ZAYDEN BLANCHARD

Gadflies, Horses, Swans, and Other Philosophical Beasts Routledge

"A unique and intriguing point of entry into the dialogues and a variety of concerns from metaphysics and epistemology to ethics, politics, and aesthetics." —Eric Sanday, University of Kentucky Plato's *Animals* examines the crucial role played by animal images, metaphors, allusions, and analogies in Plato's dialogues. These fourteen lively essays demonstrate that the gadflies, snakes, stingrays, swans, dogs, horses, and other animals that populate Plato's work are not just rhetorical embellishments. Animals are central to Plato's understanding of the hierarchy between animals, humans, and gods and are crucial to his ideas about education, sexuality, politics, aesthetics, the afterlife, the nature of the soul, and philosophy itself. The volume includes a comprehensive annotated index to Plato's bestiary in both Greek and English. "Plato's *Animals* is a strong volume of beautifully written paeans to postmodern themes found in premodern thought." —Notre Dame Philosophical Reviews "Shows readers of Plato that he remains significant to issues currently pursued in Continental thought and especially in relation to Derrida and Heidegger." —Robert Metcalf, University of Colorado, Denver "Will provide fertile ground for future work in this area." —Jill Gordon, author of *Plato's Erotic World*

The Pragmatics of Indirect Reports Good Press

New essays on topics spanning the Age of Goethe, with a special section of fresh views of Goethe and Idealism.

The Subject of Addiction Algonquin Books

It is said that words are like people: One can encounter them daily yet never come to know their true selves. This volume examines what words are—how they exist—in religious phenomena. Going beyond the common idea that language merely describes states of mind, beliefs, and intentions, the book looks at words in their performative and material specificity. The contributions in the volume develop the insight that our implicit assumptions about what language does guide the way we understand and experience religious phenomena. They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language.

Religious Language Matters Univ. Press of Mississippi

"One of the most important chroniclers of the modern psyche." —The Guardian The novelist, cultural critic, and indie icon serves up sometimes bitchy, always generous, erudite, and joyful assessments from the last thirty-five years of cutting edge film, art, and literature. Whether he's describing Tracy Emin or Warhol, the films of Barbet Schroeder ("Schroeder is well aware that life is not a narrative; that we impose form on the movements of chance, contingency, and impulse...") or the installations of Barbara Kruger ("Kruger compresses the telling exchanges of lived experience that betray how skewed our lives are..."), Indiana is never just describing. His writing is refreshing, erudite, joyful. Indiana champions shining examples of literary and artistic merit regardless of whether the individual artist or writer is famous; asserts a standard of care and tradition that has nothing to do with the ivory tower establishment; is unafraid to deliver the coup de grâce when someone needs to say the emperor has no clothes; speaks in the same breath—in the same discerning, insolent, eloquent way—about high art and pop culture. Few writers could get away with saying the things Gary Indiana does. And when the writing is this good, it's also political, plus it's a riot of fun on the page. Here is Gary Indiana on Euro Disney resort park in Marne-la-Vallée outside of Paris: John Berger compares the art of Disney to that of Francis Bacon. He says that the same essential horror lurks in both, and that it springs from the viewer's imagining: There is nothing else. Even as a child, I understood how unbearable it would be to be trapped inside a cartoon frame. "Since 1987, Indiana has published novels, nonfiction, plays, short stories — all with an unmistakable, sardonic voice embedded in the text ..." —Los Angeles Times

... A rare and uplifting vision of the biological future we can and should create for ourselves.—Dr. Gregory Fahy, Chief Scientific Officer, Vice President of 21st Century Medicine The debate about the ethics of human biotechnology or genetic engineering is one of the most important cultural issues of our time. Transhumanism is the philosophy that most of all supports genetic science and biotechnology, yet the public knows little about this emerging philosophy. Transhumanism declares unequivocal support for the attempt to eliminate disease, defeat death, and enhance the body and mind beyond the limitations of the age-old human condition. In *Designer Evolution* Simon Young presents a polemical espousal of transhumanist philosophy and a trenchant attack on its critics, the Bio-Luddites. The author calls for a rejection of premodern superstition and postmodern nihilism in favor of a renewed belief in human progress through scientific rationality. In an age when cynicism, fatalism, and nihilism are rife, *Designer Evolution* will rekindle a feeling of optimism about the future of our species. This is a concise, reader-friendly introduction to a vitally important philosophy that will become difficult to ignore as advances in biotechnology increasingly claim the headlines in the coming decades. Simon Young (Brighton, East Sussex, UK), the son of pioneering cybernetician and science writer J. F. Young, is an accomplished pianist who has performed throughout Europe.

Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Poisoning Eros Prometheus Books

From her seminal *Eros the Bittersweet* (1986) to her experimental *Float* (2016), Bakkhai (2017) and Norma Jeane Baker of *Troy* (2019), Anne Carson's engagement with antiquity has been deeply influential to generations of readers, both inside and outside of academia. One reason for her success is the versatile scope of her classically-oriented oeuvre, which she rethinks across multiple media and categories. Yet an equally significant reason is her profile as a classicist. In this role, Carson unflinchingly refuses to conform to the established conventions and situated practices of her discipline, in favour of a mode of reading classical literature that allows for interpretative and creative freedom. From a multi-praxis, cross-disciplinary perspective, the volume explores the

erudite indiscipline of Carson's classicism as it emerges in her poetry, translations, essays, and visual artistry. It argues that her classicism is irreducible to a single vision, and that it is best approached as integral to the protean character of her artistic thought. Anne Carson/*Antiquity* collects twenty essays by poets, translators, artists, practitioners and scholars. It offers the first collective study of the author's classicism, while drawing attention to one of the most avant-garde, multifaceted readings of the classical past.

A Novel Springer

Sometimes life is unfair. Sometimes life just plain sucks. You do what you can to get by, but sometimes even that isn't enough. Meet Gloria, aging porno star, drug addict, failed wife and mother—seduced into a monstrous world of depraved sex and violent deceit, battling to save her immortal soul and that of her only daughter from Inferno ... and you thought your life was hell.

Mythos Untold Series Ann Arbor, U. of Michigan P

"A woman sits in her apartment in an unnamed English city, absorbed in watching the dramas of her neighbors through their windows. Traumatized into muteness after a long, devastating trip from war-torn Syria to the UK, she believes that she wants to sink deeper into isolation, moving between memories of her absent boyfriend and family and her homeland, dreams, and reality. At the same time, she begins writing for a magazine under the pseudonym "the Voiceless," trying to explain the refugee experience without sensationalizing it or revealing anything about herself. Gradually, as the boundaries of her world expand, she has to make a choice: Will she remain a voiceless observer, or become an active participant in her own life and in a community that, despite her best efforts, is quickly becoming her own?"—

The Tragic Absolute Indiana University Press

Challenging previous interpretations of Levinas that gloss over his use of the feminine or show how he overlooks questions raised by feminists, Claire Elise Katz explores the powerful and productive links between the feminine and religion in Levinas's work. Rather than viewing the feminine as a metaphor with no significance for women or as a means to reinforce traditional stereotypes, Katz goes beyond questions of sexual difference to reach a more profound understanding of the role of the feminine in Levinas's conception of ethical responsibility. She combines feminist interpretations of Levinas with interpretations that focus on his Jewish writings to reveal that the feminine provides an important bridge between his philosophy and his Judaism. Katz's reading of Levinas's conception of the feminine against the backdrop of discussions of women of the Hebrew bible points to important shifts in contemporary philosophy toward the creation of life and care for the other.

A Dictionary of Arts, Sciences, Literature & General Information; the Three New Supplementary Volumes Constituting with the Volumes of the Latest Standard Edition, the Thirteenth Edition ... Bloomsbury Publishing

Ambiguity in the Western Mind includes a collection of essays by internationally renowned scholars such as John D. Caputo, Camille Paglia, Jaroslav Pelikan and Roland Teske along with a preface by Joseph Margolis, all taking up the question of the significance of ambiguity in Western thought. This engaging topic will be of interest to scholars and students alike from across the disciplines. Tracing the conceptual relevance of ambiguity historically and through some of the great books that have formed Western consciousness, this volume is a major contribution to the contemporary discussion surrounding this controversial notion, especially as a hermeneutical concept for interpreting the classics.

From bestselling author and the star of Food Network's *The Kitchen*, It's Not Complicated offers recipes designed to simplify cooking (and life!) After years of throwing lavish, carefully planned dinner parties, hosting numerous food shows, and jet-setting across the globe, Katie Lee has settled down. Having recently married the love of her life, Lee prefers quiet dinners with her family to multi-day cooking affairs for dozens of guests. Pasta every Sunday. Thick cut rib eyes. Ideas for cooking vegetables that go beyond roasting. A perfect brownie. In short, her life is guided by a new principle: Things don't need to be complicated to be good. In *It's Not Complicated*, Katie Lee, author, influencer, and Food Network star, offers 100 of her favorite recipes that are easy, yet exciting—and always delicious. Written for the veteran chef and kitchen novice alike, Lee's recipes have few ingredients and simple steps that are meant to ease up your life. Perfect for weeknights, but special enough for having people over, *It's Not Complicated* shares the recipes people really want: classic, unfussy sure-things. *for full directions on the Creamy Spinach Artichoke Pasta, visit <https://www.abramsbooks.com/errata/craft-errata-its-not-complicated/>*

Levinas, Judaism, and the Feminine Wipf and Stock Publishers

Provides an introduction for those engaged in the study of theology whose knowledge of philosophy is felt less than suitable for maximizing their studies. Explores the earliest philosophers, classical Greek philosophy and the ways it developed during the early Christian centuries, and how philosophy continued to develop into the twentieth century.

