Anthony Panizzi (1797-1879), born in Brescello, Italy, qualified as a lawyer, but fled to Switzerland in 1823 to avoid arrest for his political activities in support of Italian unification. He then moved to England, where he became a naturalised British subject. The patronage of Lord Brougham, the Lord Chancellor, got him a post in the British Museum Library, where he remained for thirty-five years. He was responsible for the great expansion of the library, the building of the famous round Reading Room, and the compilation of cataloguing rules which remain influential today. Volume 1 of this two-part 1880 biography by his colleague Louis Fagan (1845-1903) deals with Panizzi's early life in Italy, his arrival in England, his scholarly work as editor of Ariosto and Professor of Italian, and his early years at the British Museum. Panizzi combined his career with continuing support for the cause of Italian unity.

Anthony Panizzi (1797-1879), was a naturalised British librarian of Italian birth and an Italian patriot. He was the Principal Librarian of the British Museum from 1856 to 1866. Apart from being a personal friend of British Prime ministers Lord Palmerston and William Ewart Gladstone, Panizzi conducted an active correspondence with Sardinian, and later Italian Prime Minister Count Camillo Benso di Cavour. In 1844, he assisted Giuseppe Mazzini, then in exile in London, by publishing an influential article denouncing the practice ordered by the Home Secretary of ordering Mazzini's private letters opened by the Post Office and giving copies of their contents to the Austrian Embassy. He also orchestrated a visit of Giuseppe Garibaldi to England, and convinced Gladstone to travel to Naples to view personally the inhumane conditions in which political prisoners were kept. Panizzi was a strong advocate of free and equal access to learning. He was influential in enforcing the Copyright Act of 1842, which required British publishers to deposit with the library a copy of every book printed in Britain. For his extraordinary services as a librarian, in 1869 he was

knighted by Queen Victoria. In addition to his English knighthood, Panizzi was given an honorary degree by Oxford University, the Légion d'Honneur from France, various chivalric honours from the Italian Government and Crown, and in 1868 was appointed as a senator in the Italian Parliament.

The contributions brought together in this book derive from joint seminars, held by scholars between colleagues from the University of Oxford and the University of Paris II. Their starting point is the original divergence between the two jurisdictions, with the initial rejection of the public-private divide in English Law, but on the other hand its total acceptance as natural in French Law.

Then, they go on to demonstrate that the two systems have converged, the British one towards a certain degree of acceptance of the division, the French one towards a growing questioning of it. However this is not the only part of the story, since both visions are now commonly coloured and affected by European Law and by globalisation, which introduces new tensions into our legal understanding of what is "public" and what is "private".
