars in the making of role-playing game practices.