The Encyclopædia Britannica Peter Lang

A repackaged edition of the revered author's classic work that examines the four types of human love: affection, friendship, erotic love, and the love of God—part of the C. S. Lewis Signature Classics series. C.S. Lewis—the great British writer, scholar, lay theologian, broadcaster, Christian apologist, and bestselling author of *Mere Christianity*, *The Screwtape Letters*, *The Great Divorce*, *The Chronicles of Narnia*, and many other beloved classics—contemplates the essence of love and how it works in our daily lives in one of his most famous works of nonfiction. Lewis examines four varieties of human love: affection, the most basic form; friendship, the rarest and perhaps most insightful; Eros, passionate love; charity, the greatest and least selfish. Throughout this compassionate and reasoned study, he encourages readers to open themselves to all forms of love—the key to understanding that brings us closer to God.

Socio-philosophical Considerations Daimon

This monograph on indirect reports offers insights on the semantics/pragmatics interface and a refinement of the notion of explicature. The volume is written in an engaging style and guides the reader through the theoretical problems and their ramifications. The thorniest problem in the study of indirect reports is their polyphonic nature, and how the listener distinguishes between the reporter's voice and the original speaker's voice, either by contextual clues or, in the absence of such clues, by resorting to pragmatic principles. The introductory chapter discusses the main issues that will be addressed in the volume. The next chapters focus on the various aspects of indirect reports, covering both theory and practical applications.

Essays on the Theology and Ethics of the Kingdom of God Seven Stories Press

Freud is discredited, so we don't have to think about the darker strains of unconscious motivation anymore. We know what moves our political leaders, so we don't have to look too closely at their thinking either. In fact, everywhere we look in contemporary culture, knowingness has taken the place of thought. This book is a spirited assault on that deadening trend, especially as it affects our deepest attempts to understand the human psyche in philosophy and psychoanalysis. It explodes the widespread notion that we already know the problems and proper methods in these fields and so no longer need to ask crucial questions about the structure of human subjectivity. What is psychology? Open Minded is not so much an answer to this question as an attempt to understand what is being asked. The inquiry leads Jonathan Lear, a philosopher and psychoanalyst, back to Plato and Aristotle, to Freud and psychoanalysis, and to Wittgenstein. Lear argues that Freud and, more generally, psychoanalysis are the worthy inheritors of the Greek attempt to put our mindedness on display. There are also, he contends, deep affinities running through the works of Freud and Wittgenstein, despite their obvious differences. Both are concerned with how fantasy shapes our self-understanding; both reveal how life's activities show more than we are able to say. The philosophical tradition has portrayed the mind as more rational than it is, even when trying to account for irrationality. Psychoanalysis shows us the mind as inherently restless, tending to disrupt its own functioning. And empirical psychology, for its part, ignores those aspects of human subjectivity that elude objective description. By triangulating between the Greeks, Freud, and Wittgenstein, Lear helps us recover a sense of what it is to be open-minded in our inquiries into the

human soul.

Ambiguity in the Western Mind Fordham University Press

"A short history of the British school at Athens. 1886-1911", by G. A. Macmillan: no. 17, p. [ix]-xxxviii.

The Edge of Knowing University of Washington Press

Antisthenes was famous in antiquity for his studies of Homer's poems, his affiliation with Gorgias and the sophistic movement, his pure Attic writing style, and his inspiration of Diogenes of Sinope, who founded the Cynic philosophical movement. Antisthenes stands at two of the greatest turning points in ancient intellectual history: from pre-Socraticism to Socraticism, and from classical Athens to the Hellenistic period. Antisthenes' works form the path to a better understanding of the intellectual culture of Athens that shaped Plato and laid the foundations for Hellenistic philosophy and literature. Antisthenes of Athens keeps in mind the goals and polemics framing each philosophical and textual discussion. The volume considers the ancient traditions about Antisthenes' rejection of Plato's "Theory of Forms," his assertion of the paradox, "It is impossible to gainsay," and his denial that definition of essence is possible, as well as the plausible intentions of Antisthenes. In cases where these questions are not easily settled, and where modern interpretation has varied, Susan H. Prince identifies the roots of the disagreements. The goal and meaning of Antisthenes' other famous ancient paradox, "I would rather go mad than have pleasure," is illuminated by comparison with other evidence showing that pleasure does have a place in his ideology. Evidence for his relationship to Diogenes of Sinope, and for his receptions by the Cynics, Stoics, Skeptics, Christians, and Neo-Pagans is examined for both its historical value and its distorting tendencies.
